1. The indicator has been discontinued, and department will now publish a report on outcomes data and reporting quality annually.

2. Mid-year data is not available, as the national income dynamics survey is a longitudinal study conducted every 2 years.

Mid-year progress

The department is on track to meet most of its targets.

Of the 8 planned evaluation reports, 7 evaluation reports were approved in the first and second quarter of 2015/16. The annual target of 8 evaluations is expected to be exceeded, as evaluations from 2014/15 are being carried over.

In the first six months of 2015/16, the department conducted 74 new site visits and revisited 12 sites for improvement monitoring as part of the service delivery monitoring initiative, and plans to visit 16 new sites and revisit 108 sites in the third and fourth quarter of 2015/16.

Research projects relating to national planning are still in progress, and it is expected that the set target will not be met due to changes in the counting methods of the research.

Total expenditure in 2014/15 was 96.6 per cent of the 2014/15 adjusted appropriation. Expenditure in the first six months of 2015/16 was R352.6 million, or 46.8 per cent of the adjusted appropriation of R754.2 million for the year. In comparison, mid-year expenditure in 2014/15 was R363.4 million, or 49.5 per cent of the 2014/15 adjusted appropriation. Compared to the first six months of 2014/15, expenditure over the same period in 2015/16 decreased by R10.8 million, or 3 per cent. This was mainly due to expenditure on the national income dynamics study being lower in the current financial year.

Compared to the first six months of 2014/15, revenue over the same period in 2015/16 increased by R149 000, or 372.5 per cent. This was mainly due to the recovery of the costs from a prior year for a conference that had been cancelled.
