## **MEDIA RELEASE: TIPS FOR TREVOR**

---

The Ministry of Finance invites all South Africans to send their tips to the Tips for Trevor campaign about what they would like to see included in the country's Budget.

The campaign is run throughout the year and the tips received assist the Minister in understanding public sentiment on government's macro-economic policies.

Finance Minister Trevor A Manuel, MP has received tips covering a wide range of issues with some offering technical advice, while others seek to engage the Minister in innovative and creative suggestions. Some of the tips have been included in the annual budget speech which will be tabled in Parliament on 21 February at 14:00 this year.
