1. Index result from the South African Air Quality Information System will be available only by the end of 2017/18.

Mid-year progress

The department is lagging in its achievement of targets for the number of work opportunities and full-time equivalent jobs created through the expanded public works programme. This is due to the re-evaluation of contracts and projects as a result of the audit opinion on the department. To correct this, it plans to intensify efforts to meet these targets by the end of 2017/18.

The department has almost met its annual target for the percentage of land under conservation as a result of a higher than expected number of landowners volunteering their land.

Expenditure trends for the first six months of 2017/18

Total expenditure in 2016/17 was R6.4 billion, or 99.3 per cent of the 2016/17 adjusted appropriation. Expenditure in the first six months of 2017/18 was R2.6 billion, or 38.3 per cent of the adjusted appropriation of R6.8 billion for the year. In comparison, mid-year expenditure in 2016/17 was R2.7 billion, or 42.2 per cent of the 2016/17 adjusted appropriation. Compared to the first six months of 2016/17, expenditure over the same period in 2017/18 decreased by R83.7 million, or 3.1 per cent. This is mainly due to slow spending on expanded public works programme projects as a result of audit outcomes and a review of applicable projects and contracts; and delays in establishing the department's waste bureau, which is expected to be in full operation by December 2017.
