NO QUESTIONS	ANSWERS
1. Please confirm if Item RT10-079 was supposed to be a 1,000ml pack as it was historically, or if 100ml is correct?	The specification on line item RT10-079 is revised to a 1000ml. Bidders are encouraged to quote on 1000ml and not 100ml.
2. I am trying to find the note on how alternative products are to be referenced but now I can't find it. I specifically want to know how I should reference a double strength	Please insert a row below the original line item and include the details of the alternative. Clearly state that it's an alternative and highlight in blue. NB! Please include all relevant documents pertaining to the alternative item.

	formulation, as an alternative to one of the existing items?
