The Estimates of National Expenditure e-publications for individual votes are available at www.treasury.gov.za. These publications provide more comprehensive coverage of vote-specific information, particularly about transfers and subsidies, personnel and other public institutions. Additional tables in Excel format can be found at www.treasury.gov.za and www.vulekamali.gov.za.

Vote purpose

Play a significant role in reducing unemployment, poverty and inequality by pursuing the objectives of decent work for all through: employment creation and enterprise development; the setting of standards and the protection of rights at work, including the facilitation of equal opportunities and social dialogue; and the provision of social protection.

Mandate

The Department of Employment and Labour derives its legislative mandate from the Constitution, particularly the Bill of Rights, which is given effect through a number of acts that regulate labour matters in South Africa. The most important of these are the Labour Relations Act (1995), the Basic Conditions of Employment Act (1997), the Employment Equity Act (1998), the Occupational Health and Safety Act (1993), and the Employment Services Act (2014).

The mandate of the department is to regulate the labour market through policies and programmes developed in consultation with social partners. These aim to:

- improve economic efficiency and productivity
- facilitate the creation of decent employment
- promote labour standards and fundamental rights at work
- provide adequate social safety nets to protect vulnerable workers
- promote and enforce sound labour relations
- promote equity in the workplace
- eliminate inequality and unfair discrimination in the workplace
- enhance occupational health and safety awareness and compliance in the workplace
- give value to social dialogue in the formulation of sound and responsive legislation and policies to attain labour market flexibility for the competitiveness of enterprises, balanced with the promotion of decent employment.

Expenditure analysis

By facilitating the resolution of workplace disputes, improving labour relations, enhancing occupational health and safety, and facilitating job creation, the Department of Employment and Labour supports the realisation of the National Development Plan's vision of eliminating poverty and reducing inequality. In giving effect to this vision, priority 1 (economic transformation and job creation) of government's 2019-2024 medium-term strategic framework provides the overall strategic direction for the department's work. Over the medium term, the department will focus on providing support to work seekers, increasing safety and fairness in the workplace, and regulating the workplace to establish minimum working conditions and fair labour practices.

Cabinet has approved reductions of R114.7 million over the MTEF period across all programmes on goods and services (R44.7 million), compensation of employees (R18.6 million), payments for capital assets (R3.9 million) and transfers to departmental entities (R47.4 million). The reduction in the allocation for compensation of employees is expected to result in a decrease in the number of personnel from 3 510 in 2019/20 to 3 404 in 2022/23. These reductions will be effected on vacant posts. To accommodate the reduction in the allocation for goods and services, the department will conduct fewer external staff training exercises and communications strategies, and lease less office equipment.

Supporting work seekers

The Department of Employment and Labour was created through the 2018 national macro reorganisation of government in recognition of the need to respond to increasing levels of unemployment, inequality and poverty in South Africa. The country's unemployment rate is among the highest in the world: in June 2019, according to the official definition, it reached 29 per cent; according to the expanded definition, 38.5 per cent. Young people aged between 15 and 35 are the most affected group, with an unemployment rate of 41 per cent according to the official definition and 52 per cent according to the expanded definition. More than half of unemployed youth find it difficult to access opportunities in the labour market because of their low levels of education and skills, lack of experience, and other social and economic factors.

In response to some of these challenges, the 2018 presidential jobs summit delivered a framework agreement consisting of high-impact actions aimed at driving job creation, job retention and economic growth. This agreement is an enabler for the creation of an estimated 275 000 jobs per year over the medium term. Cabinet has approved budget increases of R16 million over the MTEF period for transfers to the National Economic

Development and Labour Council to fund the establishment of the presidential jobs summit secretariat, which will support the effective implementation, monitoring and evaluation of the agreement.

To leverage this momentum, the department plans to develop an employment policy, in line with International Labour Organisation guidelines, to coordinate all employment initiatives. This will be funded from the existing budget allocations of the *Work Seeker Services* and *Employer Services* subprogrammes. In addition, an employment schemes framework will be developed to facilitate the provision of short-term employment in response to the oversupply of labour and the lack of available opportunities for adequate employment. This framework, set to be implemented within the MTEF period, aims to provide short-term employment, especially for young people, to stimulate the economy through multiple strategies that will allow participants to generate their own income.

