### Vote purpose

Promote and regulate the minerals and mining sector for transformation, growth and development. Ensure that all South Africans derive sustainable benefits from the country's mineral wealth.

### Mid-year performance status

Indicator	Programme	Outcome	Annual performance		
			Projected for 2017/18 as published in the 2017 ENE	Achieved in the first six months of 2017/18 (April to September)	Changed target for 2017/18

Number of investment promotion events/forums/workshops per year	Mineral Policy and Promotion	Outcome 4: Decent employment through inclusive growth	55	18	–

1. Indicator changed to align with indicator published in the department's 2017/18 annual performance plan, which was finalised after the 2017 ENE had been published.

### Mid-year progress

The department conducted 147 social and labour plan verification inspections, 799 environmental verification inspections, and 271 mine economics verification audits during the first half of the year. These achievements are due to the department receiving a higher than anticipated number of applications for mining licence renewals and mine closure certificates in the first six months of 2017/18. These applications required inspections, audits and verifications to be conducted before they were approved to ensure compliance with environmental regulations. 3 industry workshops were conducted in the first six months of the year against a target of 9. The department plans to conduct 6 workshops in the second half of the year to meet its target.

Only 1 publication out of a targeted 12 for the year was published in the first six months of 2017/18. This is due to delays in finalising production because of a shortage of staff. It is expected that the target will be met by the end of the year as the department will collaborate with state-owned entities to produce these publications in the third quarter.

The Mineral and Petroleum Resources Development Amendment Bill is still in Parliament, and the African Exploration Mining and Finance Corporation Bill is still with Cabinet. Due to these delays, it is unlikely that the department will meet its target of reviewing and amending 5 legislative instruments by the end of the financial year.

The department rehabilitated 6 derelict and ownerless mines in the first six months of the year against an annual target of 45. It is in the process of revising the planned list of mines for rehabilitation as most sites are on private land.

18 investment promotion events, forums or workshops were hosted in the first six months of the year against an annual target of 55. The delay in hosting these events is due to key stakeholders in the mining sector being unavailable. The department plans to secure the availability of these stakeholders for these events, forums and workshops in the second half of the year.

## Expenditure trends for the first six months of 2017/18

Total expenditure in 2016/17 was R1.7 billion, or 99.5 per cent of the 2016/17 adjusted appropriation. Expenditure in the first six months of 2017/18 was R948.2 million, or 53.3 per cent of the adjusted appropriation of R1.8 billion for the year. In comparison, mid-year expenditure in 2016/17 was R917.8 million, or 55 per cent of the 2016/17 adjusted appropriation. Compared to the first six months of 2016/17, expenditure over the same period in 2017/18 increased by R30.4 million, or 3.3 per cent. This is mainly due to expenditure on office accommodation that was not adequately budgeted for.

### Revenue trends for the first six months of 2017/18

Revenue in the first six months of 2017/18 was R19.7 million, or 49 per cent of the adjusted revenue estimate of R40.3 million for the year. In comparison, mid-year revenue in 2016/17 was R18.9 million, or 62.5 per cent of the 2016/17 adjusted estimate. Compared to the first six months of 2016/17, revenue over the same period in 2017/18 increased by R881 000, or 4.7 per cent. This is mainly due to an increase in payments that were due in previous financial years for prospecting fees and permits for mining rights.
