### 1 Overview

#### Vision

A Safe, secure, crime and road accident free Mpumalanga Province

#### Mission Statement

To improve community and road traffic safety through mass mobilization, oversee the performance of the police and provision of security services.

#### Strategic Objectives

The strategic goals and objectives of the department are derived from the mandates outlined in the constitution. These strategic goals and objectives are critical towards the achievement of the mission statement stated above and finally the vision. The annual performance plan covers very comprehensive and detailed the strategic goals and objectives.

The Department in its effort to fight crime in the Province and improve road safety will continue to be driven by the following strategic goals:

- Effective investment in resources and systems for the delivery of quality services.
- Improved quality of life through eradication of crime.
- Civilian Oversight over the South African Police Service
- Effective road traffic safety in province

The following strategic objectives will therefore continue to drive and coordinate the implementation departmental programmes:

- To provide corporate support services to the department
- To coordinate and facilitate programmes aimed at reducing contact crime and establish and support institutional structures for community governance and participation
- To promote service excellence through monitoring and evaluation of SAPS performance and develop policy interventions through research on policing matters.
- To provide transport regulation and road safety in the province
- To coordinate security services in the Province

## **Core functions and responsibilities**

The Constitution of the Republic of South Africa Act, 1996 Chapter 11 of the Constitution of the Republic of South Africa, 1996 defines the role of Provincial Government in policing as follows:

Section 206(2) provides that the national policing policy may make provision for different policies in respect of different Provinces after taking into account the policing needs and priorities of these Provinces.

Section 206(3) determines that each Province is entitled to:

- (a) Monitor police conduct;
- (b) Oversee the effectiveness and efficiency of the police service including receiving reports on the police service;
- (c) Promote good relations between the police and the community;
- (d) Assess the effectiveness of visible policing; and
- (e) Liaise with the Cabinet member responsible for policing with respect to crime and policing in the Province.

Section 206(4) further states that a provincial executive is responsible for policing functions vested in it by this chapter, assigned to it in terms of national legislation and allocated to it in the national policing policy.

The Premier of the Mpumalanga Province has in his capacity as the Premier of the Province of Mpumalanga, in terms of section 132(2) read with section 137 of the Constitution, 1996, read further with section 3A (b) of the Public Service Act, 1994, and read further with Treasury Regulation 6.5 of the Treasury Regulations, 2005, transferred from 1 June 2011 the Traffic Management function from the Department of Public Works, Roads and Transport to the Department of Safety, Security and Liaison;

The Member of the Executive Council for Safety, Security and Liaison will with effect from 1 June 2011 be responsible for the following functions set out in Schedules 4 and 5 of the Constitution-

- (a) Police to the extent that the provisions of Chapter 11 of the Constitution confer upon the Provincial Legislature legislative competence;
- (b) Road traffic regulation;
- (c) Provincial traffic; and
- (d) The monitoring and support of Local Government and the regulation of the exercise of executive authority by Municipalities, in respect of traffic and parking.

## **Overview of the main services that the department intends to deliver**

- The department will audit 56 police stations' compliance to the implementation of the Domestic Violence Act to support victims of domestic violence
- Hold a peace and security indaba to deal with crime issues affecting the province and come with an integrated plan to address the scourge of crime

- Extend the contract of 546 Tourism Safety Monitor (TSM)
- Finalise the construction of the Mpumalanga Traffic college and ensure that it is ready for the 1<sup>st</sup> intake in the fourth quarter of 2016/17

### **Legislative mandates**

- The Constitution of the Republic of South Africa Act, 1996
- South Africa Policies Service Act No.68 of 1995
- White paper on Safety & Security, 1998
- The National Crime Prevention Strategy (NCPS) (1996)

- National Traffic Act, No 51 of 1977
- Traffic Control Management Corporation Act, No 20 of 1999
- Preferential Procurement Policy Framework Act, 2001

### **1.1 Aligning departmental budgets to achieve government's prescribed outcomes**

The Department is directly responsible to lead Outcome 3 of the 12 Outcomes which says "All people in South Africa are and feel safe". The Department will continue to monitor the implementation of the Delivery Agreement which is in line with Outcome 3. As part of cooperative governance the Department will further contribute to other outcomes which are led by different departments by implementing programmes that are in line with those outcomes. The outcomes are as follows:

- Outcome 1: Improve the quality of teaching and learning
  - The Department will implement School Safety programmes at a cost R850 thousand
- Outcome 4: Decent employment through inclusive growth
  - The Department will recruit and deploy 546 Tourism Safety Monitors at a cost of R14 million who are deployed in tourist attraction points of the Province. This outcome is linked to the Mpumalanga New Growth Path which also pays attention to job creation to enhance economic development.
- Outcome 7: Vibrant, equitable and sustainable rural communities and food security for all
  - The Department will implement Rural Safety initiatives at a costs of R488 thousand
- Outcome 9: A responsive, accountable, effective and efficient local government system

