1. Overview

1.1 Vision

Leader in the provision of high quality services in infrastructure delivery.

1.2 Mission

A custodian of provincial government immovable assets and a provider of sustainable infrastructure resulting in socio-economic reforms, sector transformation and development.

1.3 Core functions and responsibilities

The core mandate of the department is to:

- Provide and manage government's roads and building infrastructure, including small town revitalisation, provision of accommodation, leadership to and regulation of the construction and property industries and related professions;
- Regulate and manage the implementation of the Government Immovable Asset Management Act, 2007 (GIAMA);
- Manage and lead the implementation of the Expanded Public Works Programme (EPWP);
- Implement the skills development initiatives such as the Accelerated Professional and Trade Competencies Development (APTCoD) programme, aimed at developing artisan and professional skills within the province; and
- Promote accessibility and safe, affordable movement of people, goods and services through the delivery and maintenance of transport infrastructure.

1.4 Main Services

In line with the core functions and responsibilities, the main services rendered by the department are:

- Provision of technical support and technical advisory support, project and contract management services to and on behalf of the provincial government;

- Give assistance to the provincial government in respect of routine and planned maintenance;
- Provision of up-to-date, reliable information relating to immovable assets in the province;
- Provision of accommodation to support efficient service delivery objectives of provincial government departments including education and health facilities;
- Management of provincial immovable assets to ensure optimal and efficient utilisation throughout their lifecycle from acquisition to disposition by:
 - Performing condition and performance assessment of the immovable asset to determine the effect of the condition of an immovable asset on service delivery ability and provide information thereof;
 - Determining the maintenance and costs required to return the immovable asset to the state in which it would provide the most effective service;
 - Maintenance of the province's immovable assets in good working condition that meets any change in service delivery objectives of the provincial government;
 - Payment of rates and taxes for provincial assets; and
 - Provision of facilities management services for provincial assets.
- Ensuring use and disposal of immovable assets in line with the government's socio-economic objectives, including land reform, black economic empowerment, alleviation of poverty, job creation and the redistribution of wealth;
- Provision of job opportunities for the unemployed, empowerment and economic opportunities for the emerging contractors in the construction and property development sector;
- Co-ordinate and implement the EPWP in the province; and
- Providing, maintaining and managing the provincial roads network.

1.5 Demands for and expected changes in the services

The department's mandate continues to be informed by the need to address public works and transport infrastructure, office accommodation needs for client departments and ensuring that infrastructure expenditure results in socio-economic reforms, sector transformation and development of livelihoods of struggling communities of the province and the economy at large. In this regard, the department continues to face pressure to deliver on these issues due to increasing demand. This includes the continued expansion of organograms by user departments and the ever increasing need to address the infrastructure (roads and government buildings) in a cost effective manner. To address some of these demands, the department has highlighted measures that will be implemented in the new year under the section "Outlook for 2017/18".

1.6 The Acts, rules and regulations

The department derives its mandate from the Constitution. In carrying out its core function and responsibilities, the department is governed by the following Acts, rules and regulations: National Road Traffic Act, 1996; Public Service Regulations, 2001 as amended; Employment Equity Act; Labour Relations Act; Eastern Cape Roads Act, 2003; Government Immovable Asset Management Act, 2007 (GIAMA); Eastern Cape State Land Disposal Act, 2007; Expanded Public Works Programme Framework and Guidelines; Construction Industry Development Board Act; and Supply Chain Management Framework.

1.7 Budget decisions

Due to challenges from the economic environment, the country is faced with a very tight and shrinking fiscal envelope. The department is compelled to fund capital infrastructure projects through the limited

equitable share budget (which is limited) as a result of stringent requirement in the Division of Revenue Act (DoRA) in relation to the utilisation of Provincial Roads Maintenance Grant (PRMG). The department continues implementing the roads function with the available resources. The infrastructure historical backlogs (roads in particular) remain a cause for concern in terms of resource allocation in the province.

1.8 Aligning departmental budgets to achieve government's prescribed outcomes

In fulfilling its mandate, the department has identified outcomes in the National Development Plan (NDP) and Vision 2030 which are aligned to departmental plans around which the work of the department is organised.

These outcomes are Outcome 4, NDP Chapter 3: Decent employment through inclusive economic growth; Outcome 6, NDP Chapter 4: Support an efficient, competitive and responsive economic infrastructure network; and Outcome 8, NDP Chapter 8: Create sustainable human settlements and improved quality of household life.

