PRESS RELEASE

29 August 2014

**Local Government Revenue and Expenditure: Fourth Quarter Local Government
Section 71 Report (Preliminary Results)
For the period: 1 July 2013 – 30 June 2014**

National Treasury has today released local government's revenue and expenditure for the fourth quarter of the 2013/14 financial year, as well as spending on conditional grants for the same period. This report covers the twelve months (1 July 2013 - 30 June 2014) of the municipal financial year ending on 30 June 2014.

This report is part of the *In-year Management, Monitoring and Reporting System for Local Government (IYM)* which enables provincial and national government to exercise oversight over municipalities, and identify possible problems in implementing municipal budgets and conditional grants.

In-year reporting is now well institutionalised with most municipalities consistently producing quarterly financial reports. The reporting facilitates transparency, better in-year management as well as the oversight of budgets, making these reports management tools and early warning mechanisms for councils to monitor and improve municipal performance.

KEY TRENDS:

Aggregate trends

1. On aggregate, municipalities spent 89.3 per cent, or R281.9 billion, of the total adjusted budget of R315.7 billion as at 30 June 2014 (fourth quarter YTD results for the 2013/14 financial year). This translates into a net under spending of R33.8 billion, or 10.7 per cent of adjusted budgets for municipalities. The under spending is R1.4 billion lower than that of 2012/13 when municipalities under spent by R35.2 billion or 12.2 per cent of their budgets. In respect of revenue, aggregate billing and other revenue amounted to 91.9 per cent, or R317 billion, of the total adjusted revenue budget of R345 billion.
2. The over- and under spending can be summarised as follows:

Summarised over and under spending by municipalities as at 30 June 2014 (preliminary results)

R thousands	Main appropriation	Adjusted Budget	Year to date: 30 June 2014	Total Exp as % of main app	Total Exp as % of adj budget	(Over)	Under	(Over) spending as % of adj budget	Under spending as % of adj budget
Operational expenditure	250 895 050	253 823 075	233 966 294	93.3%	92.2%	(4 532 544)	24 389 325	1.8%	9.6%
Capital expenditure	56 417 766	61 866 271	47 931 822	85.0%	77.5%	(873 683)	14 808 133	1.4%	23.9%
Total expenditure of which:	307 312 815	315 689 346	281 898 115	91.7%	89.3%	(4 335 702)	38 126 933	1.4%	12.1%
Conditional Grant spending	25 106 197	25 166 032	22 694 209	90.4%	90.2%	(822 953)	3 294 776	3.3%	13.1%

Source: National Treasury Local Government database

3. Note that combining the capital and operating budgets will result in a different outcome to that of analysing them separately.
4. The difference between the total adjusted budgeted revenue of R345 billion and performance for the year of R317 billion is R28 billion or 8.8 per cent; this underperformance can primarily be attributed to overly optimistic revenue projections.
5. Municipalities in aggregate under spent conditional grants by R3.3 billion or 13.1 per cent. This represents a net under spend of R2.4 billion for the financial year.
6. Metropolitan municipalities achieved 94 per cent or R186.3 billion of billed and other revenue of the total adjusted revenue budget of R198.3 billion representing an underperformance of R12 billion or 6 per cent.
7. The aggregate adjusted capital budget for all municipalities in the 2013/14 financial year was R61.9 billion, of which only R47.9 billion or 77.5 per cent had been spent by 30 June 2014.
8. The aggregated adjusted capital budget for metros in the 2013/14 financial year was R30.2 billion, of which R26.3 billion or 87.0 per cent had been spent by 30 June 2014, double the R13.7 billion reported in the third quarter of 2013/14.
9. When measured against adjusted budgets, the performance of Metros against core services were as follows:
 - Water revenue billed was 98 per cent or R18.9 billion against expenditure of 108.4 per cent or R17.5 billion;
 - Electricity revenue billed was 94.1 per cent or R58.8 billion against expenditure of 97.5 per cent or R52 billion;
 - The revenue billed for waste water management was 100.9 per cent or R9.8 billion against expenditure of 79.7 per cent or R5.3 billion, and
 - Levies for waste management billed were 94.5 per cent or R5.9 billion against expenditure of 95.2 per cent or R6 billion.
10. The performance against the adjusted budget for core services for the secondary cities are as follows:
 - Water revenue billed was 112.9 per cent or R4.9 billion against expenditure of 95.6 per cent or R3.9 billion;
 - Electricity revenue billed was 95.2 per cent or R14 billion against expenditure of 96.1 per cent or R12 billion;
 - The revenue billed for waste water management was 95.1 per cent or R2 billion against expenditure of 92.4 per cent or R1.3 billion; and
 - Levies for waste management billed were 101.4 per cent or R1.5 billion against expenditure of 85.1 per cent or R1.3 billion.
11. Aggregate municipal consumer debts were R94 billion as at 30 June 2014. The amount for outstanding debtors for government represents 4.8 per cent or R4.5 billion of the total outstanding debtors. The largest component relates to households which accounts for 61.6