The establishment of 4 youth employment centres within existing labour centres over the MTEF period will create an enabling environment for the accelerated employment of young work seekers. These centres will be equipped with free internet, CV drafting facilities, and self-help and assessment facilities, and will provide a mobile platform through which registered work seekers can be dynamically matched to available job opportunities registered on the Employment Services of South Africa database. Through the platform, work seekers will be profiled so that those who require less intervention and job preparation can be fast-tracked to job opportunities, thereby availing career counsellors to focus on work seekers who require more assistance and enhancing their prospects of securing employment. It is estimated that each youth employment centre will cost R3 million to set up. This expenditure is in the *Work Seeker Services* subprogramme in the *Public Employment Services* programme.

The number of work seekers registered on the Employment Services of South Africa database is set to increase from 700 000 in 2019/20 to 800 000 per year from 2021/22 due to a planned increase in advocacy campaigns and the number of employment counsellors employed. Employment counselling will be provided to an estimated 690 000 registered work seekers over the medium term at a projected cost of R45 million in the *Work Seeker Services* subprogramme.

Through these advocacy campaigns targeted at potential employers, the department also hopes to increase the number of work seekers placed in registered employment opportunities and reduce the time it takes to facilitate placement. To streamline the placement process, the employment services system will be integrated with the systems of the Unemployment Insurance Fund and the Compensation Fund, as well as the national learners record database. The department will also play a more active role in facilitating job creation by establishing partnerships with stakeholders such as the Department of Higher Education and Training, the Department of Public Works and Infrastructure, the National Youth Development Agency, municipalities and the private sector. To ensure stakeholders remain able to provide employment to work seekers, the department will work closely with Productivity South Africa in implementing the training layoff scheme, the workplace challenge, business recovery and turnaround solutions, and job-saving programmes. As a result of these efforts, the number of registered employment opportunities filled by registered work seekers is expected to increase from 90 000 in 2019/20 to 105 000 in 2022/23 at an estimated cost of R140.4 million over the medium term in the *Work Seeker Services* subprogramme.

Increasing safety and fairness in the workplace

The department aims to ensure that employers adhere to employment equity plans and decent workplace principles, and that vulnerable workers are protected. Key to achieving this is the inspection of workplaces for compliance with employment law. In its efforts to create healthy and safe workplaces and respond to persistent non-compliance by employers, the department has amended the Occupational Health and Safety Act (1993) to introduce compulsory provisions such as permitting inspectors to administer fines, permitting health and safety representatives in the service of employers to check for compliance through routine inspections, and allowing employees to leave the workplace if conditions are unhealthy or unsafe. The amended act is targeted for implementation in 2020/21.

To provide improved services to employees and employers, and ensure that the most vulnerable employees are

protected, the department will collaborate with the Compensation Fund to increase the number of compliance inspections conducted from 218 732 in 2019/20 to a targeted 220 692 in 2022/23. For the inspection and enforcement of employment law, R1.7 billion is allocated over the medium term in the *Compliance, Monitoring and Enforcement Services* subprogramme in the *Inspection and Enforcement Services* programme.

Regulating the workplace to establish minimum working conditions and fair labour practices

To accelerate the attainment of the National Development Plan's vision of reducing unemployment, poverty and inequality, the department, with social partners at the National Economic Development and Labour Council, will continue to set standards, institute minimum wages for vulnerable workers, and monitor compliance with the Employment Equity Act (1998). The National Minimum Wage Commission and secretariat established in 2019 will be responsible for reviewing, adjusting and monitoring the social and economic impact of the national minimum wage, which is set at R20 per hour. The commission is funded as part of the budget allocation of R100 million over the medium term in the *Employment Standards* subprogramme in the *Labour Policy and Industrial Relations* programme.

To assess the impact of policies and programmes aimed at increasing the protection of vulnerable workers, research will be conducted on the national minimum wage, employment policy, migration policy, transformation in the labour market, and occupational safety. For this purpose, R5 million has been budgeted for in 2020/21 in the Research, Policy and Planning subprogramme in the Labour Policy and Industrial Relations programme.

Programme 2: Inspection and Enforcement Services

Programme purpose

Realise decent work by regulating non-employment and employment conditions through inspection and enforcement to achieve compliance with all labour market policies.

Objectives

- Protect vulnerable workers through the inspection and enforcement of labour legislation by ensuring that decent work principles are adhered to by the end of March 2020/21, by:
 - conducting 220 692 compliance inspections
 - serving 85 per cent of non-compliant employers inspected with a notice in terms of relevant employment law within 14 calendar days of inspection
 - referring 60 per cent of employers who fail to comply with a served notice to prosecution within 30 calendar days.
- Increase awareness of employment law by conducting formal advocacy sessions at 2 conferences and

4 seminars each year over the medium term.

