

Glossary

Adjustments estimate	Presentation to Parliament of the amendments to be made to the appropriations voted in the main budget for the year.
Appropriation	The approval by Parliament of spending from the National Revenue Fund, or by a provincial legislature from the Provincial Revenue Fund.
Asset price bubble	A condition occurring when prices for a category of assets rise above the level justified by economic fundamentals.
Balance of payments	A summary statement of all the transactions of the residents of a country with the rest of the world over a particular time period.
Baseline	The initial allocations used during the budget process, derived from the previous year's forward estimates.
Budget balance	The difference between expenditure and revenue. If expenditure exceeds revenue, the budget is in deficit – or, if the reverse is true, it is in surplus.
Capital gains tax	Tax levied on the profits realised from the disposal of capital assets or investments by a taxpayer. A capital gain is the excess of the selling price over the original purchase price of a capital asset.
Capital flow	A flow of investments in and out of the country.
Conditional grants	Allocations of money from one sphere of government to another, conditional on certain services being delivered or on compliance with specified requirements.
Consolidated government expenditure	Total expenditure by national and provincial government, social security funds and selected public entities, including transfers and subsidies to municipalities, businesses or other entities. See also <i>main budget</i> .
Consumer price inflation (CPI)	The main measure of inflation, charting the price movements of a basket of consumer goods and services.
Consumption expenditure	Expenditure on goods and services, including salaries, which are used up within a short period of time – usually a year.
Contingency reserve	An amount set aside, but not allocated in advance, to accommodate changes to the economic environment and to meet unforeseen spending pressures.
Countercyclical fiscal policy	Policy that has the opposite effect on economic activity to that caused by the business cycle, such as slowing spending growth in a boom period and accelerating spending in a recession.

Current account (of the balance of payments)	The difference between total exports and total imports, also taking into account service payments and receipts, interest, dividends and transfers. The current account can be in deficit or surplus. See also <i>trade balance</i> .
Debt-service cost	The cost of interest on government debt.
Depreciation (capital)	A reduction in the value of fixed capital as a result of wear and tear or redundancy.
Depreciation (exchange rate)	A reduction in the external value of a currency.
Division of revenue	The allocation of funds between the spheres of government as required by the Constitution.
Economic cost	The cost of an alternative that must be forgone to pursue a certain action.
Equitable share	The allocation of revenue to the national, provincial and local spheres of government as required by the Constitution.
Financial and Fiscal Commission	An independent body established in terms of the Constitution to make recommendations to Parliament and provincial legislatures about financial issues affecting the three spheres of government.
Financial account (of the balance of payments)	A statement of all financial transactions between a country and the rest of the world, including portfolio and fixed investment flows and movements in foreign reserves.
Financial year	The 12 months according to which companies and organisations budget and account. Government's financial year runs from 1 April to 31 March.
Fiscal policy	Policy on taxation, spending and borrowing by government.
Fiscal space	The ability of a government's budget to provide additional resources without jeopardising fiscal sustainability.
Foreign direct investment	The acquisition of long-term business interests in another country, usually involving management, technology and financial participation.
GDP inflation	A measure of the total increase in prices in the whole economy. Unlike CPI inflation, GDP inflation includes price increases in goods that are exported and intermediate goods such as machines, but excludes imported goods.
Gross domestic product (GDP)	A measure of the total national output, income and expenditure in the economy. GDP per head is the simplest overall measure of welfare, although it does not take account of the distribution of income, nor of goods and services produced outside the market economy.
Gross fixed-capital formation	The addition to a country's fixed-capital stock over a specific period, before provision for depreciation.
Inflation	An increase in the general level of prices.
Inflation targeting	A monetary policy framework intended to achieve price stability over a certain period of time. The Reserve Bank and government agree on a target rate or range of inflation to be maintained.

Main budget expenditure	National government expenditure and transfers to provincial and local government financed from the National Revenue Fund, excluding revenues and spending related to social security funds, extra-budgetary institutions and provincial own revenue. See also <i>consolidated government expenditure</i> .
Medium-term Expenditure Committee	The technical committee responsible for evaluating the MTEF budget submissions of national departments and recommending allocations.
Medium-term expenditure framework (MTEF)	The three-year spending plans of national and provincial governments published at the time of the Budget.
Money supply	The total stock of money in an economy.
National budget	The projected revenue and expenditure that flow through the National Revenue Fund. It does not include spending by provinces or local government from their own revenues.
National Development Plan	A national strategy to eliminate poverty and reduce inequality.
National Revenue Fund	The consolidated account of national government into which all taxes, fees and charges collected by the South African Revenue Service and departmental revenue must be paid.
Nominal exchange rate	The current rate of exchange between the rand and foreign currencies.
Non-interest expenditure	Total expenditure by government less debt-service costs.
Organisation for Economic Cooperation and Development	An organisation of 33 mainly industrialised countries.
Presidential Infrastructure Coordinating Commission	A body overseeing selection, planning, monitoring and coordination of large infrastructure projects, composed of representatives selected from national, provincial and local government.
Primary sector	The agricultural and mining sectors of the economy.
Private-sector credit extension	Credit provided to the private sector by banks. This includes all loans, credit card balances and leases.
Productivity	A measure of the amount of output generated from every unit of input over a period of time. Typically used to measure changes in labour efficiency.
Public entities	Companies, agencies, funds and accounts that are fully or partly owned by government or public authorities and are regulated by law.
Public-private partnership (PPP)	A contractual arrangement in which a private party performs part of a government function and assumes the associated risks. In return, the private party receives a fee based on predefined performance criteria.
Public sector borrowing requirement	The consolidated cash borrowing requirement of general government and non-financial public enterprises.
Real effective exchange rate	A measure of the rate of exchange of the rand relative to a trade-weighted average of South Africa's trading partners' currencies, adjusted for price trends.
Real expenditure	Expenditure measured in constant prices, i.e. after taking account of inflation.

Real interest rate	The level of interest after taking account of inflation.
Repurchase (repo) rate	The rate at which the Reserve Bank lends to commercial banks.
Reserves (foreign exchange)	Holdings of foreign exchange, either by the Reserve Bank only, or by the Reserve Bank and domestic banking institutions.
Rollover	Funds not spent during a given financial year that “roll over” into the following year’s budget.
Seasonally adjusted and annualised	The process of removing the seasonal volatility (monthly or quarterly) from a time series. This provides a measure of the underlying trend in the data. Annualised: to express a rate as if it were applied over one year.
Southern African Customs Union (SACU) Agreement	An agreement that allows for the unrestricted flow of goods and services, and a sharing of customs and excise revenue, between South Africa, Botswana, Namibia, Lesotho and Swaziland.
Southern African Development Community (SADC)	A regional governmental organisation that promotes collaboration, economic integration and technical cooperation throughout Southern Africa.
Sovereign debt	Debt issued by a government.
Special economic zone	A designated area where infrastructure and incentives are provided to clusters of businesses to encourage private investment and employment growth.
Terms of trade	An index measuring the ratio of export prices to import prices.
Trade balance	The monetary record of a country’s net imports and exports of physical merchandise. See also <i>current account</i> .
Unit labour costs	The cost of labour per unit of output. Calculated by dividing average wages by productivity (output per worker per hour).
