- (2) The period allowed for making submissions in terms of subsection (1)(a)(ii) must be at least seven days.

  - (c) if the maker is the Ombud Council, provide a copy of the documents referred to in that subsection to the financial sector regulators, the National Credit Regulator and the Director-General.

- (2) A consultation report must include—
  - (a) a general account of the issues raised in the submissions made during the consultation; and
  - (b) a response to the issues raised in the submissions.
- (3) If the maker did not comply with section 98 or 99 for the reason stated in section 100, the consultation report must be published 30 days after the instrument was made and the report must include a statement of the reasons why the delay involved in complying, or complying fully, with sections 98 and 99 was considered likely to lead to prejudice to financial customers or harm to the financial system, or defeat the object of the regulatory instrument.

# **Applicable ombud schemes**

- **211.** (1) (a) If there is no recognised industry ombud scheme or statutory ombud scheme that makes provision for the resolution of complaints about financial products or financial services of a particular kind, the Ombud Council may, after consulting relevant ombud schemes, designate an ombud scheme, or two or more ombud schemes, to deal 25 with and resolve complaints about products or services of that kind.
- (b) If the Ombud Council designates two or more ombud schemes in terms of paragraph (a), it must also determine the elements of the complaint to be dealt with and resolved by each of the designated schemes.
- (c) The Ombud Council may so designate an ombud scheme on its own initiative or 30 on application by the scheme or a financial institution that provides or proposes to provide financial products or financial services of that kind.
- (2) If the Ombud Council designates an ombud scheme in terms of subsection (1) to deal with and resolve complaints about financial products or financial services of a particular kind—
  - (a) each ombud for the designated ombud scheme—
    - (i) has the power and the duty, despite anything in any Act or the governing rules of the ombud scheme, to deal with and resolve complaints about the products or services, in accordance with the designation; and
    - (ii) must deal with and resolve those complaints in the same way as it deals 40 with and resolves other complaints to which the ombud scheme relates; and

35

45

50

- (b) the governing rules of the ombud scheme must be read as including an obligation on the financial institution to comply with the determination of the ombud on those complaints.
- (3) If a financial institution provides financial products and financial services and there is a recognised industry ombud scheme that provides for the resolution of complaints about financial products or financial services of that kind, the financial institution must be a member of that industry ombud scheme.

## Overlaps between ombud schemes

- **212.** (1) An industry ombud scheme may not deal with a complaint to which a statutory ombud scheme applies, but must refer the complaint to the appropriate statutory ombud scheme unless the statutory ombud scheme has declined to deal with the complaint.
- (2) An ombud scheme may not deal with a complaint that has been dealt with by 55 another ombud scheme unless—
  - (a) the complaint is referred to it by the other ombud scheme; or

(b) the Ombud Council has designated both schemes in terms of section 211(1) to deal with and resolve complaints of the relevant kind and each scheme is dealing with the elements of the complaint in accordance with the applicable determination in terms of section 211(1)(b).

#### Collaboration between ombuds and ombud schemes

**213.** The ombud schemes, and the ombuds, must cooperate and collaborate with each other regarding complaints about financial institutions in relation to financial products and financial services, including by developing processes and procedures to jointly hear and determine complaints, on their own initiative or as may be required by Ombud Council rules.

## Governing rules of recognised industry ombud scheme

- **214.** (1) Before the Ombud Council can recognise an industry ombud scheme in terms of section 194, the Ombud Council must—

  - (b) submit the draft governing rules to the Financial Sector Conduct Authority.
- (2) The period allowed for making submissions on the governing rules or amendments to the governing rules in terms of subsection (1) must be at least 30 days.

- (b) Governing rules or amendments to governing rules that are adopted by a recognised industry ombud scheme without the approval by the Ombud Council are void.
- (4) The Ombud Council must not approve governing rules or an amendment to governing rules unless it is satisfied that to do so assists in achieving the object of this Act as set out in section 7.

## Obligation to comply with governing rules of recognised industry ombud schemes

- **215.** (1) A financial institution that is a member of a recognised industry ombud 35 scheme must comply with the governing rules of the scheme.
- (2) Without limiting any other right that a financial customer of a financial institution that is a member of a recognised industry ombud scheme may have, the financial customer may enforce the obligation in subsection (1) in relation to a financial product or a financial service as if the obligation were a provision of the contract in terms of 40 which the financial product or financial service was provided to the financial customer.