To improve its administrative and delivery capacity the department has aligned its plans to Outcome 12, NDP Chapter 13: Generate an efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship; and Outcome 5, NDP Chapter 9: Develop a skilled and capable workforce to support an inclusive growth path.

In order to respond to these outcomes and NDP priorities, the department has identified four Strategic Outcome Oriented goals around which the work of the department is organised, these include:

- Effective and Efficient administrative capacity that is fully responsive to the Department's mandate by 2020;
- Immovable assets management regime fully responsive to the needs of the provincial government and its socio economic transformational agenda by 2020;
- An efficient and integrated road network that serves as a catalyst for social and economic development underpinned by improved rural access by 2020; and
- Empowered communities through developing emerging contractors resulting in sustainable livelihoods, employment and economic growth by 2020.

2. Review of the current financial year (2016/17)

2.1 Key achievements

A Service Delivery Model (SDM) that serves as a blueprint on the finer interpretation of Public Works as custodian of assets, Infrastructure Nerve Centre and Socio-Economic transformational mandate as well as how the department envisages rendering its services has been developed. It was approved by the Executive Authority in December 2016. The department is finalising the implementation plans towards the realisation of the SDM.

The department has made strides in addressing the challenge in its procurement and financial management control environment, which is affirmed by the Auditor General's unqualified audit opinion of 2015/16. Another crucial achievement in improving the deficient procurement environment and to enable the effective rollout of the Infrastructure Delivery Management System (IDMS) was the creation of a dedicated capacity for Infrastructure Procurement and Delivery Management (IPDM) in the department. This was achieved through a process of separating infrastructure procurement from the Supply Chain Management (SCM) unit to ensure that the department is fully poised to achieve the full implementation of the IPDM. Although a Senior Manager has been appointed in this space, this section still requires full capacitation with subordinate staff.

Key highlights also include procurement, which is progressing well with 39 designs completed and ready for tender against the annual target of 43. Additional to the 5 projects already achieved, 2 maintenance projects were awarded for implementation against the annual target of 15. These are the upgrade and electrical installation as well as water and sewage lines at Cape College in Amathole region and the construction of a boundary wall at Ex Maluti College in Alfred Nzo region.

The department is continuing to positively contribute to the provincial priority of promoting quality education by providing decent school infrastructure for the previously disadvantaged rural communities. The department has completed a number of projects for the Department of Education which includes the Magwaxaza JSS in Joe Gqabi, erection of palisade fencing at Bulelani SSS in Chris Hani, erection of new security fence at Mfesane SSS in Sarah Baartman, new elevated water tank at Lingcom Primary School in Sarah Baartman, Upper Ngqungqu JSS in O.R Tambo and ECD Centre at Zamuxolo JSS in Amatole. Furthermore, the construction works in the following schools is progressing well namely: Klipfontein at 85 per cent complete in Sarah Baartman, Nomakha Govalele SSS at 80 per cent complete in Alfred Nzo, Sea Vista at 72 per cent complete and Bankies at 70 per cent complete in Sarah Baartman.

The Immovable Asset Management has seen 135 properties recommended for confirmation of vesting through the Provincial State Land Disposal Committee (PSLDC) against the annual target of 150. The programme is also continuing with other custodial functions like updating the immovable asset register and has reviewed all 9 User Asset Management Plans from other departments. In order to ensure that government meets its objectives, the department has continued to pay rates and taxes to all municipalities on the basis of agreed and verified municipal bills. In relation to the Bhisho Office Precinct, the building concept designs were completed and presented to the Executive Council. National Treasury has reviewed Treasury Approval (TA) II application and changes have been effected and re-submitted. The TA II outcome is expected at the end of February 2017 and once it is approved, the department will be ready to open the bidding process.

In relation to the Small Town Revitalisation Programme, the major planned activity was the development of long term Revitalisation Plans for Port St Johns (Port St Johns Municipality), Coffee Bay (KSD Municipality), Kirkwood (Sundays River Municipality) and Kliplaats (Ikhwezi Municipality). Town planners were appointed in the first quarter and have commenced with the task of developing the Revitalisation Plans. As part of the Bhisho Revitalization Programme, the Ceremonial Boulevard phase 2 projects, focusing on upgrading of roads within Bhisho to improve mobility and safety of pedestrians, is nearing completion (construction is 75-100 per cent complete).

