Expenditure analysis

Chapter 15 of the National Development Plan envisages economic participation, education and skills development for women and other vulnerable groups, and the elimination of violence against women and children. This vision is given expression by priority 1 (economic transformation and job creation), priority 5 (social cohesion and safe communities) and priority 6 (a capable, ethical and developmental state) of government's 2019-2024 medium-term strategic framework. The work of the Department of Women, Youth and Persons with Disabilities is directly aligned with these priorities through facilitating the planning, budgeting, monitoring and evaluation, and auditing processes responsive to gender, youth and disability rights across the state. Accordingly, over the medium term, the department intends to focus on: reducing gender-based violence and femicide, and strengthening the national gender machinery; making interventions for economic empowerment; engaging in responsive government-wide planning, budgeting, monitoring and evaluation; ensuring compliance with international commitments; promoting the rights of people with disabilities; and supporting the development of young people.

The department's budget structure has changed to align with the reconfigured department following the incorporation of the *National Youth Development Programme* from the Department of Planning, Monitoring and Evaluation, and the *Rights of Persons with Disabilities* subprogramme from the Department of Social Development. Expenditure is expected to increase at an average annual rate of 4.9 per cent, from R738 million in 2019/20 to R853 million in 2022/23. Transfers and subsidies account for an estimated 73 per cent (R1.8 billion) of the department's total budget over the MTEF period. The department is set to receive additional allocations in the *Social Transformation and Economic Empowerment* programme amounting to R15 million over the medium term for the establishment of a national council on gender-based violence and femicide.

Eradicating gender-based violence and femicide, and strengthening the national gender machinery

In response to the high prevalence of gender-based violence and femicide in South Africa, the department plans to carry out work in two strategic areas: facilitating interventions to eradicate gender-based violence and femicide; and revitalising and strengthening the national gender machinery, a set of integrated structures meant to promote gender equality, as proposed in the South African policy framework for women's empowerment and gender equality. Activities related to these measures are carried out in the *Governance Transformation, Justice and Security* subprogramme, which is allocated R43.6 million over the MTEF period.

Making interventions for economic empowerment

Over the medium term, the department will seek to explore partnerships with economic cluster departments, agencies and businesses in priority sectors to establish models and support systems to maximise the economic inclusion and empowerment of women, young people and people with disabilities. Related activities such as advocacy campaigns and meetings will be carried out in the *Social Empowerment and Transformation* subprogramme in the *Social Transformation and Economic Empowerment* programme, which is allocated R29.5 million over the medium term.

Engaging in responsive government-wide planning, budgeting, and monitoring and evaluation

The work of the department's *Policy, Stakeholder Coordination and Knowledge Management* programme is integral in advocating for and safeguarding the rights of the department's core constituents. In each year over the medium term, the department plans to conduct 12 public participation initiatives and 4 community mobilisation events to assist government in identifying gaps and advising on how services should be structured to respond to citizen concerns and contribute to the realisation of equal and entrenched rights for women, young people and people with disabilities. Expenditure for these initiatives and events is within an allocation of R51.7 million in the programme's *Stakeholder Coordination and Outreach* subprogramme.

Cabinet adopted the framework on gender-responsive planning, budgeting, monitoring and evaluation, and auditing in 2018/19. Over the medium term, the department will continue to increase awareness of and build capacity for implementing the framework, and provide strategic guidance to other departments to coordinate its implementation through an allocation of R3.7 million also in the *Policy, Stakeholder Coordination and Knowledge Management* programme. When the department's knowledge hub, which was launched in 2019/20, is fully operational, it will be a central repository of research and information on gender, and thereby contribute to the framework's successful implementation. For this purpose, R1.3 million is allocated over the MTEF period, also in the *Policy, Stakeholder Coordination and Knowledge Management* programme.

Ensuring compliance with international commitments

Over the period ahead, the department plans to facilitate South Africa's participation in multilateral platforms that advance the inclusion of women, youth and people with disabilities. Related activities include supporting compliance with international commitments and obligations, establishing partnerships and collaborations to mobilise resources, and preparing country reports. These are carried out in the *International Relations* subprogramme in the *Policy, Stakeholder Coordination and Knowledge Management* programme at an estimated cost of R17.3 million over the MTEF period. Key engagements over the medium term include the 64th session of the United Nations Commission on the Status of Women, the 25th anniversary of the Beijing Declaration and Platform for Action, and relevant structures of the African Union and Southern African Development Community.

Promoting the rights of people with disabilities

Activities in the *Rights of Persons with Disabilities* programme are focused on developing, supporting and monitoring the implementation of policies; and coordinating government's implementation of the 2015 White Paper on the Rights of Persons with Disabilities. Over the medium term, the department will oversee the implementation of programmes pertaining to the rights of people with disabilities, develop advocacy strategies and mainstreaming guidelines to advance rights of people with disabilities, standardise the measure of disability in partnership with Statistics South Africa to ensure the quality of disability data in administrative systems, and integrate reporting obligations into a consolidated monitoring framework for disability rights. These goals are set to be achieved through an allocation of R63.9 million over the MTEF period in the *Rights of Persons with Disabilities* programme.

Supporting the development of young people

The department oversees the development of youth policy and the National Youth Development Agency, and implements and monitors initiatives targeted at the development of young people. To this end, the department has embarked on a review of the national youth policy with the aim of producing a new policy for the period

2020-2030. The review of the policy will run concurrently with the policy's monitoring and evaluation framework to enable adequate reporting and accountability on policy pillars. To carry out these activities, R40 million over the MTEF period is allocated to the Management: *National Youth Development* subprogramme.