#### Suspension of time barring terms

**216.** Receipt of a complaint by a financial sector regulator, the Ombud Council or an ombud suspends any applicable time barring terms, whether in terms of an agreement or any law, or the running of prescription in terms of the Prescription Act, 1969 (Act No. 45 68 of 1969), for the period from the receipt of the complaint until the complaint has either been withdrawn or finally determined.

  (b) comply with any request by the Ombud Council at any time for information about the operation of the ombud scheme, trends in and implications of the conduct of financial institutions observed by the ombud scheme, and any other relevant information.
- (2) Each of the following must, on request by the Financial Sector Conduct Authority, and may at any time, provide information and reports to the Financial Sector Conduct Authority about the operation of ombud schemes and trends in and implications of the conduct of financial institutions observed by it:
  - (a) The Ombud Council;
  - (b) a statutory ombud scheme;

(c) a recognised industry ombud scheme.

15

20

50

(b) an activity or action by a financial institution that has an effect on financial customers other than the complainant,

the ombud must report the details of the matter, including the identity of the financial institution concerned, to the Financial Sector Conduct Authority.

- (4) (a) The Ombud Council must provide the Minister of Finance and the National 25 Treasury with information, returns, documents, explanations and motivations that may be prescribed by Regulation for this section or information that the Minister of Finance or the National Treasury may request.

# MEMORANDUM ON THE OBJECTS OF THE FINANCIAL SECTOR REGULATION BILL

#### 1. BACKGROUND TO THE BILL

- 1.1 In December 2013, Cabinet approved the establishment of two regulators: a Prudential Authority within the South African Reserve Bank ("Reserve Bank") to supervise the safety and soundness of banks, insurance companies and other financial institutions, and the Financial Sector Conduct Authority to supervise how financial services firms conduct their business and treat customers. This followed earlier approval in July 2011 for a shift to a Twin Peaks approach to financial regulation, including the role of the Reserve Bank in overseeing financial stability.
- 1.2 The draft Financial Sector Regulation Bill ("the Bill") was approved by Cabinet on 4 December, 2013 for publication for public comment. The Bill was substantially revised after carefully considering comments received during the public comment process. The Bill was published again for public comment in December 2014. This version of the Bill was finalised after consideration of the comments received during the second public comment process.
- 1.3 Twin Peaks is a comprehensive and complete system for regulating the financial sector, prioritising the customer and protecting their funds. It represents a decisive shift away from a fragmented regulatory approach.
- 1.4 The Twin Peaks model of financial regulation is designed to underpin a comprehensive regulatory system, with two main aims:
  - to strengthen financial stability and the soundness of financial institutions, by creating a dedicated Prudential Authority; and
  - to protect financial customers and ensure that they are treated fairly by financial institutions, by creating a dedicated Financial Sector Conduct Authority.
- 1.5 In addition to the two regulators, the approach establishes a harmonised system of licensing, supervision, enforcement, addressing customer complaints (including ombuds), a mechanism for the reconsideration of decisions and consumer education. This "single system" supports regulatory consistency, and reduces the scope for regulatory arbitrage or "forum shopping". It also makes it easier for any customer experiencing a problem, as the customer is often confused about where to complain when experiencing unfair treatment from a financial institution.
- 1.6 Within this system, the Reserve Bank oversees financial stability within a policy framework agreed between the Minister of Finance and the Governor of the Reserve Bank ("the Governor").
- 1.7 The Bill aims to improve the structure of regulation of the financial services sector, by ensuring more consistent and complete regulation, including for market conduct. It will give the Financial Sector Conduct Authority and the Prudential Authority jurisdiction over all financial institutions, and will provide them with a range of supervisory tools to fulfil their objectives.
- 1.8 Given the scale of the transformation in regulating the financial sector, the Twin Peaks system will be implemented in two stages. The first stage establishes the regulators and a uniform system and standards, with existing sub-sectoral (or activity-based) laws (for example on insurance and banking) remaining in place. In the second stage, the focus will be to streamline the current activity-based legislation (separate for banking, insurance, credit, pensions, etc.) into consolidated legislation, to reduce the scope for regulatory arbitrage.

#### 2. OBJECT OF THE BILL

- 2.1 The object of the Bill is to achieve a financial system that works in the interests of financial customers, and supports balanced and sustainable economic growth in the Republic, by establishing, in conjunction with the other financial sector laws, a regulatory and supervisory framework that promotes—
  - financial stability;
  - the safety and soundness of financial institutions;
  - the fair treatment and protection of financial customers;
  - the efficiency and integrity of the financial system;
  - the prevention of financial crime;
  - financial inclusion;
  - transformation of the financial sector; and
  - confidence in the financial system.

