RT42-20-001	Wipe, to remove adhesiveness from the skin. The wipe must also moisturizes and conditions the skin without greasiness. Gently cleans hydrocolloid, acrylic and rubber-based adhesive residues from the skin without irritation, discomfort or trauma. Applies easily and removes quickly with less need for reapplication. Non-irritating and non-sensitizing, even for ostomies and geriatric patients. Can be used anywhere there's a need for an adhesive dressing. Individually sterile wrapped Single use Size of wipe: 400mm x 400mm Box of 100 wipes	Offer 1	Per box	Grobir Medical Suppliers	R2,84	100,00	Convacare Remover wipes	Convatec	USA
RT42-20-002	Wipes, to protect the skin, is impregnated with a liquid film-forming dressing, with application to intact skin, a protective film is formed to help reduce friction during removal of tapes and dressings. Must be able to be used to prepare skin attachment sites for drainage tubes, external catheters, surrounding ostomy sites and adhesive dressings. Helps with tape and film. Removes easily when using skin cleanser or soap and water, so unsanitary residue is not left in or around the wound area. Allows skin to ""breathe"" so tapes and films adhere better. Must be tested to be use also on paediatric patients. Individually sterile wrapped Single use Size of wipe: 400mmx400mm Box of 100 wipes	Offer 1	Per box	Grobir Medical Suppliers	R3,00	100,00	Convacare Barrier wipes	Convatec	USA
