<p>The intention is for the appointed service provider/s to work with Fasset to:</p> <p>(a) Recruit 100% Black candidates (African, Coloured and Indian) in the ratio of 54% women and 4% disabled, who have completed their studies at Universities and/or Technikons (no earlier than 2004).</p> <p>(b) Train these learners on a Work Readiness Programme in soft skills together with academic support (and provide a bridging programme, if required), in which the following critical cross-field outcomes, aligned to at least the NQF 4 unit standards, are covered:</p> <ul style="list-style-type: none"> • Identifying and solving problems in which responses display that responsible decisions, using critical and creative thinking have been made. • Working effectively with others as a member of a team, group, organisation, community. • Organising and managing oneself and one's activities responsibly and effectively. • Collecting, analysing, organising and critically evaluating information. • Communicating effectively using visual, mathematical and/or language skills in the modes of oral and/or written communication. • Using science and technology effectively and critically, showing responsibility towards the environment and health of others. • Demonstrating an understanding of the world as a set of related systems by recognising that problem-solving contexts do not exist in isolation. • Contributing to the full personal development of each learner and the social and economic development of the society at large, by making it the underlying intention of any programme of learning to make the individual aware of the importance of: <ul style="list-style-type: none"> i. reflecting on and exploring a variety of strategies to learn more effectively; ii. participating as responsible citizens in the life of local, national and global communities; iii. being culturally and aesthetically sensitive across a range of social contexts; iv. exploring education and career opportunities; and v. developing entrepreneurial opportunities. <p>(c) Place 70% of these learners in employment and/or on Learnerships and/or Internships within Fasset's sector (include learner tracking and monitoring, if the programme allows).</p> <p>(d) If the programme is so designed, provide academic and other support aligned to unit standards and ultimately to the specific outcomes of the Learnerships/Internships for the duration thereof.</p> <p>Note:</p> <ul style="list-style-type: none"> • It would be an added advantage if the service provider/s is accredited. (In future, this will be a pre-requisite from Fasset). • It is a pre-requisite for consideration that respondents illustrate how they will achieve the required 70% placement rate within Fasset's sector, which will include obtaining letters of commitment from prospective employers. These letters need not be included in the proposal but may be summarised using the matrix template provided in the tender documentation. • It is imperative that the learner numbers initially proposed in this tender remain as such—once accepted these numbers <u>cannot</u> be re-negotiated. • A unique/original methodology is to be included—the tender documentation is not to be repeated in the tender response. • Proposals will be given preference according to Fasset's critical and scarce skills hierarchy, as detailed in the tender documentation and on Fasset's website (http://www.fasset.org.za/research/default.asp—Scarce skills in the Fasset sector—Download).