Subprogrammes

- Management and Support Services: Inspection and Enforcement Services manages the delegated administrative and financial responsibilities of the office of the deputy director-general, and provides corporate support to line function subprogrammes within the programme.
- Occupational Health and Safety promotes health and safety in the workplace by conducting inspections on compliance with the Occupational Health and Safety Act (1993), and regulating dangerous activities and the use of plant and machinery.
- Registration: Inspection and Enforcement Services registers incidents relating to labour relations and occupational health and safety, as reported by members of the public, and communicates these to relevant structures within the Compliance, Monitoring and Enforcement Services subprogramme for investigation.
- Compliance, Monitoring and Enforcement Services ensures that employers and employees comply with labour legislation by conducting regular inspections and following up on reported incidents.
- Training of Staff: Inspection and Enforcement Services defrays all expenditure relating to staff training within this programme.
- Statutory and Advocacy Services gives effect to legislative enforcement requirements and educates stakeholders on labour legislation.

Programme 3: Public Employment Services

Programme purpose

Assist companies and workers to adjust to changing labour market conditions.

Objectives

- Provide public employment services by March 2021 by:
 - registering 750 000 work seekers on the Employment Services of South Africa database
 - providing employment counselling to 220 000 work seekers
 - filling 47 500 registered employment opportunities
 - registering 95 000 work opportunities on the Employment Services of South Africa database.
- Contribute to increasing employment opportunities for people with disabilities by providing quarterly funding over the medium term, and monitoring disability organisations on an ongoing basis.

Subprogrammes

- Management and Support Services: Public Employment Services manages delegated administrative and financial responsibilities; coordinates all planning, monitoring and evaluation functions; and provides corporate support to line function subprogrammes.
- Employer Services registers work opportunities, facilitates the employment of foreign nationals where such skills do not exist in South Africa, oversees placement, responds to companies in distress, provides a social plan and regulates private employment agencies.
- Work Seeker Services registers work seekers, retrenched workers, and work, learning, training and incomegenerating opportunities on the Employment Services of South Africa database; and facilitates access to employment and income-generating opportunities for the unemployed and underemployed.
- Designated Groups Special Services facilitates the transfer of subsidies to national councils and workshops for the blind to promote the employment of people with disabilities.
- Supported Employment Enterprises promotes work and employment opportunities for people with disabilities by improving the administration, production and financial management of supported employment enterprises.
- *Productivity South Africa* transfers funds to Productivity South Africa, which promotes workplace productivity, competitiveness and social plan interventions.
- *Unemployment Insurance Fund* provides for the possible future funding of the Unemployment Insurance Fund.
- Compensation Fund provides for costs incurred through claims from civil servants for injuries sustained on duty or occupation-related illnesses and diseases, and provides for the funding of claims from the Compensation Fund.
- Training of Staff: Public Employment Services defrays all expenditure relating to staff training in the programme to easily identify this expenditure for reporting purposes.

Programme 4: Labour Policy and Industrial Relations

Programme purpose

Facilitate the establishment of an equitable and sound labour relations environment. Support institutions of

social dialogue and promote South Africa's interests in international labour matters. Conduct research and analysis, and evaluate labour policy. Provide statistical data on the labour market.

Objectives

- Improve employment equity implementation and compliance monitoring mechanisms in the labour market by:
 - publicising the 2019/20 employment equity annual report and public register by 30 June 2020
 - developing the 2020/21 employment equity annual report and public register by 31 March 2021.
- Extend protection to vulnerable workers by publishing a national minimum wage for all sectors by 31 March 2021.
- Promote sound labour relations and centralised collective bargaining through the extension of collective agreements and the registration of all qualifying labour and employer organisations by 31 March 2021.
- Monitor and evaluate the impact of labour legislation to promote an evidence-based labour policy framework through the production of research and labour market trend reports by 31 March 2021.

Subprogrammes

- Management and Support Services: Labour Policy and Industrial Relations manages delegated administrative
 and financial responsibilities; coordinates all planning, monitoring and evaluation functions; and provides
 corporate support to line function subprogrammes.
- Strengthen Civil Society transfers funds to various civil society organisations that protect vulnerable workers by providing resources, support and expertise to improve the independence and self-reliance of workers in order to contribute to a stable and well-functioning labour market.
- Collective Bargaining manages the implementation of the Labour Relations Act (1995) through policies and
 practices that promote sound labour relations by registering labour organisations and deregistering those
 that are non-compliant, publishing and extending collective agreements, supporting and advancing
 participation in collective bargaining structures, and participating in relevant National Economic
 Development and Labour Council activities.
- Employment Equity promotes equity in the labour market through the elimination of unfair discrimination and the promotion of equitable representation in the workplace.
- Employment Standards protects vulnerable workers in the labour market by administering the Basic Conditions of Employment Act (1997).
- Commission for Conciliation, Mediation and Arbitration transfers funds to the Commission for Conciliation, Mediation and Arbitration, which promotes social justice and fairness in the workplace through dispute prevention and resolution services.
- Research, Policy and Planning monitors and evaluates the impact of labour legislation and policies that affect the South African labour market.
- Labour Market Information and Statistics collects, collates, analyses and disseminates internal and external labour market statistics on changes in the South African labour market as a result of the implementation of labour legislation.
- International Labour Matters contributes to national and global policy formulation and facilitates compliance with international obligations through multilateral and bilateral relations.
- National Economic Development and Labour Council transfers funds to the National Economic Development and Labour Council, which promotes economic growth, participation in economic decision-making and social equity through dialogue.

