Changes to indicators and targets published in the 2011 ENE

The 2011/12 target for the number of visitors to Parliament has been adjusted from 33 824 and decreased to 27 245 due to the implementation of the virtual tour, which allows the public to view the parliamentary precinct and its operations on the internet. The number of bills passed and the number of international agreements adopted in the first half of 2011/12 has been revised downwards because of the time the process takes once the legislature has received a bill from the executive.

Mid-year progress

The number of oversight visits undertaken in the first half of 2011/12 has already exceeded the estimate for the whole year as portfolio committees have made more visits to actual areas where service delivery is taking place, in order to have more direct involvement with communities. Annual reports were tabled as planned and are currently being scrutinised and considered by portfolio committees.