The improvement to the provincial road network continued to receive priority with key highlights being the continued trend of over performance in the maintenance programme. In almost all its maintenance activities, the department has already surpassed its annual targets during the third quarter. To date, 737.3 km of gravel roads has been re-graveled against the annual target of 686 km. For blacktop patching, the department managed to achieve 76 903.9 m² against the annual target of 44 800 m². However, the department has to date only bladed about 25 061.7 km against the annual target of 30 100 km.

The department has already achieved its annual target of constructing 4 bridges at Bawa, Zazulwana, Mazizini and Mancam thus providing safe passage for pedestrians and vehicles to the previously inaccessible areas of the province especially in flood seasons. A process of identifying new areas that require the construction of new bridges is underway.

Other roads completed include the surfacing of 6.2 km half-width on the N6 to Wriggleswade (Amatole Berries) and Centane to Qholora Phase 2A which were completed in December 2016 as well as the upgrading of DR12732 Phase1 from gravel to surfaced standard which is a tourism road that leads to Tsolwana Nature Reserve.

Amongst the multi-year projects (roads) that are progressing well is the R61 – Magusheni to Mzamba (Phase 1&2). The contractors are currently busy with the base course (Phase 1) and finishing off the layer works (Phase 2) and the phases (\pm 40 km in length) are expected to be completed by August and

September 2017, respectively. The Nkantolo road (upgrade of 13 km to surfaced standard) was awarded in May 2016 and with the contractor progressing well, the project will continue until June 2018. The upgrading of internal streets in the Ugie Town phase 2 is on schedule and is expected to be completed in June 2017. The project is 4.5 km in length. Other projects that are in progress include the Tombo to Isilimela Hospital Project which is progressing very well and 75 per cent of the layer works has been completed. The project is 17 km in length. Base course has been placed on large sections of the road and the project is expected to be completed by November 2017. The contractor is busy with the base course (bridge is 90 per cent complete) of the N2 to Siphethu Hospital Phase 2 project, which is expected to be completed by October 2017.

As part of the department's contribution towards the intensification of poverty reduction and employment creation efforts through the EPWP, 53 650 work opportunities (of which 16 276 are full time equivalents) were created thereby exceeding the annual target of 51 000. This has resulted in an increased incentive grant being received for the 2017/18 financial year.

The department is also on course in developing a skilled and capable workforce to support an inclusive growth path. To this end, 827 Accelerated Professional and Trade Competency Development (APTCoD) learners were contracted and trained with 117 of these learners assisted to pass their trade test. 486 National Youth Service (NYS) learners have been recruited with 210 Internship and 100 TVET learnership opportunities given to the youth. Through the Amathuba Jobs Portal, 2 500 unemployed people have been matched with job opportunities, against the annual target of 3 000. The department has supported all 11 planned livelihood projects by providing assistance and empowerment (inclusive of training).

The department is successfully performing its coordination function by supporting all public bodies to report on their EPWP targets. However, the amalgamation of certain municipalities in the province is expected to result in the reduction of public bodies reporting on EPWP targets from 56 to 50.

2.2 Key challenges

The human and financial resource constraints are also continuing to be the hindrance in the Transport Infrastructure programme in particular. The lack of capacity in the Roads Programme creates a vacuum at both operations and management level.

With regards to EPWP, the department continues to experience a challenge of inadequate capacity to monitor and supervise EPWP workers. However, the department has adopted the principle of optimally utilising available resources even though this hasn't yielded much impact as the skills that are available are mostly administrative support and not technical.

Challenges were also experienced in rolling out the installation of CCTV and Access Control biometrics aimed at strengthening security measures in all government buildings. The department could not procure the services as there were challenges with the recommended service providers. The procurement process had to be restarted from scratch with the advert for a 3-year contract that will cover all the areas identified to be upgraded. Furthermore, the delays in the Bhisho revitalization road project affected the installation of the electronic access control.

3. Outlook for the coming financial year (2017/18)

The 2017/18 will be a consolidation of the department's achievements and continued improvement in the areas where there are still challenges. In this regard, the department's commitments are by restating the strategic focus areas over the next MTEF period, focusing on the 5 priority areas. Therefore, the strategic projects aligned to the priority areas are discussed below.

Creation of Job Opportunities, Development and Empowerment

The department will endeavour to intensify its employment creation and empowerment of communities and construction emerging contractors efforts through the creation of 49 150 work opportunities, promoting 4 labour intensive initiatives, implementing 5 beneficiaries empowerment interventions, supporting 240 emerging contractors to upgrade their status, monitoring 11 Household Contractors livelihood projects, implement 7 interventions and to support 50 public bodies implementing EPWP in the province.

