

Glossary

Above-the-line	Expenses or revenue that are regular and expected, having a direct effect on an income statement.
Adjustments estimate	Presentation to Parliament of the amendments to be made to the appropriations voted in the main budget for the year.
Appropriation	The approval by Parliament of spending from the National Revenue Fund, or by a provincial legislature from the Provincial Revenue Fund.
Balance of payments	A summary statement of all the transactions of the residents of a country with the rest of the world over a particular time period.
Baseline	The initial allocations used during the budget process, derived from the previous year's forward estimates.
Budget balance	The difference between expenditure and revenue. If expenditure exceeds revenue, the budget is in deficit. If the reverse is true, it is in surplus.
Capital flow	A flow of investments in and out of a country.
Conditional grants	Allocations of money from one sphere of government to another, conditional on certain services being delivered or on compliance with specified requirements.
Consolidated government expenditure	Total expenditure by national and provincial government, social security funds and selected public entities, including transfers to municipalities, businesses or other entities. See also <i>main budget</i> .
Consumer price index (CPI)	The main measure of inflation, charting the price movements of a basket of consumer goods and services.
Consumption expenditure	Expenditure on goods and services, including salaries, which are consumed within a short period of time – usually a year.
Contingency reserve	An amount set aside, but not allocated in advance, to accommodate changes to the economic environment and to meet unforeseen spending pressures.
Countercyclical fiscal policy	Policy that has the opposite effect on economic activity to that caused by the business cycle, such as slowing spending growth in a boom period and accelerating spending in a recession.
Crowding-in	Increase of private investment through the income-raising effect of government spending.
Crowding-out	A fall in private investment or consumption as a result of increased government expenditure.
Current account (of the balance of payments)	The difference between total exports and imports, including service payments and receipts, interest, dividends and transfers. This account can be in deficit or surplus. See also <i>trade balance</i> .

Debt-service cost	The cost of interest on government debt.
Depreciation (capital)	A reduction in the value of fixed capital as a result of wear and tear or redundancy.
Depreciation (exchange rate)	A reduction in the external value of a currency.
Division of revenue	The allocation of funds between the spheres of government as required by the Constitution.
Economic cost	The cost of an alternative forgone to pursue a certain action.
Equitable share	The allocation of revenue to the national, provincial and local spheres of government as required by the Constitution.
Financial account (of the balance of payments)	A statement of all financial transactions between a country and the rest of the world, including portfolio and fixed investment flows and movements in foreign reserves.
Financial and Fiscal Commission	An independent body established in terms of the Constitution to make recommendations to Parliament and provincial legislatures about financial issues affecting the three spheres of government.
Financial year	The 12 months according to which companies and organisations budget and account. Government's financial year runs from 1 April to 31 March.
Fiscal policy	Policy on taxation, spending and borrowing by government.
Fiscal space	The ability of a government's budget to provide additional resources without jeopardising fiscal sustainability.
Foreign direct investment	The acquisition of long-term business interests in another country, usually involving management, technology and financial participation.
GDP inflation	A measure of the total increase in prices in the whole economy. Unlike CPI inflation, GDP inflation includes price increases in goods that are exported and intermediate goods such as machines, but excludes imported goods.
Gross domestic product (GDP)	A measure of total national output, income and expenditure in the economy.
Gross fixed-capital formation	The addition to a country's fixed-capital stock over a specific period, before provision for depreciation.
Inflation	An increase in the general level of prices.
Inflation targeting	A monetary policy framework intended to achieve price stability over a certain period of time. The Reserve Bank and government agree on a target rate or range of inflation to be maintained.
Main budget expenditure	National government expenditure and transfers to provincial and local government financed from the National Revenue Fund, excluding revenues and spending related to social security funds, extra-budgetary institutions and provincial own revenue. See also <i>consolidated government expenditure</i> .
Medium-term Expenditure Committee	The committee responsible for evaluating the budget submissions of national departments and recommending allocations.

Medium-term expenditure framework (MTEF)	The three-year spending plans of national and provincial governments published at the time of the Budget.
Monetary policy	The actions taken by a country's monetary authority (e.g. the Reserve Bank), normally focused around money supply and interest rates.
Money supply	The total stock of money in an economy.
National budget	The projected revenue and expenditure flowing through the National Revenue Fund. It does not include spending by provinces or local government from their own revenues.
National Development Plan	A national strategy to eliminate poverty and reduce inequality.
National Revenue Fund	The consolidated account of national government into which all taxes, fees and charges collected by the South African Revenue Service and departmental revenue must be paid.
Nominal exchange rate	The current rate of exchange between the rand and foreign currencies.
Non-interest expenditure	Total expenditure by government less debt-service costs.
Presidential Infrastructure Coordinating Commission	A body overseeing selection, planning, monitoring and coordination of large infrastructure projects, composed of representatives selected from national, provincial and local government.
Primary expenditure	Non-interest expenditure by government.
Primary sector	The agricultural and mining sectors of the economy.
Private-sector credit extension	Credit provided to the private sector by banks. This includes all loans, credit card balances and leases.
Productivity	A measure of the amount of output generated from every unit of input over a period of time. Typically used to measure changes in labour efficiency.
Public entities	Companies, agencies, funds and accounts that are fully or partly owned by government or public authorities and regulated by law.
Public-private partnership (PPP)	A contractual arrangement in which a private party performs part of a government function and assumes the associated risks. In return, the private party receives a fee based on predefined performance criteria.
Public sector borrowing requirement	The consolidated cash borrowing requirement of general government and non-financial public enterprises.
Purchasing managers' index (PMI)	A composite index measuring the change in manufacturing activity compared with the previous month.
Real effective exchange rate	A measure of the rate of exchange of the rand relative to a trade-weighted average of South Africa's trading partners' currencies, adjusted for price trends.
Real expenditure	Expenditure measured in constant prices, i.e. after taking account of inflation.
Real interest rate	The level of interest after taking account of inflation.
Repurchase (repo) rate	The rate at which the Reserve Bank lends to commercial banks.
Reserves (foreign exchange)	Holdings of foreign exchange, either by the Reserve Bank only, or by the Reserve Bank and domestic banking institutions.

Rollover	Funds not spent during a given financial year that flow into the following year's budget.
Seasonally adjusted and annualised	The process of removing the seasonal volatility (monthly or quarterly) from a time series. This provides a measure of the underlying trend in the data. Annualised: to express a rate as if it were applied over one year.
Social wage	Social benefits available to all individuals, funded wholly or partly by the state.
Southern African Customs Union (SACU) agreement	An agreement that allows for the unrestricted flow of goods and services, and a sharing of customs and excise revenue, between South Africa, Botswana, Namibia, Lesotho and Swaziland.
Southern African Development Community (SADC)	A regional governmental organisation that promotes collaboration, economic integration and technical cooperation throughout Southern Africa.
Sovereign debt	Debt issued by a government.
Special economic zone	A designated area where infrastructure and incentives are provided to clusters of businesses to encourage private investment and employment growth.
Switch (auction)	Auctions to exchange bonds to manage refinancing risk or improve tradability.
Terms of trade	An index measuring the ratio of export prices to import prices.
Trade balance	The monetary record of a country's net imports and exports of physical merchandise. See also <i>current account</i> .
Undercapitalisation	Lack of sufficient funds (capital) to conduct day-to-day operations.
Unit labour costs	The cost of labour per unit of output. Calculated by dividing average wages by productivity (output per worker per hour).
Unsecured lending	A loan that is not backed or secured by any type of collateral to reduce the lender's risk.
Yield	A financial return or interest paid to buyers of government bonds.
