### Vote purpose

Lead and facilitate access to sustainable economic activity and employment for all South Africans through an understanding of the economy, knowledge of economic opportunities and potential, and anticipation of future economic trends. Catalyse economic transformation and development, and provide a predictable, competitive, equitable and socially responsible environment for investment, enterprise and trade for economic citizens. Contribute to achieving government's vision of an adaptive and restructured economy, characterised by accelerated economic growth, employment creation and greater equity.

### 2019 national macro organisation of government

The Department of Trade and Industry will merge with the Department of Economic Development by 1 April 2020. The two departments are working together to implement action plans for different workstreams to develop organisational and programme structures for the new Department of Trade, Industry and Competition.

### Mid-year performance

Indicator	Programme	MTSF outcome	Annual performance		
			Projected for 2019/20 as published in the 2019 ENE	Achieved in the first half of 2019/20 (April to September)	Changed target for 2019/20
Number of quarterly reports on industrial policy action plan prepared for the minister's review meetings per year	Industrial Development	Outcome 4: Decent employment through inclusive growth	4	0	–
Number of designation requests submitted for the minister's approval per year	Industrial Development		2	2	–
Value of projected investment to be leveraged from approved projects per year	Incentive Development and Administration		R25bn	R28.6bn	–
Number of new jobs supported from approved enterprises per year	Incentive Development and Administration		8 000	16 381	–
Number of jobs retained from approved enterprises per year	Incentive Development and Administration		10 000	21 249	–
Number of enterprises/projects approved for financial support across all incentives per year	Incentive Development and Administration		900	320	–

## Mid-year progress

During the first half of 2019/20, no quarterly reports on the industrial policy action plan were submitted against an annual target of 4. This was due to the indicator no longer being applicable as government's new approach to industrial strategy is still under development. Over the same period, the department leveraged R28.6 billion worth of private sector investment on approved projects, exceeding the annual target of R25 billion. As a result, the number of new jobs supported and retained from approved projects also exceeded their respective annual targets. This was due to higher than expected investment approvals for projects in the automotive incentive scheme, the manufacturing incentive programme, the global business services incentive and the critical infrastructure programme. The mid-year performance of 320 enterprises/projects approved for financial support across all incentives is in line with projections.

## Declared unspent funds – R50 million

Programme 6: Incentive Development and Administration

R50 million in unspent funds has been declared on the manufacturing development incentive due to slow spending, which resulted from applications not meeting the programme's mandatory requirements.

## Other adjustments – R75.7 million

### Self-financing expenditure

Programme 1: Administration

Revenue of R75.7 million has been generated from the department's public entities, the Department of Economic Development and the Department of Small Business Development. This will be returned to the vote from the National Revenue Fund and will be used to supplement payments for the public-private partnership contract for the department's campus, on which the entities are based.

### Expenditure trends for the first half of 2019/20

Total expenditure in 2018/19 was R9.5 billion, 99.6 per cent of the 2018/19 adjusted appropriation. Mid-year expenditure in 2018/19 was R3.4 billion, 35.8 per cent of the 2018/19 adjusted appropriation, whereas expenditure in the first half of 2019/20 was R4.4 billion, 43.2 per cent of the adjusted appropriation of R10.1 billion for the year. Compared to the first half of 2018/19, expenditure over the same period in 2019/20 increased by R943.3 million, 27.6 per cent. This was mainly due to the increase in transfer payments to public corporations and private enterprises, and departmental agencies and accounts.
