(Tender Ref. Nr: 462-2010 IP)

Wesgro is the Western Cape's official Investment and Trade Promotion Agency established under provincial law and governed by a Board of Directors. We are the first point of contact for foreign importers, local exporters and investors wishing to take advantage of the unlimited opportunities of the growing Cape.

Purpose of the Project:

The purpose of this project is two-fold:

- to conduct a comprehensive feasibility study of three investment opportunities identified in phase 1 of a previous pre-feasibility study of investment opportunities, completed in 2010.
- to package the investment opportunities into viable projects that will be promoted for investment by Wesgro.

Project description and background for the Feasibility Study

The pre-feasibility study that was undertaken in 2010 prompted the need for detailed feasibility studies to be undertaken on the identified opportunities. Below is the brief description of the identified opportunities (projects):

Project 1: ICT Hub

The ICT Hub should be a single facility in which key functionalities are integrated. It should be a landmark or icon building in a prominent location, to market the notion of Cape Town as a knowledge base, and to leverage off the spatial economic agglomeration and linkages opportunities.

The ICT hub will comprise of a mixed-use centre with prime office space for ICT sector firms with high technology usage, ICT retail and front-of-house service provider space, a larger incubator or "accelerator" facility, an events and auditorium area, technology museum(s) and training facilities. Potential locations indicated in the pre-feasibility study include the East City, Foreshore and CBD precincts.

The hub will contribute to national, provincial and local objectives of growing innovation, entrepreneurship and the so-called knowledge economy.

NB: Pre-feasibility study information will be supplied upon request.

Project 2: Cape Town International Airport Eastern Precinct Industrial/Warehousing Development

Industrial/warehousing development Cape Town International Airport (CTIA) is a major infrastructure element in the City of Cape Town given the strategic position thereof.

Airport Company South Africa (ACSA) has already started the process of developing a portion of the CTIA eastern precinct and development plans have already been drawn up. Rezoning of the land is in process.

A total of 27.6% of the development (13.95 hectares) is earmarked for industrial/warehousing. The industrial demand model also indicated a 102.25 hectare gap in the industrial market in 2015 which will increase to 348.96 hectares in 2020.

The CTIA is a major infrastructure element in the City of Cape Town. With the increased airport capacity for passengers and freight as well as the road improvements (Symphony Way has been completed improving movement along the eastern edge of the airport, between Philippi and Bellville) the land adjacent to the airport is equipped for development.

ACSA has committed more than R2billion over 20 years (which started in 2000) to extend existing terminal buildings and construct car parks, two new satellite terminals and an expanded runway system. The upgrade was divided into three phases. Phase 1 was completed in 2001, Phase 2 in 2003 and Phase 3 is set to be completed in 2015.

NB Pre-feasibility study information will be supplied upon request.

Project 3: Construction and Demolition Waste Recycling Facility Concept
According to pre-feasibility findings there is potential for the establishment of a Construction and Demolition Waste Recycling Facility in the City of Cape Town.

The pre-feasibility study indicates four sites with the most potential for this development, including the following:

- Parow Industrial;
- Airport Industria;
- Epping Industria; and,
- Paarden Eiland.

The City of Cape Town generates approximately 1.8 million tonnes of waste annually. Waste generated in Cape Town is currently increasing annually by an average of 6%, compared to an annual population growth rate of only 2%.

Construction and demolition rubble makes up an estimated 35% of the City's waste (58 000 to 95 800 tonnes per annum).

With large construction projects being undertaken in the City of Cape Town, a significant quantity of builders' rubble is being generated of which a certain amount is still being disposed of to landfills.

NB Pre-feasibility study information will be supplied upon request.

The activities required are described in the following sections. A Project Manager has been appointed to manage the Feasibility Study process, and the service provider is expected to report to the Project Manager throughout their appointment. As part of the process, the service provider is expected to attend meetings and workshops throughout the project.

A **compulsory briefing session** will take place on 10 February 2011 at 14:00 at the Wesgro office.

Tender documents are available from Wesgro's website: www.wesgro.co.za

Four copies of the proposal must reach Wesgro offices not later than 11:00 on the closing date of the tender.

Tender documents must be submitted on the official forms (not retyped) and can be mailed to Wesgro IP Unit, Wesgro, P.O. Box 1678, Cape Town 8000 or hand-delivered to the 12th Floor, Waldorf Arcade, 80 St George's Mall, Cape Town, for attention Ebrahim Kahn at e-mail: ebrahim@wesgro.co.za

All bids should be inclusive of VAT.

The bid documents must be split into two envelopes, one with the proposed work plan and the other with the budget and all WCBD documents. Bids that do not comply with these requirements will NOT be considered.

The bid is subject to the general conditions of contract (GCC) and, if applicable, any other special conditions of the contract.

The bid box will be open between 08:00 and 16:30 on weekdays until 18 February 2011 at 11:00.

HUMAN SCIENCES RESEARCH COUNCIL (HSRC)

BID No.: HSRC/AD02/Research

INVITATION TO APPLY FOR REGISTRATION "PANEL OF DATA CAPTURERS"

Bid No.: HSRC/AD02/Research.

Description: Panel of Data Capturers for the HSRC.

Service providers are hereby invited to apply to the Human Sciences Research Council (HSRC) to be registered on the "Panel of Data Capturers".

Specification:

Quality Controls measures to adhere to:

Service providers to provide at least three references of previous work done.

- A presentation to be done by short listed service providers to the client and HSRC representatives i.e. Supply Chain Management, Legal and other, during which matters like capturing processes and procedures are explained by the service provider.
- 100% double capturing to be done by service provider using appropriate data capturing software.
- All capturing templates to be discussed with client before capturing commence.
- Once capturing has commenced, the service provider is required to submit to the client the first 50 captured instruments. This will allow the client to compare captured data with the physical instruments to ensure the accuracy of the template as well as the quality of the data captured.

The appointed service provider should provide evidence that she/he has the competency and capacity to deliver on the assignment.

The following evaluation criteria will apply:
