### Mid-year progress

The department's target for the number of designation requests submitted for ministerial approval has already been exceeded as certain designations were rolled over from 2016/17 and finalised in the first six months of 2017/18.

In the first six months of 2017/18, the department leveraged R13.2 billion from private sector investment, exceeding the mid-year target of R6 billion. This is due to the high number of investment approvals granted for projects supported by manufacturing incentive programmes such as the automotive incentive scheme, the black industrialists programme, the critical infrastructure programme and the business processing incentive.

The department has already exceeded its annual target by 3 421 for new jobs supported from approved enterprises. This is mainly due to investments that were attracted through the automotive incentive scheme, the business processing incentive and the critical infrastructure programme, and finalised sooner than anticipated.