- The Department will ensure the functionality of Community Safety Forums at a cost of R785 thousands in all municipalities and monitor the implementation of the developed Municipal Safety Plans.
- Outcome 12: An efficient, effective and development oriented public service and empowered, fair and inclusive citizenship
  - The Department has planned to strengthen its financial and human resources capacity for effective service delivery

## **2 Review of the current financial year (2015/16)**

The Department has been actively engaged in a process of supporting the Community Policing Forums (CPF's) in the Province to be able to execute their mandate. This has been done by financing CPF projects, reviving and restructuring of Community Police Forums (CPF's) to be more effective. This is in recognition of the fact that the police service and government agencies cannot fight crime alone, and that it requires the involvement and active participation of all communities and all sections of society to meet this challenge. This involves extensive consultations supported by co-operative agreements between departments and other institutions to ensure that the mandates of the Department are implemented.

The Department will enhance its partnerships with municipalities to come up with a multi-disciplinary approach to fighting crime at local level through Community Safety Forums which will develop local integrated safety plans. The alignment of Municipal Safety Plans into Integrated Development Plans of local government is the key instrument through which the Department will ensure that development at local level embodies safety and security principles.

The Department is also faced with a challenge to monitor SAPS activities and identify areas of improvement and shortcomings with them for improved services. The Department has been focusing on monitoring and evaluation of police stations on effectiveness and efficiency of police. The police stations that excel in their performance are acknowledged in the MEC Excellency Awards ceremony which is held on annual basis. It is however the aim of the Department to broaden the scope of civilian oversight and start focusing to the entire South African Police service instead of police stations only.

The transport regulation programme is faced with a huge challenge to reduce road carnages and number of fatalities on the roads. The Department will continue to strengthen the implementation of road safety initiatives and traffic law enforcement programmes in collaboration with other law enforcement agencies to arrest this challenge. The Department will also strengthen the monitoring of compliance of registering authorities to reduce corruption to ensure road worthy vehicles and competent drivers are in our roads.

The department spent R1.01 billion or 81 percent and project to spend R255 million from the period 01 February to 31 March 2016. Security management has over R23 million projected over-spending for the period under review. Compensation of employees had an actual expenditure of R330 million and projects to break-even at the end of the year.

Goods and service spent R504 million or 88 percent from R527 million budget allocation and projects to over-spend by R25 million or 4 percent. Expenditure in the line item is projected to spend within the allocated budget. The items for capital assets and transfers and subsidies spent R178 million and R2 million respectively. Expenditure on capital assets was mostly directed towards the construction of the traffic college.

### **3 Outlook for the coming financial year (2016/17)**

The department will focus on the implementation to the following Medium Term Strategic Priorities for 2015/16-2019/20.

#### **1. Intensify the fight against crime and corruption**

- Further success in the fight against crime rests upon overcoming critical weaknesses in the functioning of the criminal justice system including lack of integrated implementation, the shortage of critical skills and sub-optimal use of resources and community mobilisation in the fight against crime.
- Mobilisation of the population in the fight against crime and introduce changes to the Community Policing Forum (CPF) regime
- Acceleration of efforts to reduce serious and violent crimes by the set target of 2per cent per annum and intensify efforts of fighting crimes against women and children
- Support the establishment of a border management agency to manage migration, customs and land borderline control services and to efficiently coordinate the services of other departments in the ports of entry
- In partnership, urgently combat scourge of corruption in the public and private sectors and in society in general through advocacy, strengthening legal implementation.
- To improve the attitude and behaviours of road users to reduce the high levels of road carnage and intensify law enforcement working together with the various local municipalities and the various road safety councils.

The National Development Plan: Vision 2030 has identified crime as a barrier to social and economic development. The plan has a vision of a South Africa where people “feel safe at home, at school and at work, and they enjoy a community life free of fear”. The NDP further identifies the following interventions to fight crime:

- Building safety using an integrated approach
- Increasing community participation in safety
- Ensuring the safety of women, the girl-child, children and the youth

In his 2013 State of the Nation address, The Honourable President has indicated that departmental activities must be aligned to the NDP. The department will ensure that all the activities implemented are in line with the NDP and will also assist in the achievement of the Millennium Development Goals (MDGs)

The department will continue contributing to the realization of the MDGs by employing 546 Tourism Safety Monitors (TSMs) in a bid to eradicate extreme hunger and poverty within the unemployed youth. This will assist in achieving Target 1B: “Achieve full and productive employment and decent work for all, including women and young people”. The department is also making inroads towards ensuring greater women empowerment.

