

# Glossary

<b>Accrued liability</b>	A liability that is not paid in the fiscal year in which it is incurred, and so continues to be owed in the next fiscal year.
<b>Adjustment estimates</b>	Presentation to Parliament of the amendments to be made to the appropriations voted in the main budget for the year.
<b>Administered prices</b>	Prices set outside ordinary market processes through administrative decisions by government, a public entity or a regulator.
<b>Appropriation</b>	The approval by Parliament of spending from the National Revenue Fund, or by a provincial legislature from the Provincial Revenue Fund.
<b>Asset price inflation</b>	An increase in the overall price of assets over a specific period of time.
<b>Balance of payments</b>	A summary statement of all the transactions of the residents of a country with the rest of the world over a particular time period.
<b>Basel III</b>	Reforms developed by the Basel Committee on Banking Supervision to strengthen the regulation, supervision and risk management of the banking sector.
<b>Baseline</b>	The initial allocations used during the budget process, derived from the previous year's forward estimates.
<b>Blended finance</b>	The combination of public, private, development and multilateral sources of financing to leverage funding for infrastructure projects.
<b>Bond-switch programme</b>	An auction that aims to ease pressure on targeted areas of the redemption profile by exchanging shorter-dated debt for longer-term debt.
<b>Budget balance</b>	The difference between expenditure and revenue. If expenditure exceeds revenue, the budget is in deficit. If the reverse is true, it is in surplus.
<b>Budget Facility for Infrastructure</b>	A reform to the budget process that establishes specialised structures, procedures and criteria for committing fiscal resources to public infrastructure spending.
<b>Buy-back transaction</b>	A transaction where government buys debt instruments from investors before their redemption date.
<b>Capital erosion</b>	The deterioration of capital due to the lack of investment in the economy.
<b>Capital flight</b>	A large outflow of investments from a country in response to heightened economic, political or policy risk.
<b>Capital flow</b>	A flow of investments in or out of the country.
<b>Concessionary financing</b>	Financing or loans that are extended on terms that are more generous than market loans, for example through lower interest rates or grace periods where there is no repayment.

<b>Conditional grants</b>	Allocations of money from one sphere of government to another, conditional on certain services being delivered or on compliance with specified requirements.
<b>Consolidated government expenditure</b>	Total expenditure by national and provincial government, social security funds and selected public entities, including transfers to municipalities or other entities. See also <i>main budget expenditure</i> .
<b>Consumer price index (CPI)</b>	The main measure of inflation, charting changes in the price movements of a basket of consumer goods and services.
<b>Consumption expenditure</b>	Expenditure on goods and services, including salaries, which are consumed within a short period of time – usually a year.
<b>Contingency reserve</b>	An amount set aside, but not allocated in advance, to accommodate changes in the economic environment and to meet unforeseen spending pressures.
<b>Contingent liability</b>	A government obligation, such as a guarantee, that will only result in expenditure if a specific event occurs. See also <i>government guarantee</i> .
<b>Core inflation</b>	A measure of the change in consumer price levels that excludes temporary shocks and represents the long-run trend of changes in the price level. See also <i>headline inflation</i> .
<b>Countercyclical fiscal policy</b>	Policy that has the opposite effect on economic activity to that caused by the business cycle, such as slowing spending growth in a boom period and accelerating spending in a recession.
<b>Credit rating</b>	An indicator of the risk of default by a borrower or the riskiness of a financial instrument. Ratings agencies assign grades signifying the borrower's capacity to meet its financial obligations or the probability that the value of the financial instrument will be realised. See also <i>rating agency</i> .
<b>Crowding-in</b>	An increase in private investment or consumption as a result of government spending.
<b>Crowding-out</b>	A fall in private investment or consumption as a result of increased government spending.
<b>Current account (of the balance of payments)</b>	The difference between total exports and imports, including service payments and receipts, interest, dividends and transfers. This account can be in deficit or surplus. See also <i>trade balance</i> .
<b>Current balance</b>	The difference between revenue and current expenditure, which consists of compensation of employees, goods and services, and interest and rent on land.
<b>Debt redemption</b>	Repayment of the principal and any outstanding interest on a bond.
<b>Debt-service cost</b>	The cost of interest on government debt.