Entity overview

The Compensation Fund is mandated to administer the Compensation for Occupational Injuries and Diseases Act (1993), which makes provision for the compensation of employees who are disabled as a result of occupational injuries or sustain or contract diseases, or the compensation of the nominated beneficiaries of employees who die from such injuries or diseases.

The fund's main focus over the medium term will be on restoring its reputation as a trusted provider of social services to workers. It plans to do this by improving access to social insurance for workers; providing an efficient and effective safety net that strengthens social protection, particularly for vulnerable workers, by rehabilitating, reintegrating and returning to work employees who have been injured or have contracted work-related diseases; and enhancing its capacity to deliver services by improving performance, administration and operational efficiency.

In line with the fund's increased focus on improving operational efficiency, expenditure on claims and pension benefits is expected to increase from R946.3 million in 2019/20 to R1.3 billion in 2022/23 at an average annual rate of 10 per cent. Total expenditure on benefits is expected to increase at an average annual rate of

7.2 per cent, from R3.8 billion in 2019/20 to R4.7 billion in 2022/23. Included in this amount is expenditure for 4 200 university bursaries and 800 bursaries to technical and vocational education and training colleges to upskill unemployed workers who have suffered occupational injuries.

The cost of administering the fund, paying compensation benefits and medical expenses, and rehabilitating and reintegrating injured and diseased workers is funded through levies paid by registered employers and revenue earned from investments. The fund's total revenue in 2019/20 is expected to be R13.2 billion, increasing at an average annual rate of 5.4 per cent to a projected R15.4 billion in 2022/23.

Entity overview

The mandate of the Unemployment Insurance Fund is to alleviate poverty by providing effective short-term unemployment insurance to all workers who qualify for unemployment and related benefits, as legislated in the Unemployment Insurance Act (2001). Over the medium term, the fund will focus on providing social insurance benefits and improving coverage to vulnerable groups and contributors.

The fund will review all claims affected by the changes created by the retrospective implementation date of the Unemployment Insurance Amendment Act (2016). Applications from an estimated 1.7 million claimants lodged between 19 January 2017 and 31 December 2018 that were assessed and paid at a lower rate based on the old act need to be reassessed and paid based on the amended act. The fund plans to finalise the reassessment and payment of these retrospective claims by 2020/21. As a result, expenditure on the payment of claims is expected to be R30.6 billion in 2020/21, R24.9 billion in 2021/22 and R27.4 billion in 2022/23.

To ensure the retention and smooth re-entry of contributors into employment, the fund has budgeted an estimated R7.5 billion over the medium term for the implementation of labour activation programmes such as training and business development aimed at enhancing the employability of contributors.

To reduce the time spent by clients in labour centres, the fund has set aside R6.7 million per year over the medium term for the maintenance of the queue management system. A self-service application that can be used on smartphones and unstructured supplementary service data will be implemented in 2020/21 at a projected cost of R2.3 million in an effort to enable clients to use the fund's services without having to visit its offices. A further R10 million has been allocated in 2020/21 for the digitalisation of documents, and R85 million for the implementation of systems applications and products in data processing.

An estimated 20 per cent of the fund's investment portfolio (R33 billion) has been set aside for socially responsible investment in employment creation initiatives in agriculture, education, renewable energy, financial services, health, housing, agro-processing, mining and beneficiation, construction, petroleum, student accommodation, road infrastructure and technology. The Public Investment Corporation manages this investment on behalf of the fund.

The fund is financed through contributions from employees and employers, as legislated in the Unemployment Contributions Act (2002), and through interest earned on investments. Over the medium term, the fund expects to receive an estimated 63.5 per cent (R66.8 billion) of its total revenue through unemployment contributions. Income earned through returns on investments is expected to increase from R11 billion in 2019/20 to R13.9 billion in 2022/23.