Consolidation of Infrastructure Delivery

The department will continue to strengthen its capability to be a nerve centre for infrastructure delivery by fully implementing and institutionalising the Infrastructure Delivery Management System (IDMS) as a means to improve the planning, source funding, execute and monitor infrastructure projects. Also it will implement the SDM, accelerating skills and artisan development and continuously improving infrastructure and accommodation planning. Furthermore, 12 capital infrastructure projects will be completed within the agreed time period and budget. The acquisition of the Old Kings Holme Old Age Home will be finalised.

The provision of office accommodation will be improved through the development of the Bhisho Office Precinct and conducting condition assessments on 120 state-owned buildings. The programme will also conduct land surveying consolidations and valuations, verify 4 250 immovable assets in the Immovable Asset Register and recommend 200 provincial properties for confirmation of vesting through the Provincial State Land Disposal Committee.

The department also intends increasing its revenue generation by identifying 15 strategic properties and taking them through a process of approval by the accounting officer. The roll-out of the revenue generation strategy will also be implemented through the implementation of the parking tariffs.

The department will continue to improve the provincially proclaimed road network both (surfaced and gravel). In this regard, the visual assessment of 3 670 km of provincially proclaimed surfaced road network as per requirement of Technical Manual for highways (TMH) will be done. The upgrading of 106.5 km of gravel roads to surfaced roads and 150 000 m² of surfaced road will be resealed. Gravel roads bladed will be 33 348 km with 711 km of gravel road being planned for re-gravelling. 58 572 m² of blacktop patching will be implemented. The R61 from Umtamvuma and Nomlacu Phase 1&2 are expected to be completed in August and September 2017, respectively. Phase 3&4 of the same road is expected to commence in November 2017. The department will continue with the upgrading of the Nkantolo and N2 to Siphetu Hospital roads. The Eltheni Coal Mine, Centane to Qholora (Phase 3) will also commence, including the R61 St Barnabas leading to Hluleka nature reserve.

Improving Responsive, Effective and Efficient Support

The department will improve efficiency in the provision of various services through improving systems, policies and procedures of departmental operations as well as the department's control environment. The installation of CCTV, Access Control Biometrics and control gates for parking areas will be finalised. The department will also continue to improve its efficiency in coordinating the payment of rates and taxes in order to assist municipalities perform better.

A SDM that displays customer orientation and defines how the department should operate to better serve its clients will be implemented, which will assist in ensuring functional and strategic alignment between strategy and the organisational structure. The ICT Strategy will also be implemented to support the digital

transformation of the department as envisaged in the SDM and also to ensure optimal use of ICT systems as well as adequacy of ICT governance.

4. Reprioritisation

In budgeting for non-core items, all relevant cost-cutting circulars / practice notes will continue to inform how the department allocates its budget. Furthermore, the department has effected reprioritisation in order to release funds for other priorities.

5. Procurement

The department will procure a number of projects through the bidding process (90/10 thresholds). A number of projects will also be procured through the quotation process (80/20 thresholds). The method of procurement will be determined through discussions with the project leaders. The procurement processes will be aligned according to the implementation date of the project as listed on the department's procurement plan.

6. Receipts and financing

Table 2 shows the source of funding for the department from 2013/14 to 2019/20. For 2017/18, the main sources of funding are equitable share of R3.565 billion and conditional grants of R1.524 billion.

The equitable share allocation has increased by 5.1 per cent compared with the 2016/17 revised estimate. The increase is due to the additional allocations for the provincial priorities in the roads and property portfolio. The conditional grants increased by 18.4 per cent compared to the 2016/17 revised estimate. The increase is attributable to the good performance achieved by the department on Full Time Equivalents (FTEs) targets set by National Public Works.

Table 3 above shows that the department collected R32.101 million in 2013/14 which increased to a revised estimate of R42.573 million in 2016/17. This revenue is mainly from the sale of Goods and services other than capital assets in respect of rental income collected from the leasing of state-owned properties. In 2017/18, own receipts increase by 6.6 per cent from the revised estimate to R45.404 million. This is due to the forecast implementation of the revenue enhancement strategy, which includes rental of parking bays and charging market related rental on the lease portfolio of state-owned properties.

