RT15-2016 : Mobile Communication Services

HARDWARE FUND FOR DEVICES

Hardware Fund Operation

Vodacom creates the hardware fund for a participating institution

Number of users x R3,990.00 = Hardware Fund
E.g. 624 users x R3,990.00 = R2,489,760.00 (inclusive of VAT)

Participating Institution

If you procure devices within the hardware fund, there is no payment to Vodacom for the devices

If you procure devices over and above the available hardware fund, the institution should pay for the excess. This can be managed either by billing the institution which is payable within 30 days or by amortising the variance over a 24 month period.

Hardware Fund

It is an account created at Vodacom NOT at an institution

Accounted by Vodacom and not in Government books to manage the monthly procurement of hardware

national treasury
Department:
National Treasury
REPUBLIC OF SOUTH AFRICA

RT15-2016

Hardware Fund Operation

All State Institutions

To continue to budget as normal for mobile communication services

Hardware fund does not affect the institution's budget

The monthly subscription of R407 Excluding VAT includes a device