per cent or R57.9 billion. Household debt reported in the third quarter of 2013/14 was at 61.5 per cent or R57.5 billion.

12. Metropolitan municipalities are owed R52.9 billion in outstanding debt as at 30 June 2014. This represents an increase of R4.2 billion or 8.7 per cent increase from the fourth quarter of the 2012/13 financial year. Compared to the third quarter of 2013/14, there is a slight decrease of R370 million. The City of Johannesburg is still owed the largest amount at R17.4 billion. This is followed by Ekurhuleni Metro at R10.7 billion, City of Tshwane at R6.6 billion and Cape Town at R6.5 billion.
13. Secondary cities are owed R17.1 billion, which is an increase of 4.9 per cent on the R16.3 billion reported in the corresponding period for the 2012/13 financial year.
14. The majority of debt to secondary cities is owed by the households which amount to R12.1 billion or 70.8 per cent of the total outstanding debt. Out of the total debt of R17.1 billion, R14.3 billion or 83.6 per cent has been outstanding for more than 90 days. This represents an increase of R8 million from the R16.3 reported in the third quarter.
15. Municipalities owed R25.1 billion as at 30 June 2014, an overall increase of R6.8 billion on the R18.3 billion reported in the third quarter of 2013/14. North West had the highest percentage of creditors outstanding for more than 90 days at 63.6 per cent, followed by Free State and Limpopo (55.6 per cent). A rise in outstanding creditors, especially those in excess of 90 days, could be indicative of a cash and liquidity challenges.
16. The aggregated year-to-date actual collection rate is 94.6 per cent compared to an adjusted budgeted collection rate of 92.2 per cent. This represents an aggregated over-performance of 2.4 per cent and can be attributed to the fourth quarter collection rate of 106.7 per cent. It is suspected that the reported collection rate is distorted owing to reporting inconsistencies on cash flow movements of municipalities. These collection rates appear overstated when compared to the previous quarters and will need to be investigated.
17. The secondary cities reported collection against billed revenue at 89 per cent which is 2.9 per cent below the adjusted budgeted target of 91.9 per cent.
18. It needs to be noted that any underperformance of actual collections against billed revenue holds a significant risk for the cash and liquidity position of municipalities as the planned expenditure is based on a higher level of collections. Although the overall performance is pleasing in that municipalities have in aggregate outperformed their budget targets, the fourth quarter performance requires further analysis to ensure credibility of reported performance.
19. Contributing factors to the underperformance of actual collections against billed revenue include, among others, the reduced affordability of municipal services by households. The economic slowdown and substantial increases associated with municipal cost drivers such as fuel, bulk purchases (water and electricity), material etc. are continuing to impact on affordability and subsequently the ability of consumers to pay for services.
20. The total balance on borrowing for all municipalities equates to R52.6 billion as at 30 June 2014. This includes long term loans of R36.6 billion, short term marketable bonds of R4.1 billion, and long term marketable bonds of R11.5 billion. The balance represents other short and long term financing instruments.
21. As at 30 June 2014 municipalities had total investments of R21.4 billion, which are R5.4 billion lower than the R26.8 billion reported in the previous quarter (third quarter of 2013/14). Investments include bank deposits of R15.1 billion, guaranteed endowment policies (sinking funds) of R3.6 billion, negotiable certificates of deposits at banks of R2.1 billion, listed corporate bonds of R617.5 million and some smaller investments.
22. The metros and secondary cities were required to report on their quarterly targets for service delivery (non-financial performance) for the fourth time this municipal financial year. This is a new requirement and the poor response is an indication that this reporting is not