<b>Depreciation (capital)</b>	A reduction in the value of fixed capital as a result of wear and tear or redundancy.
<b>Depreciation (exchange rate)</b>	A reduction in the external value of a currency.
<b>Disposable income</b>	Total income less all taxes and employee contributions.
<b>Division of revenue</b>	The allocation of funds between national, provincial and local government as required by the Constitution.
<b>Economic growth</b>	An increase in the total amount of output, income and spending in the economy.
<b>Effective cost of debt</b>	A measure of the cost of debt that includes non-interest costs, such as penalties and upfront payments, which are often applied to distressed borrowers.
<b>Emerging economies</b>	A name given by international investors to middle-income economies.
<b>Employment tax incentive</b>	An incentive to encourage the creation of jobs for youth by allowing employers to claim a reduction in employees' tax.
<b>Equitable share</b>	The allocation of revenue to national, provincial and local government as required by the Constitution.
<b>Expenditure ceiling</b>	An overall limit on expenditure that enables government to manage departmental spending levels.
<b>External imbalance</b>	An excessively positive or negative current account balance, reflecting an excess or deficit of domestic investment over domestic savings.
<b>Femicide</b>	The murder of women on the basis of their gender.
<b>Financial account (of the balance of payments)</b>	A statement of all financial transactions between a country and the rest of the world, including portfolio and fixed investment flows, and movements in foreign reserves.
<b>Financial and Fiscal Commission</b>	An independent body established in terms of the Constitution to make recommendations to Parliament and provincial legislatures about financial issues affecting the three spheres of government.
<b>Financial year</b>	The 12 months according to which companies and organisations budget and account. Government's financial year runs from 1 April to 31 March.
<b>Fiscal consolidation</b>	Measures to stabilise a government's debt-to-GDP ratio and narrow its budget deficit.
<b>Fiscal policy</b>	Policy on taxation, spending and borrowing by government.
<b>Fiscal space</b>	Government's ability to provide additional resources in the budget without jeopardising fiscal sustainability.
<b>Flexible exchange rate</b>	Determination of currency exchange rates by market forces.
<b>Floating exchange rate</b>	An exchange rate regime in which the exchange rate of a country can fluctuate in response to movements in the foreign exchange market.
<b>Foreign direct investment</b>	The acquisition of long-term business interests in another country, usually involving management, technology and financial participation.

<b>Full-time equivalent</b>	An indicator measuring the proportion of time for which an employee receives a salary. It enables government to estimate annual personnel costs by aggregating the amount of part-time work to calculate the full-time equivalents. For example, two people working full-time for six months of the year would count as one full-time equivalent.
<b>GDP inflation</b>	A measure of the total increase in prices in the whole economy. Unlike CPI inflation, GDP inflation includes price increases in goods that are exported and intermediate goods such as machines, but excludes imported goods.
<b>Gold and foreign exchange account</b>	A Reserve Bank account that reflects its losses and profits on holdings of foreign currency and gold reserves, driven by changes in the exchange rate of the rand to the US dollar and the gold price.
<b>Government guarantee</b>	An assurance made by government to a lender that a financial obligation will be honoured, even if the borrowing government institution is unable to repay the debt. See also <i>contingent liability</i> .
<b>Gross domestic product (GDP)</b>	A measure of total national output, income and expenditure in the economy.
<b>Gross fixed capital formation</b>	The addition to a country's fixed capital stock over a specific period, before providing for depreciation.
<b>Gini coefficient</b>	A measure that illustrates inequality in the distribution of income. It is expressed as a number between 0 and 1, with 0 representing perfect equality in income and 1 representing perfect inequality.
<b>Headline inflation</b>	A measure of the change in the CPI level that includes temporary price shocks to the economy, such as once-off price changes. See also <i>core inflation</i> .
<b>Integrated financial management system (IFMS) project</b>	A project to review, upgrade and integrate government's financial management information technology systems.
<b>Independent power producer</b>	A private-sector business that generates energy for the national grid.
<b>Indirect grant</b>	A grant allowing a national department to perform a function on behalf of a province or municipality. No funds are transferred, but the end-product of the grant, such as infrastructure, is generally transferred to the province or municipality.
<b>Inflation</b>	An increase in the general level of prices.
<b>Inflation targeting</b>	A monetary policy framework intended to achieve price stability over a certain period of time. The Reserve Bank and government agree on a target rate or range of inflation to be maintained.
<b>Intergenerational equity</b>	A value based on ensuring that future generations do not have to repay debts taken on today, unless they also share in the benefits of assets.
<b>Investment grade</b>	A credit rating which is regarded as carrying minimal risk to the investors.