The province has been able to make a drastic performance in terms of fighting crime. Over the 2009-2014 MTSF period the province has moved from being number 9 to Number 3 in terms of contribution to crime statistics in the country. Despite this notable achievement there are still high incidences of shoplifting and commercial crime. The department is working with all the stakeholders will ensure that it reverse this tide by limiting its contributory factors.

Programme 2 maintains a steady but stable growth over the MTEF period reflecting the annual macro-economic adjustments. The budget for fleet management which used to be budgeted in programme 1 has been shifted to programme 3 to ensure effective management of the budget. This has resulted to a slightly reduction to the budget for Administration from the R133 million to R110 million.

## 4 Reprioritisation

The department is focusing in the main business of ensuring safety in our roads and communities. It partnered with various stakeholders in the past in delivering its core-business and it intend strengthened the partnership moving for forward. Over the past years, we have contracted with a number of security companies which had in-turn recruited a large number of security personnel to provide security services to government properties. A significant amount of R345 million is earmarked for this priority in the 2016/17 financial year. Contributing to employment statistics and crime reduction are some of the key national priorities. The department is also committed in the project of constructing a traffic college. A lot of money has been diverted from goods and services toward the building of the infrastructure which align correctly to the national priority for infrastructure investments. A provision of R147 million has been made in the budget for the project in the current financial year and funds will be made available over the MTEF period. The department has cut spending on non-core activities ever-since the challenges of the global economic meltdown infiltrate our domestic economy. The department also intends to install cameras in all towns in the province aimed at curbing crime related activities.

## 5 Procurement

The department will continue to implement the procurement plan for the financial year 2015/16 to ensure that the needs of the Department is in line with the pillars underpinning the department's strategy as well as with its allocated budget. The department has contracted service providers for the major core services and will continue to procure the following goods and services:

- Queuing system for the effective management of long queues and performance monitoring at the major registering and licensing offices in the province.
- Security management to ensure the provision of security services for the safety and security of all provincial government assets and buildings.
- Junior Traffic Training Centre (JTTC) is only an aid to achieve a goal, namely familiarise learners with concepts, giving an opportunity to acquire knowledge, practice motor skills in a safe simulated traffic situation by driving pedalled go carts and develop positive attitudes towards road safety. It is a structure representing a town provided it is built within the school premises or municipal area aiming at promoting road safety awareness to drivers and pedestrians in disadvantaged communities.
- Members of the public apply through the Department for personalised, special and specific number plates. Thus, a service provider needs to be accredited to issue these number plates, which bears the national coat of arm.
- In an effort to provide a hygiene working environment, the Department will advertise a bid for cleaning materials to ensure the supply of this commodity at competitive, contracted prices.
- Some offices need new furniture to replace aging and broken furniture, thus the Department will advertise a bid for the supply and installation of furniture.

Security services is one of the most expensive items, and the Department is coming up with strategies to counter the excessive spending in this item. The integration of security technology provides increased security benefits at a lower cost.

Filling of critical vacant posts will ensure that SCM functions are adequately fulfilled and that segregation of duties is monitored.

The department will also ensure that local suppliers are supported through these projects as part of the province's initiative to support small, medium and micro enterprises (SMMEs).

## 6 Receipts and financing

The budget of the department has grown from the base of R854 million in 2012/13 financial to R1.0 billion in 2015/16 financial year. Total receipts grow between 2012/13 financial years and 2013/14 whilst it has maintained a steady decline ever-since 2013/14 financial year. The global economic meltdown which has also affected the domestic economy is the main reason explaining the decline in the department receipts. These challenges of financial conditions will continue affecting the budget throughout the MTEF period. The department had over past years received its income from the equitable share, conditional grants and own revenue.

It is focused that the total budget for 2016/17 financial year will be at R1.1 billion. The department is current committed to a project of constructing a traffic college. The department prioritise the budget for construction of the traffic college and other special projects including security contracts and the installation town cameras.

The significant amount of the department budget is consumed in the provision of safety and security in our roads and communities. The programme for traffic regulations will continue to receive a larger share of the budget followed by security management. The department will continue to strengthening its traffic law enforcements on the roads through the provision of working materials, training traffic officers and optimizing working systems and processes. The focus in the MTEF period will also be directed towards monitoring and evaluation of police stations and strengthening of research and policy development. Continuous development of support staff will also receive priority throughout the MTEF period to align the department to current developments and changes.