7. Payment summary

7.1 Key assumptions

The following assumptions were taken into consideration when this budget was formulated:

- National Treasury Instructions on cost containment measures;
- Personnel related adjustments have been taken into account in line with adjustments contained in the National Treasury Budget Guidelines;
- The CPI inflation projections have been taken into account for non-personnel budgets; and

Tables 4 and 5 show the summary of payments and estimates for the department per programme and economic classification. Actual expenditure increased from R3.851 billion in 2013/14 to a revised estimate of R4.678 billion in 2016/17 due to inflationary adjustments and the additional resources to fund the provincial priorities aligned to the mandate of the department. In 2017/18, the budget increases by 8.8 per cent mainly due to the normal inflationary adjustments and the additional funding provided for prioritised roads and two public works projects.

Compensation of Employees expenditure increased significantly from R897.711 million in 2013/14 to a revised estimate of R1.174 billion in 2016/17. The increase is due to the carry-through costs of the higher than anticipated wage agreement as well as reprioritisation done for the filling of critical posts. In 2017/18, the budget increases by 10 per cent due to inflationary adjustments and the provision to fill the vacant critical posts as per the approved organogram which includes the elements of National Public Works sector.

Expenditure on Goods and Services decreased from R2.091 billion in 2013/14 to a revised estimate of R1.998 billion in 2016/17. The decrease is due to the reprioritisation made by the department to fund capital projects that were experiencing cost pressures. In 2017/18, the budget increases by 17.8 per cent as a result of additional funding received for the provincial flagship project, increase in maintenance projects allocation that is in-line with the PRMG conditions as well as allocation on the EPWP Incentive conditional grant due to good performance achieved by the department on FTEs targets set by National Public Works.

Transfers and Subsidies increased from R220.577 million in 2013/14 to a revised estimate of R320.081 million in 2016/17. This increase is attributable to the broadening of property portfolio owned by the province thus increasing the property rates and taxes. In 2017/18, the budget increases marginally by 2.1 per cent due to once off allocation of the rollover approval in 2016/17 to settle the 2015/16 accruals and municipal debts.

Payments for Capital Assets increased from R641.684 million in 2013/14 to a revised estimate of R1.186 billion in 2016/17. The increase is attributable to new funding received for priority capital projects as pronounced by the premier in the 2015 State of the Province Address (SOPA) as well as the department's decision to continue to invest in capital projects. In 2017/18, the budget decreases by 5.7 per cent due to front loaded amount of the R61 project in the 2016/17 adjustment estimates and compliance with the PRMG conditions in respect of split between maintenance and capital spending.

Table 6 above provides the summary of expenditure by the department in each of the benefiting municipalities.

Expenditure in the municipalities accommodates key projects (i.e. office accommodation, road maintenance, payment of rates and taxes, etc.) and create jobs through EPWP. Over the 2017 MTEF, the bulk of the department's service delivery spending is concentrated in district municipalities with OR Tambo receiving the most, followed by Chris Hani, Joe Gqabi and Alfred Nzo while Amathole and Sarah Baartman receives the least.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

Table 7 above presents a summary of infrastructure payments and its estimates by category. A more detailed listing of infrastructure projects to be undertaken by the department can be found under Annexure B5 of this chapter. Reprioritisation on infrastructure has been informed by the decision to prioritise various projects across programmes as listed in the B5 project list.

The total departmental infrastructure spending of all categories decreased from R2.419 billion in 2013/14 to a revised estimate of R2.290 billion in 2016/17 due to the inclusion of overheads prior to the 2014/15 infrastructure spending. In 2017/18, the budget increases by 11 per cent due to additional allocation for provincial priority roads projects over the MTEF.

Maintenance and repairs increases by 25.8 per cent to R1.311 billion from the 2016/17 revised estimate of R1.042 billion. Upgrades and additions decreases by 2.7 per cent to R1.134 billion from the revised estimate of R1.165 billion in 2016/17. Refurbishment and rehabilitation decreases by 100 per cent in 2017/18 from R3.433 million 2016/17. The New infrastructure assets increases by 22.8 per cent in 2017/18 to R96.757 million, from the revised estimate of R78.788 million in 2016/17 due to the acquisition of the Kings Holme Old Age Home in Kings Williams Town for office accommodation.

7.5.2 Maintenance

As per table 7 above, maintenance increases by 25.8 per cent in 2017/18. The larger share of the maintenance budget relates to roads infrastructure asset that is funded by the PRMG. The details of maintenance projects are captured in the infrastructure schedule (Annexure B5 of this chapter).

