Selected expenditure trends for the first half of the 2006/07 financial year

Expenditure in the first six months of 2006/07 was R648 million, or 48,7 per cent of the adjusted appropriation of R1,3 billion for the year as a whole.

Expenditure in the first six months of 2006/07 has increased by 41,4 per cent compared to the same period of the previous financial year.

The substantial increase in transfers is due to increased transfers to households for the commemoration of the 50th anniversary of the women's march and for South Africa's participation in the cultural manifestation and closing ceremony at the Soccer World Cup in Germany. Transfers to provinces and municipalities decreased by 46,9 per cent due to the phasing out of the Regional Services Council levies.

Current payments reflects a substantial increase as a result of increased allocations, mainly to goods and services, to cover transport and special services for the commemorations of the 1976 Soweto uprising, the 50th anniversary of women's march and the 100th anniversary of the Bambatha rebellion.
