Aim

Promote and regulate the minerals and mining sector for transformation, growth and development. Ensure that all South Africans derive sustainable benefits from the country's mineral wealth.

Mid-year progress

The number of occupational health and safety inspections and mine audits conducted within the first six months of the year was 4 846 against an annual target of 8 396. The mid-year target was exceeded due to the department's consistent efforts to reduce the number of deaths in mines as a result of unsafe environments.

While the Mineral and Petroleum Resources Development Bill was approved by Cabinet in 2013/14, the bill has not yet been signed into law. This has resulted in slower progress in the revision of regulations, as the regulations derive from the Mineral and Petroleum Resources Development Act. For the same reason, only 1

industry workshop on compliance issues was conducted in the first half of 2014/15 against an annual target of 9.

Expenditure trends for the first half of 2014/15

Total expenditure in 2013/14 was 99.5 per cent of the 2013/14 adjusted appropriation. Expenditure in the first six months of 2014/15 was R832.282 million, or 56.4 per cent of the adjusted appropriation of R1.476 billion for the year. In comparison, mid-year expenditure in 2013/14 was R745.347 million, or 53.5 per cent of the 2013/14 adjusted appropriation. Compared to expenditure in the first six months of 2013/14, expenditure in the same period in 2014/15 increased by R86.935 million or 11.7 per cent. This is mainly due to the filling of vacant posts and inflationary adjustments to the baseline.

Revenue trends for the first half of 2014/15

Revenue in the first six months of 2014/15 was R23.372 million, or 51.8 per cent of the adjusted revenue estimate of R45.113 million for the year. In comparison, mid-year revenue in 2013/14 was R20.821 million, or 50 per cent of the 2013/14 adjusted estimate. Compared to the first six months of 2013/14, revenue over the same period in 2014/15 increased by R2.551 million or 12.3 per cent. This is mainly due to royalty payments, which the department is still receiving from old order mining rights and which need to be converted to new order mining rights. This process has to be completed before the South African Revenue Service can receive the royalty payments.