Table 8 and 9 show the summary of the conditional grant payments by grant and by economic classification.

The PRMG increased from R1.243 billion in 2013/14 to a revised estimate of R1.367 billion in 2016/17. This increase is attributable to the normal inflationary adjustment. In 2017/18, the grant increases marginally by 4.9 per cent to R1.435 billion.

The EPWP Incentive is based on performance (jobs created). The grant decreases from R65.081 million in 2013/14 to revised estimate of R52.848 million in 2016/17. In 2017/18, the grant increases by 69.9 per cent to R89.771 million due to the good performance achieved by the department on FTEs targets set by National Public Works.

In terms of the economic classification, Goods and services increase from R992 million in 2013/14 to a revised estimate of R1.072 billion in 2016/17. This is attributable to the refocus on maintenance projects as per the conditions of the PRMG. In 2017/18, the budget increase by 18.7 per cent due to the increase in the EPWP incentive grant allocation.

Payment for capital assets have increased from R316.308 million in 2013/14 to a revised estimate of R348.174 million in 2016/17. In 2017/18, the budget decrease by 27.7 per cent in order to comply with the PRMG conditions.

Table 10 above shows the summary of transfers in respect of payment of property rates and taxes for provincial owned properties. Transfers and Subsidies increase from R186.146 million in 2013/14 to a revised estimate of R286.581 million in 2016/17. This increase is attributable to the broadening of the property portfolio owned by the province thus increasing the property rates and taxes. In 2017/18, the budget increases by 1.8 per cent.

8. Programme description

8.1 Programme 1: Administration

Objectives: Provides administrative, strategic, financial and corporate support services in order to ensure that it delivers on its mandate in an integrated, efficient, effective and sustainable manner. The programme is divided into 3 sub-programmes as follows:

- **Office of the MEC:** To render advisory, secretarial, administrative and office support service;
- **Management of the Department:** Overall management and support of the department; and
- **Corporate Support:** Manages personnel, procurement, finance, administration and related support services.

Tables 11 and 12 above summarise the expenditure and budgeted estimates relating to Programme 1 over the period 2013/14 to 2019/20 per sub-programme and economic classification. Expenditure increased from R446.063 million in 2013/14 to a revised estimate of R585.024 million in 2016/17. The increase is due to the building of financial management capacity that is focusing on contract management and finance as well as the transfer of employees from the Department of Transport. In 2017/18, the budget increases by 4.1 per cent to R609.023 million.

Compensation of Employees expenditure increased from R255.794 million in 2013/14 to a revised estimate of R348.125 million in 2016/17 due to building of capacity. In 2017/18, the budget increases by 10.1 per cent due to ICS adjustments and provision for filling of vacant critical posts as per the approved organogram.

Goods and Services increased from R161.936 million in 2013/14 to a revised estimate of R176.655 million in 2016/17. In 2017/18, the budget decreases by 8.8 per cent due to internal reprioritisation to fund the approved organogram and related reduction on the use of consultants.

Transfers and Subsidies increased from R25.083 million in 2013/14 to a revised estimate of R27.783 million in 2016/17. The increase is largely attributable to staff exiting through normal attrition. In 2017/18, the budget increases marginally by 2.8 per cent to R28.569 million.

Payment for Capital Assets increased from R2.990 million in 2013/14 to a revised estimate of R32.461 million in 2016/17. This was due to the provision of office equipment and computers that have reached the useful lifespan, upgrade of Storage Area Network (SAN) for Amathole and Head Office as well as white fleet budget. In 2017/18, the budget increases by 10.6 per cent due to centralisation of the budget for the white fleet utilisation.

8.2 Programme 2: Public Works Infrastructure

Objectives: To provide a balanced and equitable provincial government building infrastructure by promoting accessibility that is sustainable, integrated and environmentally sensitive which supports economic development and social empowerment. The programme is divided into 7 sub-programmes as follows:

