Selected expenditure trends for the first half of the 2006/07 financial year

Expenditure in the first six months of 2006/07 was R637,5 million, or 42,7 per cent of the adjusted appropriation of R1,5 billion for the year as a whole.

Increases in funding for the CCMA have impacted on the percentage comparisons for the programmes *Employment and Skills Development Services/ Human Resources Development* and *Labour Policy and Labour Market* programmes. Increases in the transfer to the CCMA will be effected in the second half of the 2006/07 financial year. An allocation to *Employment and Skills Development Services/ Human Resources Development* programme for the national qualifications framework was surrendered as it will no longer be required in the current financial year. Expenditure increases are anticipated under current payments as the department implements its integrated business strategy. Payments for affiliation fees to international organisations will also be effected in the second half of this financial year.

No significant under-expenditure is anticipated for 2006/07, and expenditure on all programmes is on track. The direct charge against the National Revenue Fund at the end of September 2006 was 46 per cent of the appropriation of R5,5 billion for the year as a whole. Total expenditure for the vote at the end of September 2006 was 45,5 per cent of the total adjusted appropriation of R7 billion for the year as a whole, which is in line with last year's 47,4 per cent.
