## NOTICE (5)

### **BID RT42-2021: SUPPLY AND DELIVERY OF BANDAGES AND DRESSINGS TO THE STATE FOR THE PERIOD 1 OCTOBER 2021 TO 30 SEPTEMBER 2024**

Kindly note that the sizes of the below items are amended as follows:

ITEM NUMBER	DESCRIPTION	AMENDED DESCRIPTION
RT42-20-001	Wipe, to remove adhesiveness from the skin. The wipe must also moisturizes and conditions the skin without greasiness. Gently cleans hydrocolloid, acrylic and rubber-based adhesive residues from the skin without irritation, discomfort or trauma. Applies easily and removes quickly with less need for reapplication. Non-irritating and non-sensitizing, even for ostomies and geriatric patients. Can be used anywhere there's a need for an adhesive dressing. Individually sterile wrapped Single use Size of wipe: 400mm x 400mm Box of 100 wipes	Wipe, to remove adhesiveness from the skin. The wipe must also moisturizes and conditions the skin without greasiness. Gently cleans hydrocolloid, acrylic and rubber-based adhesive residues from the skin without irritation, discomfort or trauma. Applies easily and removes quickly with less need for reapplication. Non-irritating and non-sensitizing, even for ostomies and geriatric patients. Can be used anywhere there's a need for an adhesive dressing. Individually sterile wrapped Single use Size of wipe: <b>40mm x 40mm</b> Box of 100 wipes
RT42-20-002	Wipes, to protect the skin, is impregnated with a liquid film-forming dressing, with application to intact skin, a protective film is formed to help reduce friction during removal of tapes and dressings. Must be able to be used to prepare skin attachment sites for drainage tubes, external catheters, surrounding ostomy sites and adhesive dressings. Helps with tape and film. Removes easily when using skin cleanser or soap and water, so unsanitary residue is not left in or around the wound area. Allows skin to "breathe" so tapes and films adhere better. Must be tested to be use also on paediatric patients. Individually sterile wrapped Single use Size of wipe: 400mm x 400mm Box of 100 wipes	Wipes, to protect the skin, is impregnated with a liquid film-forming dressing, with application to intact skin, a protective film is formed to help reduce friction during removal of tapes and dressings.
