Mid-year progress

The department supported 190 cooperatives through training in the first half of 2017/18 due to a higher than expected number of applications received.

Financial assistance was provided to 73 cooperatives through the cooperative incentive scheme against an annual target of 270. This slow disbursement is due to a remodelling of the scheme's implementation strategy. The department plans to accelerate the provision of funding through the new model.

No informal business infrastructure has been funded through the shared economic infrastructure facility in 2017/18 due to delays in adjudication. However, claims worth R5.2 million have been received and disbursement will be processed in the third quarter. Five more projects have been approved by the adjudication committee and the department is confident that the target of 6 for the financial year will be met.

No informal enterprises have received financial assistance from the department in 2017/18 due to procurement challenges in the implementation of the national informal business upliftment scheme. It is not likely that the target will be achieved by the end of the financial year. As a result, R21.6 million will be reallocated from the programme to fund other priorities within the department.