## 2.2 Key matters addressed in the Bill:

#### 2.2.1 Financial stability and the management of systemic events

- 2.2.1.1 The Bill explicitly confers on the Reserve Bank the mandate to protect and enhance financial stability, and if a systemic event has adversely affected financial stability, to restore and maintain financial stability.
- 2.2.1.2 The Reserve Bank must monitor and keep under review the strengths and weaknesses of the financial system; and any risks to financial stability, and the nature and extent of those risks, including systemic risks and any other risks contemplated in matters raised by members of the Financial Stability Oversight Committee or reported to the Reserve Bank by the Prudential Authority, the Financial Sector Conduct Authority ("the financial sector regulators") the National Credit Regulator, or the Financial Intelligence Centre.
- 2.2.1.3 The Reserve Bank must take steps to mitigate risks to financial stability, including advising the financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and any organ of state, of tools to use and measures to take to mitigate those risks.
- 2.2.1.4 The Reserve Bank must regularly assess the observance of principles developed by international standard- setting bodies for market infrastructures in the Republic and report its findings to the Minister, the financial sector regulators, the National Credit Regulator and the Financial Intelligence Centre.
- 2.2.1.5 The Governor is empowered to determine, after consultation with the Minister of Finance, that an event or circumstance, or a combination of events or circumstances, is a systemic event.
- 2.2.1.6 The Reserve Bank must take all practicable steps to prevent a systemic event from occurring, and if a systemic event has occurred or is imminent, to mitigate as soon as practicable the

- adverse effects on financial stability, and manage the systemic event and its effects.
- 2.2.1.7 The Governor must ensure that the Minister of Finance is informed and kept abreast of steps being taken to address a systemic event, and the Minister must approve any actions taken that may have an impact on public finances or the cost of borrowing, or that will or may create a future financial commitment of the Republic or a contingent liability of the Republic.
- 2.2.1.8 If the Governor has determined that a systemic event has occurred or is imminent, each financial sector regulator, the National Credit Regulator and the Financial Intelligence Centre must provide the Reserve Bank with any information in the regulator's possession that may be relevant to managing the effects of the systemic event, including information on any actual or potential impact on public finances, and consult the Governor before exercising any of their powers in a way that may affect measures that are being or are proposed to be taken to manage the systemic event or the effects of the systemic event.
- 2.2.1.9 The Governor may issue directives to financial sector regulators and the National Credit Regulator, which may—
  - (a) require the financial sector regulator, the National Credit Regulator or the Financial Intelligence Centre to provide the Reserve Bank with information in the regulator's possession, or available to the regulator, that is specified in the directive; and
  - (b) include requirements as to the exercise of the powers of the financial sector regulator, the National Credit Regulator or the Financial Intelligence Centres, so as to assist the Reserve Bank in complying with the Reserve Bank's obligations under clause 14 and the object of this Bill, which may include measures aimed at supporting the restructuring, resolution or winding up of any financial institution; preventing or reducing the spread of risk, weakness or disruption through the financial system; and increasing the resilience of financial institutions to risk, weakness or disruption.
- 2.2.1.10 Other organs of state exercising powers with respect to the financial system may not, without the approval of the Minister, acting in consultation with the Cabinet member responsible for that organ of state, exercise its powers in a way that will be inconsistent with a decision or action taken by the Governor or the Reserve Bank to manage that systemic event or the effects of that systemic event.
- 2.2.1.11 The Financial Stability Oversight Committee is established, which will to support the Reserve Bank in performing the Reserve Bank's functions in relation to financial stability, and foster collaboration and co-ordination of action among and between the financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank in relation to matters relating to financial stability.
- 2.2.1.12 The Financial Stability Oversight Committee will—
  - (a) provide a forum for representatives of the Reserve Bank and of each of the financial sector regulators, the National Credit Regulator and the Financial Intelligence Centre to be informed, and to exchange views,

