Aim

Ensure the availability and supply of water at national level, facilitate equitable and sustainable social and economic development, and ensure the universal and efficient supply of water services and sanitation at local level.

2014 national macro organisation of the state

In accordance with the reorganisation of some national departments announced by the President in May 2014, the new Department of Water and Sanitation undertakes all the water functions from the previous Department of Water Affairs, and the sanitation functions from the Department of Human Settlements.

Changes to indicators and targets published in the 2014 ENE

In an error in the wording of the performance indicator for the percentage of completion on the Greater Letaba river water resources project (the raising of Tzaneen Dam) when the 2014 ENE was compiled, the target of 55 per cent was set instead of 35 per cent. The indicator and the target have been corrected to reflect this, as published in the tabled 2014/15 annual performance plan of the department. The sanitation services function was shifted to the Department of Water and Sanitation from the Department of Human Settlements during the course of the year and the targets have subsequently been revised.

Mid-year progress

The department had planned to complete 3 reconciliation strategies: Luvuvhu-Letaba, Orange-Senqu River Basin Commission and Richards Bay. As delays were experienced in initiating the Richards Bay reconciliation strategy, only the Luvuvhu-Letaba and Orange-Senqu River Basin Commission will be completed in 2014/15. The Richards Bay strategy will be completed in 2015/16.

The total number of wastewater treatment collector systems assessed for compliance with effluent standards was lower than anticipated, due to limited participation by private institutions.

Through the municipal water infrastructure grant, up to 591 405 additional people were provided with interim / intermediate access to water within the 24 priority district municipalities.

526 resource poor farmers were assisted with various support packages in a number of provinces. 48 beneficiaries in North West were allocated with water, while 54 beneficiaries were provided with water pumps in Mpumalanga. In the Western Cape; 114 beneficiaries were provided with subsidies on water use charges, while in KwaZulu-Natal 306 beneficiaries were supported with bulk water infrastructure and subsidies on water use charges. 474 rainwater harvesting tanks were installed in Mpumalanga, Limpopo, Eastern Cape, Northern Cape, KwaZulu-Natal and in Western Cape. The rainwater harvesting tanks play a functional role of providing access to water and supporting food production, thus alleviating malnourishment within the respective households.

33 municipalities were supported in implementing water conservation and demand management. The success in the implementation of the water conservation programme is due to the department's effective demand management.

Regarding the construction of the Greater Letaba river water resources project, the design and drawings working document and the application for the emergency environmental management plan are being developed. In addition, the acquisition of land and the procurement of mechanical material are also in progress. Work is under way to finalise the establishment of the Sao-Tome and Principe strategic partnership following the feasibility study conducted in July 2014. The draft areas of cooperation to establish the Burundi strategic partnership will be finalised by the end of 2014/15.

Expenditure trends for the first half of 2014/15

Total expenditure in 2013/14 was 98.6 per cent of the 2013/14 adjusted appropriation. Expenditure in the first six months of 2014/15 was R3.566 billion, or 26.1 per cent of the adjusted appropriation of R13.647 billion for the year. In comparison, mid-year expenditure in 2013/14 was R3.851 billion, or 36.1 per cent of the 2013/14 adjusted appropriation. Compared to the first six months of 2013/14, expenditure over the same period in 2014/15 decreased by R284.916 million, or 7.4 per cent. This was mainly due to delays in the implementation of the new organisational structure, which further delayed the processing of payments and the filling of vacant positions within the department across all programmes.

Revenue trends for the first half of 2014/15

Revenue in the first six months of 2014/15 was R39.608 million, or 69.5 per cent of the adjusted revenue estimate of R57.020 million for the year. In comparison, mid-year revenue in 2013/14 was R10.325 million, or 41.8 per cent of the 2013/14 adjusted estimate. Compared to the first six months of 2013/14, revenue over the same period in 2014/15 increased by R29.283 million, or 283.6 per cent. This was mainly due to the department having accrued R29.343 million of revenue from 2013/14. The R29.343 million in revenue from 2013/14 relates to recoverable debt and receivables interest that the department had not anticipated when budgeting for the revenue estimates of R24.678 million for 2014/15.
