2. Indicators no longer be measured due to realignment with the department's 2017/18 annual performance plan, which has combined them into one.

Mid-year progress

The department plans to enrol 25 municipalities for local government management improvement model scorecards in 2017/18. The process is under way and enrolment is set to begin in October, placing the department on track to meet its target.

The standards for the management performance assessment tool were revised in September, and as a result, the consolidated report has not yet been submitted to Cabinet. The assessment of national and provincial departments is set to take place in October, and the department expects to submit the report to Cabinet by the end of the financial year.

2 evaluation reports have been approved by steering committees thus far in 2017/18 as evaluations are still under way. The department expects to have approved 8 evaluation reports by the end of 2017/18.