- about the activities of the Reserve Bank and the regulators relating to financial stability;
- (b) advise the Governor on the designation of systemically important financial institutions and matters relating to crisis management and prevention; and
- (c) make recommendations to relevant organs of state that are appropriate for them to take to assist in managing or preventing risks to financial stability; and
- (d) perform any other function conferred on it in terms of legislation.
- 2.2.1.13 The Financial Stability Oversight Committee will be assisted by the Financial Sector Contingency Forum, comprised of representatives from the relevant industry bodies, the financial sector regulators, the National Credit Regulator, and other relevant organs of state and any other entities or bodies determined by the chairperson of the Forum.
- 2.2.1.14 A duty is placed on the financial sector regulators, the National Credit Regulator and the Financial Intelligence Centre to—
  - (a) co-operate and collaborate with the Reserve Bank, and with each other, to maintain, protect and enhance financial stability,
  - (b) provide assistance and information to the Reserve Bank and the Financial Stability Oversight Committee in the performance of the functions of those bodies with respect to financial stability that the Reserve Bank or the Committee may reasonably request;
  - (c) promptly report to the Reserve Bank any matter of which the regulator becomes aware that poses or may pose a risk to financial stability; and
  - (d) gather information from or about financial institutions that concerns financial stability.
- 2.2.1.15 The financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank are mandated to enter into one or more Memoranda of Understanding with the Reserve Bank specifying how they will co-operate and collaborate with, and provide assistance to, each other and otherwise perform their roles, and comply with their duties, relating to financial stability.
- 2.2.1.16 The Reserve Bank must, when acting in terms of its financial stability mandate, and when exercising its powers in terms of the Bill, take into consideration:
  - (a) views expressed and the information reported by the financial sector regulators, the National Credit Regulator and the Financial Intelligence Centre; and
  - (b) the recommendations of the Financial Stability Oversight Committee.

## 2.2.2 Establishment of Financial Sector Regulators

- 2.2.2.1 The Bill establishes two new financial sector regulators, the Prudential Authority and the Financial Sector Conduct Authority ("the financial sector regulators").
- 2.2.2.2 The Prudential Authority's objective is to—
  - (a) promote and enhance the safety and soundness of financial institutions that provide financial products;

- (b) promote and enhance the safety and soundness of market infrastructures; and
- (d) assist in maintaining financial stability.
- 2.2.3 The Financial Services Board will disestablished, and the new Financial Sector Conduct Authority will be established, with the objective to—
  - (a) enhance and support the efficiency and integrity of the financial system; and
  - (b) protect financial customers by—
    - (i) promoting that financial institutions treat financial customers fairly; and
    - (ii) providing financial customers and potential financial customers with financial education programs, and otherwise promoting financial literacy; and
    - (iii) assist in maintaining financial stability.
- 2.2.4 Co-operation and collaboration between the financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank
  - 2.2.4.1 The Bill places obligations of co-operation and collaboration on the financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank, who must for this purpose—
    - (a) generally assist and support each other in pursuing their objectives in terms of the financial sector laws, the National Credit Act and the Financial Intelligence Centre Act:
    - (b) inform each other about, and share information about, matters of common interest;
    - (c) strive to adopt consistent regulatory strategies, including addressing regulatory and supervisory challenges; and
    - (d) co-ordinate, to the extent appropriate, actions in terms of financial sector laws, the National Credit Act and the Financial Intelligence Centre Act, including in relation to—
      - (i) standards and other regulatory instruments, including similar instruments provided for in terms of the National Credit Act and the Financial Intelligence Centre Act;
      - (ii) licensing;
      - (iii) routine on-site inspections and investigations;
      - (iv) actions to enforce financial sector laws, the National Credit Act and the Financial Intelligence Centre Act;
      - (v) information sharing;
      - (vi) recovery and resolution; and
      - (vii) reporting by financial institutions (including statutory reporting and data collection measures);
      - (viii) minimise the duplication of effort and expense, including by establishing and using, where appropriate, common or shared databases and other facilities;
      - (ix) agree on attendance at relevant international forums; and
      - (x) develop, to the extent that is appropriate, consistent policy positions, including for the purpose of presentation and negotiation at relevant South African and international forums.
  - 2.2.4.2 The financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank must

enter into one or more memoranda of understanding addressing how they will fulfil their obligations to co-operate and collaborate with each other. The financial sector regulators, the National Credit Regulator and the Financial Intelligence Centre may provide for the delegation of powers between themselves.

- 2.2.4.3 A Financial System Council of Regulators is established, to facilitate consultation, co-operation and where appropriate, consistency of action, between the institutions represented on the Council by providing a forum for senior representatives of those institutions to discuss, and inform themselves about, matters of common interest.
- 2.2.4.4 A Financial Sector Inter-ministerial Council is established, to facilitate co-operation and collaboration between Cabinet members administering legislation relevant to the regulation and supervision of the financial sector, by providing a forum for discussion and consideration of matters of common interest.