<b>Labour force participation</b>	The ratio of employed and unemployed workers (the labour force) relative to the working-age population.
<b>Liquidity</b>	The ease with which assets can be bought and sold.
<b>Main budget expenditure</b>	National government expenditure and transfers to provincial and local government financed from the National Revenue Fund, excluding revenues and spending related to social security funds, extra-budgetary institutions and provincial own revenue. See also <i>consolidated government expenditure</i> .
<b>Medium Term Expenditure Committee (MTEC)</b>	The technical committee responsible for evaluating the medium term expenditure framework budget submissions of national departments and making recommendations to the Minister of Finance regarding allocations to national departments.
<b>Medium-term expenditure framework (MTEF)</b>	The three-year spending plans of national and provincial governments published at the time of the Budget.
<b>Medium-term strategic framework</b>	The five-year strategy of government coinciding with the electoral term.
<b>Monetary policy</b>	The actions taken by a country's monetary authority (e.g. the Reserve Bank), usually focused on money supply and interest rates.
<b>Money supply</b>	The total stock of money in an economy.
<b>National budget</b>	The projected revenue and expenditure flowing through the National Revenue Fund. It does not include spending by provinces or local government from their own revenues.
<b>National Development Plan (NDP)</b>	A national strategy to eliminate poverty and reduce inequality.
<b>National health insurance (NHI)</b>	A policy relating to healthcare that aims to provide access to quality and affordable health services to all South Africans .
<b>National Revenue Fund</b>	The consolidated account of national government into which all taxes, fees and charges collected by the South African Revenue Service, and departmental revenue must be paid.
<b>Net asset position</b>	The total value of a company's assets minus its liabilities.
<b>Nominal exchange rate</b>	The current rate of exchange between the rand and foreign currencies.
<b>Nominal wage</b>	The return, or wage, to employees at the current price level.
<b>Non-interest expenditure</b>	Total expenditure by government less debt-service costs.
<b>Occupation-specific dispensation (OSD)</b>	A public-sector initiative aimed at improving government's ability to attract and retain skilled employees in targeted occupations through increased remuneration.

<b>Opportunity cost</b>	The cost of an alternative forgone to pursue a certain action.
<b>Primary deficit/surplus</b>	The difference between total revenue and non-interest expenditure. When revenue exceeds non-interest expenditure, there is a surplus.
<b>Primary expenditure</b>	Non-interest expenditure by government.
<b>Primary sector</b>	The agricultural and mining sectors of the economy.
<b>Private-sector credit extension</b>	Credit provided to the private sector by banks. This includes all loans, credit card balances and leases.
<b>Productivity</b>	A measure of the amount of output generated from every unit of input over a period of time. Typically used to measure changes in labour efficiency.
<b>Protectionism</b>	When a country restricts international trade to protect domestic industries.
<b>Payroll tax</b>	Tax an employer withholds and/or pays on behalf of employees based on employee wages or salaries.
<b>Potential growth</b>	The fastest growth that an economy can sustain without increasing inflation.
<b>Public entities</b>	Companies, agencies, funds and accounts that are fully or partly owned by government or public authorities and regulated by law.
<b>Public-sector borrowing requirement</b>	The consolidated cash borrowing requirement of general government and non-financial public enterprises.
<b>Purchasing managers' index (PMI)</b>	A composite index measuring the change in manufacturing activity compared with the previous month.
<b>Rating agency</b>	A company that evaluates the ability of countries or other borrowers to honour their debt obligations. Credit ratings are used by international investors as indications of risk. See also <i>credit rating</i> .
<b>Real effective exchange rate</b>	A measure of the rate of exchange of the rand relative to a trade-weighted average of South Africa's trading partners' currencies, adjusted for inflation.
<b>Real expenditure</b>	Expenditure measured in constant prices, in other words, adjusted to remove the effects of inflation.
<b>Real interest rate</b>	The level of interest after removing the effects of inflation.
<b>Recapitalisation</b>	Injection of funds into a company or entity to aid liquidity, either as a loan or in return for equity.
<b>Redemption</b>	The return of an investor's principal in a fixed-income security, such as a preferred stock or bond.

