RT284-2023 CONTRACT PRICING

Item Code	Category	Item Description	Name of the Bidder	Brand Name	Minimum Order Quantity	Product Code Number	Final Delivery Price Incl. 15% Vat
41104102-00002	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in adults Size 21G Sterile, Single use, Outer package must be labelled sterile	Promed Technologies (Pty) Ltd	INI/PROCARE	1 BOX	102002	R0,45
41104102-00002	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in adults Size 21G Sterile, Single use, Outer package must be labelled sterile	ACCESS MEDICAL	ACCESS	1 BOX	ACC01-102002	R0,47
41104102-00002	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in adults Size 21G Sterile, Single use, Outer package must be labelled sterile	Altys Technology (Pty) Ltd	Vitalys	1 000	05-172118	R0,46
41104102-00003	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in paediatric Size: 25G Sterile, Single use, Outer package must be labelled sterile	Promed Technologies (Pty) Ltd	INI/PROCARE	1 BOX	102003	R0,44
41104102-00003	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in paediatric Size: 25G Sterile, Single use, Outer package must be labelled sterile	UNITRADE 1032 CC	UNITRADE LANCET	10 BOXES	UTM03425	R0,46
41104102-00003	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in paediatric Size: 25G Sterile, Single use, Outer package must be labelled sterile	Becton Dickinson	) Microtainer® Quikheel™ incision lance	1 Box(50 units)	368103	R0,37
41104102-00004	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in neonates Size: 28G Sterile, Single use Outer package must be labelled sterile	Promed Technologies (Pty) Ltd	INI/PROCARE	1 BOX	102004	R0,44
41104102-00004	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in neonates Size: 28G Sterile, Single use Outer package must be labelled sterile	UNITRADE 1032 CC	UNITRADE LANCET	10 BOXES	UTM03428	R0,45

41104102-00004	Bloodletting Lancets	Bloodletting lancet, with safety retractable point, for use independent of any other device. For use in neonates Size: 28G Sterile, Single use Outer package must be labelled sterile	Becton Dickinson	) Microtainer® Quikheel™ incision lance	1 Box(50 units)	368102	R0,37
41104102-00005	Bloodletting Lancets	Lancing device Depth options: Must have depth penetration settings options Penetrations depth: Between 0.8mm and 2.0mm Lancing technology: Must be a controlled movement which ensures controlled movement and minimizes pain Weight of device: 21g 	UNITRADE 1032 CC	RUICHENG	10 BOXES	UTM034L	R6,10
41104102-00006	Bloodletting Lancets	Bloodletting Lancets Needle diameters: 0.4 mm Gauge of needle: Between 30G Depth penetration: Between 0.8mm and 2.3mm Needles must be coated with silicone Safety: Precise lancing, less risk of skin damage Packaging: Box of 100 lancets Single use Sterile	UNITRADE 1032 CC	RUICHENG	100 BXS	UTM03430	R0,09
41104102-00006	Bloodletting Lancets	Bloodletting Lancets Needle diameters: 0.4 mm Gauge of needle: Between 30G Depth penetration: Between 0.8mm and 2.3mm Needles must be coated with silicone Safety: Precise lancing, less risk of skin damage Packaging: Box of 100 lancets Single use Sterile	Logan Medical and Surgical (Pty) Ltd	Eezi-Lance™	1000	BLO017	R0,11
42142502-00021	Spinal Needles Quicke Point	Needle, spinal, quincke bevel; luer lock. The needle must be colour coded at the stylet cap and the size must be clearly stated. Must have a clear/ transparent needle hub to allow for easy identification of the spinal fluid flashback. The flashback must be quick relative to the needle gauge. Must have a key/slot arrangement of the stylet and hub and must be clearly indicate the bevelled orientation. Have a stable stylet that does not shake or quiver to allow for easy re-insertion into the cannula. Must align preciously with the stylet point. Must be bevelled at 220degrees Needle size: 20G with a needle length of 40mm ±2mm excluding hub Needle and stylet must be manufactured from good quality stainless steel. Plastic hub must be manufacture from medical grade plastic and all the components must be pyrogenic and latex free Sterile and individually peel packed	ACCESS MEDICAL	ACCESS	1 BOX	ACC01-502021	R3,88

42142502-00022	Spinal Needles Quicke Point	Needle, spinal, quincke bevel; luer lock. The needle must be colour coded at the stylet cap and the size must be clearly stated. Must have a clear/ transparent needle hub to allow for easy identification of the spinal fluid flashback. The flashback must be quick relative to the needle gauge. Must have a key/slot arrangement of the stylet and hub and must be clearly indicate the bevelled orientation. Have a stable stylet that does not shake or quiver to allow for easy re-insertion into the cannula. Must align preciously with the stylet point. Must be bevelled at 220degrees Needle size: 22G with a needle length of 40mm ±2mm excluding hub Needle and stylet must be manufactured from good quality stainless steel. Plastic hub must be manufacture from medical grade plastic and all the components must be pyrogenic and latex free Sterile and individually peel packed	DIVERSE PHARMACEUTICALS (PTY) LTD	MEDI JECT	1000	NDSS2240	R3,68
42142502-00022	Spinal Needles Quicke Point	Needle, spinal, quincke bevel; luer lock. The needle must be colour coded at the stylet cap and the size must be clearly stated. Must have a clear/ transparent needle hub to allow for easy identification of the spinal fluid flashback. The flashback must be quick relative to the needle gauge. Must have a key/slot arrangement of the stylet and hub and must be clearly indicate the bevelled orientation. Have a stable stylet that does not shake or quiver to allow for easy re-insertion into the cannula. Must align preciously with the stylet point. Must be bevelled at 220degrees Needle size: 22G with a needle length of 40mm ±2mm excluding hub Needle and stylet must be manufactured from good quality stainless steel. 42142502-00038	Epidura Needles (Tuohy)	Needle, epidural, paediatric, Tuohy bevel luer lock keyed stylet with matched bevelled point. The set must include: A Tuohy needle that: Is graduated in 1cm markings, has a precision fit stylet to prevent tissue coring and is marked to indicate bevel orientation and has a smooth inner bevel to prevent catheter shearing, clear ridged hub to aid with bevel positioning and a comfortable solid grip flange. Needle Size: 18G with a needle length of > 45 mm, < 50mm A loss of resistance syringe of 10ml with low friction An epidural catheter: Is kink resistant with good tensile strength, must have an atraumatic close ended tip with multiple side orifices, must be graduated with standard 1cm catheter markings from 5cm to 15cm to facilitate accurate catheter positioning and there must be double line at 10cm triple lines at 15cm and quadruple lines at 20cm. Epidural catheter size: 21G Catheter tip/catheter must be radio-opaque. A 20-micron filter that is flat with luer lock connectors. A securing device that connects the catheter securely to the filter – without risk of disconnection, compression of catheter or leaks. Needles, stylets and introducers must be manufactured from good quality stainless steel. Plastic hub must be manufacture from medical grade plastic and all the components must be pyrogenic and latex free. Must be sterile and individually peel packed	Supra Healthcare Johannesburg (Pty) Ltd	Avacare	1	EPIDU-21X50	R147,60
