TERMS OF REFERENCE FOR INDEPENDENT THIRD PARTY
IN CONNECTION WITH MARKETING-OF-PETROLEUM ACTIVITIES RETURN (MPAR)

1. Scope of Work:

These terms of reference are based on the Guidelines for the compilation of the MPAR.

The companies shall nominate an industry-agreed contact to act as the liaison between the companies, the Independent Third Party and the Department.

MPAR's are submitted to assist the Department of Minerals and Energy in the profit monitoring of the marketing-of-petroleum activities of the oil industry.

The Third Party will receive from each company covered by MPAR, within time guidelines laid down in MPAR, the schedules and explanatory notes including a certificate from its external auditors, as set out in paragraph 106 of MPAR.

The Third Party will, within two months of receiving all the items referred to above, submit a report to the Department, which includes:

Aggregated summary schedule	:	Return on assets.
Aggregated schedule 1	:	Allowance income
Aggregated schedule 1.4	:	Allowance income adjustments
Aggregated schedule 2	:	Allowance assets
Aggregated schedule 2.3	:	Allowance assets adjustments

The Third Party will take into account any 'Industry adjustment' the Department may notify him of (e.g. Slate, assets) but will notify the industry representative of any such adjustment.

If, in the opinion of the Third Party any item in the certificate received from the external auditor (per schedule 4 of MPAR) requires notification to the Department, they will inform the Department without identifying the company involved. Such items may include (but are not limited to):

- Incomplete certification in terms of the Guideline
- Audit qualifications (relating to a company's annual financial statements (AFS))
- Unusual accounting policies in the AFS
- Changes in accounting policies in the AFS

If, in the opinion of the Third Party, any items included in the explanatory notes need to be notified to the Department, he will inform the Department without identifying the company involved.

The Third Party will compare company's information to that submitted the previous year. Any items, which in the opinion of the Third Party appears materially out of line, will be notified to the Department without identifying the company involved.

The Third Party will compare each company's information to the information submitted by other companies in respect of that year. Any item which, in the opinion of the third Part appears materially out of line, given the past performance of that company relative to other companies, will be notified to the Department without identifying the company involved. The Third Party may bring to the attention of the Department any other items he feels appropriate.

If this does not relate to a specific company the industry representative will be notified prior to it being notified to the Department.

The Third Party will notify each company of any company specific item under 5, 7, 6 and 8 above prior to it being notified to the Department, unless in the opinion of the Third Party, disclosure of figures may result in competitive information relating to other companies being disclosed in which case the figures may be edited out. A reasonable amount of time will be allowed for discussion between the company of the Third Party on any items, which are to be notified to the Department.

The Third Party will discuss his report with the Department, and with the Industry. Details relating to the SUMMARY SCHEDULE will be disclosed to the industry representative at the same time as they are disclosed to the Department. The Department or the Industry may request the Third Party to follow up on any matters but such matters will fall outside the scope of these terms of reference.

The Third Party will calculate the margin adjustment that would be necessary to arrive at the target return disclosing to the Department and the industry representative the basis on which the calculations were made.
