Mid-year progress

The department is on track with the number of sport and recreation promotional campaigns implemented. This is because some supported events are projected to gain momentum in the third quarter, in line with department plans. Although only 746 people have participated in mass participation events, it is envisaged that the annual target will be met, as most of the events are scheduled for the latter part of the financial year. In addition, the national school sport championships will take place in December 2015 and preparations to host this event are proceeding as planned.

Only 5 sport federations out of a targeted 60 have provided audited financial statements and business plans outlining how allocated funds will be used. The main cause of the delay is the misaligned financial year-end of sport and recreation bodies to that of the department, but it is anticipated that the target will be met by the

fourth quarter. Improved compliance will smooth out allocations and the transferring of funds to the federations, consequently improving the support to world class athletes younger than 18 whose activities are linked to those of sport and recreation bodies. A reduction in funding from the National Lotteries Board to the national school sport championships will result in the department being unable to fully meet the target set for the financial year.

The target for the number of schools, hubs and clubs provided with equipment and attire as per established norms and standards per year is also unlikely to be met as the department is supporting more sport codes within a constrained financial environment.