## 6.2. Departmental receipts collection

Table 2.2 gives a summary of the receipts the department is responsible for collecting.

The department generate its major revenue mainly from two sources which is motor vehicle licences and fines, penalties and forfeits. The estimate growth of R21.6 million or 5per cent per cent in the revenue for motor vehicle licences is based on the estimated rates adjustments and growth in vehicle population registered in the province. Only 5per cent growth on fines, penalties and fortifies is expected for next financial year.

## 7 Payment summary

### 7.1. Key assumptions

The 2016 MTEF budget is crafted against a background of harsh financial realities in the country and province. The department has therefore in view of the conditions applied a system approach for budget allocations. The 2016 MTE is priority focused and core-business oriented. The following assumption has informed the formation of the budget;

- Strengthening security on our roads and communities to ensure safety has attracting a larger share of the 2016 budget.
- Provision of security to all state properties has also costed more resource from the budget.
- Staff development is also the focus in the budget for 2016/17 financial year.
- The department is also focusing on monitoring and evaluation of police stations in the province.
- The department also channel funds toward research and policy development to cope with the trends and developments in our operating environment.
- Constructions of the Traffic College and recruitment of safety monitors are also considered as key drivers for the budget.

## 7.2. Programme summary

The 2016/17 baseline has increased by over R29 million compared to the current main budget appropriation. This is as a result of the settlements of recurring commitments from previous years and adjustments in the new contract for security. These are the major factors that explain the decline in the 2016/17 budget baselines. Programme 1 and 2 maintain a steady but stable growth over the MTEF period reflecting the annual macro-economic adjustments.

The budget for compensation of employees increased from R385 million in 2015/16 to R422 million 2016/17. The item projects to maintain a stable growth over the two outer period of the 2016 MTEF. Expenditure in the items for the past 10 months remains stable and project to break-even at the end of the period. The budget for personnel in general is expected to maintain a low growth or even to decline given the moratorium imposed by the in recruitment.

Goods and services is expected to decline by over R21 million from the current budget allocation of R527 million to R520 million in 2016/17. This reflects the decline in the budget for security services due to changes in the terms of the new security contract and the settlements of long-outstanding security commitments. The budget for the item in the current year is experiencing pressure from caused over-spending by some individual items. The funds allocated for the payment of security services is expected to run-out at the end of January living a budget deficit for the February and March. Some items including fleet management and lease payments are out experiencing a high rate of

expenditure versus the allocated budget. These together with some other factors have put too much pressure to the budget for goods and services.

The 2015/16 budget allocation for capital assets is R123 million and the current baselines for 2016/17 will increase to R124 million in 2016/17. The total of over R103 million in the current budget will be spent in the construction of the traffic college while R44 million is allocated for the operational needs of the college after completion. The budget for the college is largely informed by the project plan which resides with DPWRT. This is a priority projects which is mostly funded by a direct allocation from provincial treasury.

### 8.2. Programme 2: Civilian Oversight

#### 8.2.1 Description and Objectives

The purpose of the programme is to:

- Exercise oversight on the South African Police Service on their effectiveness and efficiency to provide safety to communities.

- Conducting research on policing matters to ensure that the interventions to fight crime are informed by reality
- Implement an integrated approach towards reducing crime and conditions making communities to be victims of crime
- Strengthen community based and private partnership with the South African Police Service to fight crime.
- The programme consists of five sub programmes or directorates namely: Programme Support, Monitoring and Evaluation, and Policy and Research, Promotion of Safety and Community Police Relations.

## **8.3. Programme 3: Traffic Regulations**

### **8.3.1 Description and Objectives**

The purpose of Transport Regulation is to provide a safe road environment through the regulation of traffic flow on public roads, overload control, implementation of road safety campaigns as well as registration and licensing of vehicles and drivers. The programme consists of Programme Support, Traffic Law Enforcement, Overload Control, Road Safety Education, Safety Engineering and Transport Administration and Licensing.

The programme is allocated R540 million for the 2016/17 financial year compared to R490 million current year allocations. This budget and R147 million provided for the construction of the traffic college and its operational budget after completion. The budget for construction of the traffic college is classified under priority budget and is directly allocated by provincial treasury during the second budget submission. Goods and services is also set to increase from R87 million to just above R108 million in the 2016/17 financial year. This increment is mainly informed by the additional budget for fleet management received from programme.

The programme is allocated budget baselines of R359 million for the 2016/17 financial year which is less than R358 million current year budget allocations. The programme has reduced the budget deficit it experienced over the past couple of years. The current contract has drastically reduced the financial implications through the reduction in the guards numbers and improved terms and conditions.

#### **8.4.2 Service Delivery Measures**