- **Programme support:** To manage the activities of the professional components strategically as well as to render an administrative support services to the professional components with regard to finance matters and supply chain management;
- **Planning:** Manages the demand for infrastructure, development, monitoring and enforcement of the built sector as well as property management norms and standards;
- **Design:** Designs new and upgrade building infrastructure with the intention to ensure that plans are ready for funding and will include only 4 of the 6 procab stages (namely, project inception, concept design, design development and projects documentation);
- **Construction:** Responsible for new construction, upgrading and refurbishment and it entail 2 of the procab stages (namely, stage 5: construction period and contract administration and stage 6: project close out and debriefing);
- **Maintenance:** Responsible mainly for four maintenance activities, namely: routine maintenance, scheduled maintenance, alterations and conditions assessment of all buildings;
- **Immovable Asset Management:** Manages the property portfolio of the province by establishing and managing the provincial strategic and infrastructure plan, to provide accommodation for all provincial departments and other institutions as well as acquire and dispose of accommodation in terms of the plans; and
- **Facility Operations:** Manages the operations of buildings (including facilities management, cleaning, greening, beautification, interior decoration and designs and day to day preventative maintenance of electronic, electrical and mechanical equipment) and all services related to managing a building.

Tables 13 and 14 above show that expenditure increased from R1.168 billion in 2013/14 to a revised estimate of R1.417 billion in 2016/17. This is attributable to the increased provision made for the payment of rates and taxes as well as once off allocations to fund departmental priorities in the properties unit. In 2017/18, the budget increases marginally by 3.5 per cent.

Compensation of employees increased from R289.098 million in 2013/14 to a revised estimate of R377.983 million in 2016/17. The increase was attributable to the building of capacity within the property holdings and buildings components within the programme. In 2017/18, the budget increases by 10.3 per cent due to the ICS adjustment and provision for filling of vacant critical positions as per the approved organogram.

Goods and services spending increased from R438.616 million in 2013/14 to a revised estimate of R527.335 million in 2016/17. This increase was due to the ever increasing demand for office space by client departments and allocations for provincial priorities that include the conditional assessments, security related priorities and business and advisory services related to the Bhisho Office Precinct. In 2017/18, the budget increases marginally by 2.8 per cent to R542.247 million.

Transfers and subsidies increased from R186.717 million in 2013/14 to a revised estimate of R282.878 million in 2016/17. The increase was due to the broadening of the property portfolio owned by the province thus increasing the property rates and taxes. In 2017/18, the budget increases marginally by 1.9 per cent to R288.129 million. This is attributable to the once-off allocation in respect of roll-over approved in 2016/17 for rates and taxes.

Payment for Capital Assets decreased from R253.762 million in 2013/14 to the revised estimate of R229.117 million in 2016/17. In 2017/18, the budget decreases by 3.9 per cent mainly due to the centralisation of white fleet budget to Programme 1.

The table above shows the planned service delivery measures planned for the 2017/18 and the MTEF period for the Public Works Infrastructure. The department has endeavoured to prioritise resource towards the attainment of these key service delivery measures.

8.3 Programme 3: Transport Infrastructure

Objectives: To promote accessibility and the safe, affordable movement of people, goods and services through the delivery and maintenance of transport infrastructure that is sustainable, integrated and environmentally sensitive, and which supports and facilitates social empowerment and economic growth. This programme consists of 6 sub-programmes:

- **Programme Support Infrastructure:** Overall management and support of the programme;
- **Infrastructure Planning:** Provides network planning for proclaimed roads;
- **Infrastructure Design:** Provide design of road and transport infrastructure including all necessary support function such as Environmental Impact Assessments, Traffic Impact Assessments, survey, expropriation, material investigations and testing;
- **Construction:** Develop new, re-construct, upgrade and rehabilitate road and transport infrastructure;
- **Maintenance:** Effectively maintain road and transport infrastructure; and
- **Mechanical:** Provide an efficient plant fleet in support of in-house construction and maintenance units.

Table 16 and 17 show that expenditure increased from R1.783 billion in 2013/14 to the 2016/17 revised estimate of R2.092 billion. The increase was due to the normal inflationary adjustment as well as additional allocation for specific roads. In 2017/18, the budget increases by 11.8 per cent to R2.258 billion due to additional allocation received for specific priority roads.

Expenditure on Compensation of Employees increased from R284.037 million in 2013/14 to the 2016/17 revised estimate of R354.307 million. The increase was due to the implementation of OSD for engineering professionals. In 2017/18, the budget increases by 10 per cent due to ICS and provision for filling of vacant critical positions to enable the programme to build capacity to deliver on the roads mandate.

Goods and Services expenditure decreased from R1.112 billion in 2013/14 to a revised estimate of R819.886 million in 2016/17. In 2017/18, the budget increases by 32.8 per cent due to the compliance with the PRMG conditions.

