Executive authority	Minister of Mineral Resources			
Accounting officer	Director-General of Mineral Resources			
Website address	www.dmr.gov.za			

### Aim

Promote and regulate the minerals and mining sector for transformation, growth and development; and ensure that all South Africans derive sustainable benefits from the country's mineral wealth.

### Mid-year performance status

Indicator	Programme	Annual performance		
As published in the 2012 ENE	Programme linked to the indicator	Projected for 2012/13 as published in the 2012 ENE	Achieved in the first six months of 2012/13 (April to September)	Changed estimate for 2012/13
Number of occupational health and safety inspections and mine audits conducted per year	Promotion of Mine Health and Safety	8 396	4 387	–
Number of mining rights granted to historically disadvantaged South Africans per year	Mineral Regulation	90	47	–
Number of industry workshops on compliance issues per year	Mineral Regulation	27	11	–
Number of mining charter inspections per year	Mineral Regulation	180	99	–
Number of environmental inspections per year	Mineral Regulation	1800	775	–
Number of publications per year	Mineral Policy and Promotion	12	10	–
Number of policies developed or reviewed per year	Mineral Policy and Promotion	4	0	–
Number of derelict and ownerless mines rehabilitated per year	Mineral Policy and Promotion	12	2	–
Number of sustainable SMMEs supported (new and established) per year	Mineral Policy and Promotion	67	47	–

#### Changes to indicators and targets published in the 2012 ENE

The indicator "Number of planned promotional activities (exhibitions, conferences, workshops) per year" has been amended to "Number of publications per year". This change was implemented because issuing publications has been identified as the best way to strengthen the promotional initiative and improve the efficiency on investment. The indicator is still measuring the same output and the target is unaffected.

### Mid-year progress

The number of occupational health and safety inspections and mine audits conducted for the first six months of the financial year is in line with the number of inspections and audits planned. The number of rights and permits issued to entities controlled by historically disadvantaged South Africans is 47 against the mid-year target of 50. The achievement is dependent on one number of applications received from Historically Disadvantaged South African controlled entities. The number of industry workshops on compliance issues and environment inspections took place as scheduled for the first six months of the year. Over half of the annual targeted number of small, medium and micro enterprises (SMMEs) have been supported through monitoring and evaluation, organised training and strategic assistance and site visits to the projects.

The number of mining charter inspections is higher than expected due to a need to verify mining companies' compliance in respect of Social Labour Plans projects implementation. The number of publications is higher than expected in the first half of 2012/13 due to the initiation of the promotional strategy. The rehabilitation of ownerless and derelict mines is slow in the first six months of the financial year due to the shortage of staff within the Department. However, two critical positions in this area are now funded, increasing the likelihood that the annual targets will be met.

The number of policies reviewed per year has been revised from four to two and this is due to the focus being solely on the review of the Mineral and Petroleum Resources Development Act (MPRDA) and the Mine Health and Safety Act (MHSA) as per the Minister's request. As this change is not due to adjustments in the budget, it has not been reflected in the table above.

The Department has successfully concluded pre-Cabinet community consultations to solicit public comments and views on the objectives of the review of the regulatory framework and amendments to the Mineral and Petroleum Resources Development Act. The resulting proposals will be tabled in Parliament before the current financial year end. The Department consulted the tripartite stakeholders when identifying the challenges of implementing the Mine Health and Safety Act in the mining industry and formulated proposed amendments. The proposed amendments will be tabled before Cabinet to obtain approval to conduct public consultations on the Mine Health and Safety Amendment Draft Bill and to table the Bill in Parliament.

### Main expenditure trends for the first half of 2012/13

Total expenditure for 2011/12 was 99.1 per cent of the 2011/12 adjusted appropriation. Expenditure in the first six months of 2012/13 was R641.517 million, or 54.6 per cent of the adjusted appropriation of R1.176 billion for the year as a whole. In comparison, mid-year expenditure in 2011/12 was R519.091 million, or 50 per cent of the 2011/12 adjusted appropriation. Expenditure in the first six months of 2012/13 increased by R122.426 million or 23.6 per cent, compared to expenditure in the first six months of 2011/12.

The main expenditure increase compared to 2011/12 is due to the carry-through cost of salary adjustments and payments for computer equipment.
