Roll-overs – R376,965 million

Programme 3: Social Security Transfers and Administration

R55,772 million has been rolled over for implementing and finalising the first phase of the management and information system for social security. This will be reflected as a transfer to the South African Social Security Agency (SASSA).

An additional R51,5 million has been approved as roll-over funds for social security legal costs.

R269,7 million from under-spending on social assistance administration will be rolled over to SASSA once it is surrendered by all provincial treasuries to the National Revenue Fund. The funding will be used to cover litigation costs from 2005/06 and 2006/07, for improving financial management systems, and for costs associated with the relocation of the social grants personnel in provinces to SASSA regional offices.

Selected expenditure trends for the first half of the 2006/07 financial year

Expenditure in the first six months of 2006/07 was R33,96 billion, or 54,4 per cent of the adjusted appropriation of R62,4 billion for the financial year. Expenditure in the first six months of 2006/07 increased by 13,8 per cent compared to the same period of the previous financial year.

The substantial increases in spending on transfers to departmental agencies and accounts and to households is due to increased transfers relating to social grant payments, the reimbursement of the Western Cape department of social development for social grant payments made to South African citizens in Walvis Bay in line with the agreement between South Africa and Namibia, transfers to non-governmental organisations with which the department has established partnerships to deliver critical services and the technical shift of social assistance transfers from conditional grants in 2005/06 to transfers to households in 2006/07.