yet institutionalised as part of the Section 71 reporting framework. A concerted effort to collect the information from the metros has been made.

Conditional Grants

23. In the Division of Revenue Act, 2013 (Act No.2 of 2013) an amount of R30.7 billion was published as conditional transfers (both direct and indirect transfers) to the local sphere of government.
24. The December 2013 gazette (Government Gazette No. 37203 of 2013) reflects the in-year additional allocations, shifts between allocations and roll-overs of conditional grants. This Gazette updates the information that was originally published in Government Gazette No. 36581 of 2013 published on 24 June 2013.
25. The adjustments budget increased the original allocation of R30.6 billion to local government through the Division of Revenue Act, 2013 (Act No. 2 of 2013) by an amount of R273.3 million. The revised allocation excludes the unconditional transfers of Equitable Share (ES) and Urban Settlement Development Grant (USDG) of R40.5 billion and R9.1 billion respectively. Therefore the total contribution by national government to local government for the 2013/14 financial year is R80.4 billion.
26. R24.8 billion was transferred by the national departments responsible for administering local government conditional grants against an allocation of R25.1 billion for both direct and indirect conditional grants. This constitutes 98.8 per cent of the total conditional grants allocated for the 2013/14 financial year. According to expenditure reports provided by the national departments, only 78.5 per cent of the transfers had been spent as at 30 June 2014. Importantly, this performance excludes the Urban Settlements Development Grant (USDG) and indirect grants.
27. Municipalities receiving direct conditional grants reported an average expenditure of 90.2 per cent, or R22.7 billion, of the R25.1 billion allocated directly to municipalities. This represents an underperformance of R2.4 billion, or 9.6 per cent, for the municipal financial year.
28. The lowest performing grants in the fourth quarter are the Rural Households Infrastructure Grant (RHIG) and Integrated City development Grant (ICDG) with expenditure that is less than 50 per cent reported by both the National Departments and the municipalities for the period under review. The reason for under-performance against the RHIG was informed by the conversion of the grant from an indirect to a direct grant. With regards to the ICDG's under-performance, under reporting is the major contributor to this low spending performance. It is expected that this number could increase once municipalities submit their annual pre-audited financial statements.
29. With regards to the roll-over of 2012/13 unspent conditional grants, National Treasury approved a roll-over amount of R4.2 billion into the 2013/14 financial year and municipalities have reported expenditure of 30.9 per cent or R1.3 billion. Municipalities are struggling to report separately for roll-overs. A concerted effort is being put in place to train them in this regard.
30. A summary of key aggregated information is included in the tables in **Annexure A**.

Further details on this report can be accessed on the National Treasury's website: www.treasury.gov.za.

