<p>Extension of closing date Invitation to submit proposals for supporting the Department of Labour's research, monitoring and evaluation agenda 2005–2010 as per the following background and information: The Ministerial Programme of Action for 2004–2009 seeks to “consolidate gains that have been made in the immediate past whilst responding to new and emerging challenges facing our labour market and society as a whole”. The Ministerial Programme of Action also positions the Department to deliver on its stated vision of a labour market that is conducive to economic growth, investment and employment creation and which is characterized by rising skills, equity, sound labour relations, respect for employment standards and worker rights.</p> <p>Informed by the Ministerial Programme of Action, the Department of Labour has developed a Research, Monitoring and Evaluation (RME) Agenda for the same period, 2005–2010. The RME Agenda is driven by departmental imperatives whilst also being mindful of the four strategic objectives of the International Labour Organization (ILO), which are compatible with those of the Department and center around: Standards and fundamental principles; and rights at work, employment, social protection, and social dialogue; with gender equality and development acting as cross-cutting themes. Similarly, with skills development being a key intervention of the Department, the proposed intervention should support the Department and Sector Education and Training Authorities (SETAs) in the sector skills planning processes for the next five years.</p> <p>The Department hereby calls for proposals from research institutions, consortia and individuals to support the Department in conducting research, monitoring, evaluation and sector skills planning for the next five years. Over and above demonstrable competencies as covered in the Minister's Programme of Action, interested individuals/institutions/consortia should possess competencies in the following areas to be considered for appointment:</p> <ul style="list-style-type: none"> • Impact assessment studies • Research, monitoring and evaluation • Labour market information and statistics • Sector analysis and sector skills planning • Project management (large scale/multi year). <p>The proposals must also show an understanding of broader Labour market issues in South Africa and internationally, including an understanding of/and proposals on how to nurture a Labour market community in South Africa and ensure that, as part of this initiative, capacity will be developed to nurture young talent and create a pool of Labour market actors in the next five year period.</p> <p>* Please Note: The closing date for LAB 04/2005 has been extended from 2 September 2005 to 19 September 2005</p>	Department of Labour, Pretoria	LAB 04/2005	2005-09-19	292	292