<b>Refinancing</b>	The repayment of debt at a scheduled time with the proceeds of new loans.
<b>Revaluation gain/loss</b>	The difference in value of an asset, liability or transaction from its original (historical) rate to its current rate.
<b>Repurchase (repo) rate</b>	The interest rate at which the Reserve Bank lends to commercial banks.
<b>Reserves (foreign exchange)</b>	Holdings of foreign exchange, either by the Reserve Bank only, or by the Reserve Bank and domestic banking institutions.
<b>Risk premium</b>	A return that compensates for uncertainty.
<b>Rollover</b>	Funds not spent during a given financial year that flow into the following year's budget.
<b>Seasonally adjusted and annualised</b>	The process of removing the seasonal volatility (monthly or quarterly) from a time series. This provides a measure of the underlying trend in the data. Once the rate is annualised, it is expressed as if it were applied over one year.
<b>Social grants</b>	Social benefits available to qualifying individuals, funded wholly or partly by the state.
<b>Southern African Customs Union (SACU) agreement</b>	An agreement that allows for the unrestricted flow of goods and services, and the sharing of customs and excise revenue, between South Africa, Botswana, eSwatini, Lesotho and Namibia.
<b>Southern African Development Community (SADC)</b>	A regional intergovernmental organisation that promotes collaboration, economic integration and technical cooperation throughout Southern Africa.
<b>Sovereign debt</b>	Debt issued by a government.
<b>Special economic zone</b>	A designated area where infrastructure and incentives are provided to clusters of businesses to encourage private investment and employment growth.
<b>Structural reforms</b>	Measures that are put in place with the aim of substantially changing the economy, or the institutional and regulatory framework in which people and businesses operate.
<b>Supply-side constraints</b>	A situation where a country's productive capacity cannot keep up with rising demand.
<b>Switch (auction)</b>	Auctions to exchange bonds to manage refinancing risk or improve tradability.
<b>Tax avoidance</b>	When individuals or businesses legitimately use provisions in the tax law to reduce their tax liability.
<b>Tax buoyancy</b>	Describes the relationship between total tax revenue collections and economic growth. This measure includes the effects of policy changes on revenue. A value above one means that revenues are growing faster than the economy and below one means they are growing below the rate of GDP growth.

<b>Tax evasion</b>	When individuals or businesses illegally reduce their tax liability.
<b>Tax-to-GDP ratio</b>	For public finance comparison purposes, a country's tax burden, or tax-to-GDP ratio, is calculated by taking the total tax payments for a particular fiscal year as a fraction or percentage of the GDP for that year.
<b>Terms of trade</b>	An index measuring the ratio of export prices to import prices.
<b>Trade balance</b>	The monetary record of a country's net imports and exports of physical merchandise. See also <i>current account</i> .
<b>Transversal term contract</b>	A fixed-term contract to procure goods or services needed by more than one government department.
<b>Treasury bills</b>	Short-term government debt instruments that yield no interest but are issued at a discount. Maturities vary from one day to 12 months.
<b>Twin deficit</b>	The combination of deficits on the budget and the current account.
<b>Twin peaks</b>	An approach to organising financial sector regulation and supervision involving two regulators. One is responsible for ensuring financial services firms sell their products in an appropriate way. The other is responsible for ensuring financial firms remain financially sound and are generally prudent.
<b>Undercapitalisation</b>	Lack of sufficient funds (capital) to conduct day-to-day operations.
<b>Unit labour costs</b>	The cost of labour per unit of output, calculated by dividing average wages by productivity (output per worker per hour).
<b>Unsecured lending</b>	A loan that is not backed or secured by any type of collateral to reduce the lender's risk.
<b>Yield</b>	A financial return or interest paid to buyers of government bonds. The yield/rate of return on bonds includes the total annual interest payments, the purchase price, the redemption value and the time remaining until maturity.