### 2.2.5 Maintaining and enhancing prudential regulation and supervision

The new approach to prudential regulation seeks to create an effective legal and regulatory environment that ensures that financial institutions are capable of complying with their undertakings to participate in the financial system, including the maintenance of a sound financial position. Enhanced monitoring and supervision powers will promote compliance with applicable financial sector laws, which is necessary for the proper identification and mitigation of systemic risks.

## 2.2.6 Maintaining and enhancing market conduct regulation and supervision

The comprehensive and rigorous market conduct reporting and supervision requirements created under the new regulatory framework will ensure that consumers of financial products and financial services are not vulnerable and exploited, by introducing measures for the identification, detection and reporting of unfair treatment to customers, including financial awareness and financial literacy among South Africans. These measures will ensure that the efficiency and integrity of final markets is protected and enhanced, contribute to the maintenance of financial stability, promote financial inclusion, and assist in combating financial crime.

#### 2.2.7 Operational independence and governance

The Bill will provide an appropriate governance framework that ensures operational independence, organisational effectiveness and adaptability of the new statutory structures and institutional frameworks including accountability mechanisms to enhance transparency and fairness.

## 2.2.8 Administrative action procedures and administrative action committees

The Bill permits the financial sector regulators to adopt administrative action procedures, setting out how administrative actions will be taken in terms of financial sector laws. They may also each establish an administrative action committee, to consider and make recommendations to the regulator on administrative actions that are referred to it by the regulator. The reconsideration of decisions by the financial sector regulators in specified circumstances is provided for.

#### 2.2.9 Standards for financial products and service

- 2.2.9.1 An important mechanism for enhancing both the prudential and market conduct regulation of financial products and services is the provision for the Prudential Authority to issue prudential standards, the Financial Sector Conduct Authority to issue market conduct standards, and for the Prudential Authority and the Financial Sector Conduct Authority to be able, where they deem appropriate, to issue joint standards, in accordance with a consistent, specified procedure.
- 2.2.9.2 The Prudential Authority and the Financial Sector Conduct Authority may not make a standard that imposes requirements on providers of payment services, or a standard aimed at assisting in maintaining financial stability, without the concurrence of the Reserve Bank.
- 2.2.9.3 Going forward, the issuing of standards will largely replace the diversity of instruments that are currently issued in terms of financial sector laws, which will promote clarity and standardisation in relation to regulatory action.

#### 2.2.10 Supervision of financial conglomerates

Another very important mechanism in the Bill that will enhance both prudential and market conduct regulation and supervision, is that a framework for the supervision for financial conglomerates is provided for.

#### 2.2.11 Enforcement mechanisms

- 2.2.11.1 The Bill provides important enforcement mechanisms for the financial sector regulators.
- 2.2.11.2 The Bill contains detailed provisions enabling the regulators to gather information, and carry out supervisory on-site inspections and investigations, which are vital tools for the supervision and enforcement of the financial sector laws by the financial sector regulators.
- 2.2.11.3 The financial sector regulators may issue guidance notices and interpretation rulings.
- 2.2.11.4 The financial sector regulators are empowered to issue directives in order to ensure compliance and to prevent or stop non-compliance with the financial sector laws.
- 2.2.11.5 The regulators may also enter into enforceable undertakings with a licensed financial institution, in terms of which the financial institution voluntarily agrees to comply with the terms of the undertaking. The financial sector regulators are also empowered to issue administrative penalties, and to enter into leniency agreements with a person in exchange for that person's co-operation in an investigation or proceedings.
- 2.2.11.6 The financial sector regulators may issue debarment orders to natural persons who have contravened the financial sector laws or an enforceable undertaking; attempted or conspired with, aided, abetted, induced, incited or procured another person to contravene a financial sector law in a material respect; or contravened in a material respect a law of a foreign country that corresponds to the financial sector law.

- 2.2.11.7 A debarment order prohibits the natural person, for a specified period, as specified in the order, from providing, or being involved in the provision of, specified financial products or financial services, generally or in circumstances specified in the order; acting as a key person of a financial institution; or providing specified services to a financial institution, whether under outsourcing arrangements or otherwise.
- 2.2.11.8 The financial sector regulators may also apply to court for orders to ensure compliance with the financial sector laws.

