The Department of Environmental Affairs and Tourism (DEAT) provides national leadership for promoting sustainable coastal development in South Africa. This is primarily achieved through CoastCARE, a partnership programme involving the private and public sectors. The policy guiding this joint initiative is presented in the White Paper for Sustainable Coastal Development in South Africa.

A priority of CoastCARE is to enhance opportunities and address barriers to achieving improved and sustainable livelihoods for poor coastal communities. DEAT is inviting tenders from consultants and researchers to undertake a 4-month study that will provide an improved understanding of coastal livelihoods so that CoastCARE resources can be more strategically and effectively allocated.

The study will provide DEAT with guidance and recommendations regarding appropriate and innovative interventions that are catalytic in nature and result in processes and outcomes that will promote equitable, optimal and sustainable coastal development in South Africa. A secondary focus of the study will be to identify indicators that will assist DEAT in assessing to what extent CoastCARE interventions have enhanced or reduced barriers to achieving sustainable coastal livelihood goals.

Terms of Reference and briefing documents for the study can be obtained from DEAT's coastal management website, <http://sacoast.wcape.gov.za> or from Mr Scott of DEAT's Coastal Management Office, Tel. No. (021) 403-3042/Fax No. (021) 418-2582. The closing date for submission of tenders is the 8th June 2001.

This study is funded by the British Department for International Development.