Transfer and subsidies expenditure increased from R8.777 million in 2013/14 to the 2016/17 revised estimate of R9.420 million. In 2017/18, the budget increases by 5.7 per cent to R9.954 million.

Payments for capital assets expenditure increased from R377.819 million in 2013/14 to the revised estimate of R908.462 million in 2016/17. The increase is attributable to new funding received for priority capital projects as pronounced by the premier in the 2015 State of the Province Address (SOPA) as well as the department's decision to continue to invest in capital projects. In 2017/18, the budget decreases by 6.5 per cent due to front loaded amount of the R61 project in the 2016/17 adjustment estimates and compliance with the PRMG conditions in respect of split between maintenance and capital spending.

Service Delivery Measures

| Number of kilometres of gravel roads bladed. | 30 100 | 33 348 | 31 200 | 32 400 |

The table above reflects the key service delivery measures in the Transport Infrastructure for the 2017/18 and over the MTEF period. In terms of the above, the department will intensify the delivery of upgrading roads to surfaced standard with a number of projects planned for the new where about 106.5 km is planned for 2017/18. Reseal programme will also be intensified over this period.

8.4 Programme 4: Expanded Public Works Programme

Objectives: To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and coordination of the Expanded Public Works Programme. The programme is divided into 4 sub-programmes:

- **Programme Support:** Overall management and support of the branch, including provision of back office technical administration, provision of built sector knowledge management services, finance, built sector supply chain management and management of stores, telecommunications as well as serving as the coordinating division of the branch;
- **Community Development:** Provides programmes to bring about development and empowerment of impoverished communities;
- **Innovation and Empowerment:** To facilitate contractor development, empowerment and training including Learnerships; and
- **Co-ordination and monitoring:** To manage and coordinate the implementation of EPWP projects and programmes and monitor compliance to EPWP guidelines by all sectors.

Tables 19 and 20 show that expenditure increased from R454.131 million in 2013/14 to a revised estimate of R584.425 million in 2016/17 mainly due to the increase in the EPWP Incentive grant allocation. In 2017/18, the programme's budget increases by 15.7 per cent due to the increase of the EPWP Incentive allocation resulting from good performance achieved by the department on FTEs targets set by National Public Works.

Compensation of employees increased from R68.782 million in 2013/14 to a revised estimate of R93.702 million in 2016/17 due to the increase in the number of intake for NYS and APTCOD. The budget increase by 8.3 per cent in 2017/18 due to provision for the ICS adjustments and filling of vacant posts.

Goods and Services increased from R378.236 million in 2013/14 to a revised estimate of R474.718 million in 2016/17. This was due to the funding of job creation through the EPWP Incentive grant. In 2017/18, the budget increases by 18.3 per cent due to increase in the EPWP Incentive allocation and funding for the Household Contractors.

Payments for Capital Assets decreased from R7.113 million in 2013/14 to a revised estimate of R16.005 million in 2016/17. The increase is as a result of reprioritisation of budget within the department to fund the greening / beautification of small town projects. In 2017/18, the budget decreases by 18.6 per cent due to the centralisation of the white fleet budget to Programme 1.

1. Personnel numbers includes all filled posts together with those posts additional to the approved establishment

Table 23 above shows that personnel numbers decreased from 6 177 at a cost of R897.711 million in 2013/14 to 5 431 at a cost of R1.174 billion in 2016/17. The decline has been informed by staff leaving the department through natural attrition and delays in implementing the 2016/17 Annual Recruitment Plan (ARP). The department has experienced challenges in attracting scarce skills due to stringent OSD conditions and the inability to attract the requisite skills. Overall, personnel is expected grow by 1.6 per cent over 2017 MTEF with the implementation of the approved organogram.

As required by the Skills Development Act, the department budgets at least 1 per cent of its salary expense for staff training. The expenditure as illustrated in Table 24 above relates to the payments on training of emerging contractors (community-based projects). It further reflects future employees (bursary students who will after completion of studies become employees) and APTCoD students (non-government sector employees).

The total number of bursaries for future employees (external bursaries) is capped due to various factors such as budget availability, number of students already in receipt of bursaries, type of studies, (e.g. Diploma or B degree) and the number and types of bursary holders who complete their studies. All these factors are taken into account when new bursaries are allocated. These are full bursaries that cover class fees, books, accommodation, etc.

The allocation of bursaries and study assistance to existing employees is entirely budget dependent and driven by the Workplace Skills Plan, which is informed by employees' personal development plans.