#### 2.2.12. Ombuds

The Ombud Council is established to provide for the regulation of ombud schemes, and is provided with necessary powers to enable the appropriate regulation of ombud schemes. A person with a complaint regarding a financial product or a financial service in terms of the Bill will have access to either an applicable ombud scheme, or to an ombud scheme designated to handle the complaint by the Ombud Council.

#### 2.2.13. Reconsideration of decisions

A Financial Services Tribunal ("Tribunal") is established, which is mandated to adjudicate on applications for reconsideration of decisions taken by the financial sector regulators, the Ombud Council, and other designated decision-makers.

## 7. PARLIAMENTARY PROCEDURE

7.1 The Constitution prescribes procedure for the classification of Bills, therefore a Bill must be correctly classified so that it does not become inconsistent with the Constitution.

- 7.2 The State Law Advisers have considered the Bill against the provisions of the Constitution relating to the tagging of Bills and against the functional areas listed in Schedule 4 (functional areas of concurrent national and provincial legislative competence) and Schedule 5 (functional areas of exclusive provincial legislative competence) to the Constitution.
- 7.3 The established test for classification of a Bill is that any Bill whose provisions in substantial measure fall within a functional area listed in Schedule 4 to the Constitution must be classified in terms of that Schedule. The process is concerned with the question of how the Bill should be considered by the provinces and in the National Council of Provinces. Furthermore, how a Bill must be considered by the provincial legislatures depends on whether it affects the provinces. The more the Bill affects the interests, concerns and capacities of the provinces, the more say the provinces should have on the contents of the Bill.
- 7.4 Therefore, the issue to be determined is whether the proposed amendments to the Act, as contained in the Bill, in substantial measure, fall within a functional area listed in Schedule 4 to the Constitution.
- 7.5 The main object of the Bill is to achieve a financial system that works in the interests of financial customers, and supports balanced and sustainable economic growth in the Republic, by establishing, in conjunction with the other financial sector laws, a regulatory and supervisory framework that promotes—
  - financial stability;
  - the safety and soundness of financial institutions;
  - the fair treatment and protection of financial customers;
  - the efficiency and integrity of the financial system;
  - the prevention of financial crime;
  - financial inclusion;
  - transformation of the financial sector; and
  - confidence in the financial system.
- 7.6 In order to achieve it objects the Bill establishes the two new financial sector regulators, the Prudential Authority and the Financial Sector Conduct Authority.
- 7.7 The main objective of the Prudential Authority is to promote and enhance the safety and soundness of financial institutions that provide financial products and promote and enhance the safety and soundness of market infrastructures.
- 7.8 The main objective of the Financial Sector Conduct Authority is to enhance and support the efficiency and integrity of the financial system, to protect financial customers and to promote fair treatment of financial customers by financial institutions.
- 7.9 The Bill provides for, and ensures that there is, co-operation and collaboration between the financial sector regulators, the National Credit Regulator, the Financial Intelligence Centre and the Reserve Bank.
- 7.10 The Bill enhances and maintains prudential regulation and supervision; enhances and maintains market conduct regulation and supervision; maintains standards for financial products, financial services, and market infrastructure;

- the supervision of financial conglomerates; provides important enforcement mechanisms for the financial sector regulators.
- 7.11 The Ombud Council is established to provide for the regulation of ombud schemes. The Ombud Council is provided with necessary powers to enable the appropriate regulation of ombud schemes, in order to resolve complaints about financial institutions in relation to financial products, financial services, and services provided by market infrastructures.
- 7.12 A Financial Services Tribunal is established and it is mandated to adjudicate on applications for reviews of decisions taken by the financial sector regulators or the Ombud Council.
- 7.13 The Bill also contains consequential amendments in respect of various relevant Acts of Parliament in order to align these Acts with the envisaged Financial Sector Regulation Bill.
- 7.14 The proposed amendments reflected have been carefully examined to establish whether, in substantial measure, they fall within any of the functional areas listed in Schedule 4 to the Constitution.
- 7.15 In the view of the State Law Advisers, the subject matter of the proposed amendments does not fall within any of the functional areas listed in Schedule 4 to the Constitution and it does not affect provinces whereby the procedure set out in section 76 of the Constitution would be applicable.
- 7.16 The State Law Advisers are therefore of the opinion that since this Bill does not deal with any of the matters listed in Schedule 4 of the Constitution, it must be dealt with in accordance with the procedure set out in section 75 of the Constitution.
- 7.17 The State Law Advisers are also of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
