### Selected expenditure trends for the first half of the 2006/07 financial year

Expenditure in the first six months of 2006/07 was R147,3 million or 15,3 per cent of the adjusted appropriation of R959,9 million for the year as a whole. Expenditure in the first six months of 2006/07 has increased by 102 per cent compared to the same period of the previous financial year.

The year-on-year increase in total expenditure is mainly due to increases under goods and services and under transfers to provinces and to non-profit institutions. Spending on goods and services increases by 45,1 per cent due to the absorption of the South African Sports Commission into the department and the establishment of the 2010 World Cup unit. The significant increase of 358,6 per cent under transfers to provinces is due to a substantial increase in the conditional grant for mass sport participation.