ENDS

NOTE TO EDITORS:

- This information is published in terms of Sections 71 of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) and 30(3) of the 2013 Division of Revenue Act. The budgeted figures shown are based on the 2013/14 adjusted budgets approved by municipal councils after their six month review of their performance.
- In terms of the process, Municipal Managers and Chief Financial Officers were required to sign and submit data to the National Treasury by 15 July 2014. Any queries on the figures in the statement should therefore be referred to the relevant Municipal Manager or Chief Financial Officer. Queries on conditional grants may be referred to the national department responsible for administering the grant.
- A municipal budget must be funded in terms of Section 18 of the MFMA before a municipal Council can adopt that budget for implementation. A funded budget is essentially a budget that is funded by cash derived either from realistically anticipated revenues to be collected in that year or from cash backed surpluses of previous years. It is a common practice amongst most municipalities when preparing their annual budgets to overstate or inflate revenue projections either to reflect a surplus or on the surface to show that excess expenditure requirements are adequately covered by revenues to be collected. Hence, the revenue estimates are seldom underpinned by realistic or realisable revenue assumptions resulting in the municipality not being able to collect this revenue and therefore finding themselves in cash flow difficulties. Should such situations arise, municipalities must adjust expenditure downwards to ensure that there is sufficient cash to meet these commitments.
- Caution must therefore be exercised where interpreting the information / results pertaining to under-collection of revenue and expenditure contained in this publication. Under-expenditure as reported in different dimensions does not imply that the cash and cash equivalents were in the bank accounts of municipalities. It is because that revenue estimates were in most cases unrealistic that significant under-expenditure has been reported. The National Treasury is compelled to report against the legal budget documents approved by Council forming part of the annual budget process (main budget adopted by 30 May and adjustments budgets by 28 February). Therefore, although we report on under collection of revenue and expenditure, the cash available to fund this expenditure was not there to begin with. In future, we aim to track the relationship between revenue and expenditure, actual billing and cash in bank.
- This fourth quarter publication covers 278 municipalities.

STRUCTURE OF INFORMATION RELEASED:

Other information released on National Treasury's website (www.treasury.gov.za) as part of this process includes the following:

- Municipal Budget Statements:
 - a. Cash Flow closing balances as at 30 June 2014,
 - b. Over and under spending of adjusted budget 2013/14 for the following dimensions:
 - i. Total municipal budgets;
 - ii. Operating budgets;
 - iii. Capital budgets;
 - c. Over and under spending of allocated conditional grants;
 - d. High-level summary of revenue for 278 municipalities, and
 - e. High-level summary of expenditure for 278 municipalities.
- Summary of revenue and expenditure per function (electricity, water, etc):
 - a. High level summary of revenue per function, and
 - b. High level summary of expenditure per function.
- Consolidation of revenue and expenditure numbers for each municipality in one file.
- Detail per province per municipality.
- Summary of Conditional Grant (CG) Information for all municipalities and per grant.
- CG - Detail per province per Municipality.
- Summary of Conditional Grant (CG) information per programme.
- Section 71 summary information for the fourth quarter:
 - a. Summary of total monthly operating expenditure – 278 municipalities;
 - b. Summary of total monthly operating revenue – 278 municipalities;
 - c. Summary of total monthly capital expenditure – 278 municipalities;
 - d. Summary of total monthly capital revenue – 278 municipalities;
 - e. Summary – Metros;
 - f. Conditional Grant summary – Metros;
 - g. Summary – Top 19 municipalities;
 - h. Conditional Grant summary – Top 19 municipalities;
 - i. Summary – Provinces;
 - j. Conditional Grant summary – Provinces;
 - k. Analysis of Sources of Revenue – 278 municipalities;
 - l. Listing of borrowing instruments – 189 municipalities;
 - m. Listing of investment instruments – 180 municipalities;
 - n. Monthly repairs and maintenance expenditure per asset class – 278 municipalities; and
 - o. Monthly repairs and maintenance operating expenditure – 278 municipalities.
- Service delivery information (non-financial performance) for metros and secondary cities.
- Non Compliance:
 - a. List municipalities not complying with Section 71 of the MFMA.

The section 71 information reported by municipalities to National Treasury is also published on the National Treasury website in the format of Schedule C, which is the format for monthly and quarterly municipal financial statements as prescribed by the Municipal Budget and Reporting Regulations.
