## **MEDIA STATEMENT**

### **FUNDING FRAMEWORK FOR THE RESPONSE TO THE NATIONAL DISASTER**

---

A national state of disaster was declared on 18 April 2022 due to the flooding that occurred recently including in KwaZulu-Natal. The state of disaster prompted government to respond in support of the provinces affected by the April 2022 floods. The Minister of Finance, Mr Enoch Godongwana, reiterated that disaster relief funds of R1 billion was available as emergency relief, with two phases in the disaster. The first is the emergency relief and the second phase is the recovery and repair stage.

These disaster relief funds are available from four Schedule 7 grants in the Division of Revenue Act, 2022 (2022 DoRA), allocated just over R1 billion in 2022/23. In 2022/23, the Provincial Disaster Response Grant (PDRG) and the Municipal Disaster Response Grant (MDRG) are allocated R145 million and R371 million respectively; and the Provincial Emergency Housing Grant (PEHG) and Municipal Emergency Housing Grant (MEHG) are allocated R326 million and R175 million respectively.

In addition to the disaster relief funds noted above, existing resources can also be redirected towards tackling the damage through the advancement and reprioritisation of provincial and municipal conditional grants.

With respect to applications for the provincial and municipal disaster response grants, provinces and municipalities are required to submit applications for funding through the relevant Provincial Disaster Management Centre, which then submit these applications to the National Disaster Management Centre (NDMC), which assesses the applications and recommends to the National Treasury, the amount of funding to be released. With respect to the provincial and municipal housing emergency grants, these are processed by the national Department of Human Settlements, which after assessment, also recommend to the National Treasury the amount of funding to be released. As soon as any further applications are received from the NDMC and/or national Department of Human Settlements, the National Treasury is committed to processing these applications speedily so as to ensure the efficient release of these funds.

Longer-term infrastructure rehabilitation and recovery costs that cannot be accommodated in the immediate relief grants and through reprioritisation of budgets must come through the budget process for consideration. These will be processed through the Adjustment Budget, as unforeseeable and unavoidable expenditure or as part of the 2023 MTEF process.
