16.[5]4 Feasibility analysis

16.[5]4.1 To determine whether a proposed PPP agreement is in the best interests of an institution, the accounting officer must prepare a feasibility analysis that–

- (a) explains the strategic and operational benefits of the PPP agreement for the institution in terms of the institution’s strategic objectives and government policy;
- (b) describes in specific terms–
 - (i) the nature of the institutional function concerned;
 - (ii) the extent to which this function, both legally and by nature, can be performed by a private party in terms of a PPP agreement; and

- (iii) what other forms of PPP agreement were considered, and how the proposed form was selected;
 - (c) assesses whether the agreement will–
 - (i) provide value for money;
 - (ii) be affordable for the institution; and
 - (iii) transfer appropriate technical, operational and financial risk to the private party.
 - (d) includes any relevant information, figures and the economic criteria used to justify these assessments; and
 - (e) explains the capacity of the institution to effectively enforce the agreement, including to monitor and regulate implementation of and performance in terms of the agreement.
- 16.[5]4.2 If an institution lacks the expertise to assess value for money and affordability or to interpret any PPP agreement offered to it by a private party, the accounting officer of the institution–
- (a) must inform the relevant treasury accordingly; and
 - (b) if the relevant treasury so requests, must appoint a specialist consultant for this purpose.

16.[6]5 Submission to obtain treasury approval

- 16.[6]5.1 If the feasibility analysis indicates that a PPP agreement will be in the best interests of the institution, and the institution intends to procure the agreement, the accounting officer must apply for approval from the relevant treasury in terms of clause 16.4.
- 16.[6]5.2 The application must be accompanied by the feasibility analysis, submitted in the following format–
- (a) Part I should contain a brief “sector needs analysis” and priority ranking of the PPP agreement being proposed on the basis of this analysis;
 - (b) Part II should demonstrate value for money, affordability, and risk transfer; and
 - (c) Part III should contain the main terms of the proposed agreement to be signed with the private party and the institutional arrangements for monitoring and enforcing these terms.

16.[7]6 Procurement [Section 76(4) of the PFMA]

- 16.[7]6.1 An institution may not proceed with the procurement of a PPP agreement unless it has obtained written treasury approval in terms of clause 16.4.
- 16.[7]6.2 A PPP agreement must be procured in accordance with applicable procurement legislation.
- 16.[7]6.3 The procurement procedure must include–
- (a) an open and transparent pre-qualification process;
 - (b) a competitive bidding process in which only pre-qualified organisations may participate; and
 - (c) criteria for the evaluation of bids to identify the bid that represents the best value for money.
- 16.[7]6.4 The procurement procedure may include–
- (a) a preference for categories of bidders, such as persons disadvantaged by unfair discrimination, provided that this does not compromise the value for money requirement; and

- (b) incentives for recognising and rewarding genuine innovators in the case of unsolicited proposals, provided that these incentives do not compromise the competitive bidding process.

16.[8]7 Contracting public-private partnership agreements

- 16.[8]7.1 Before the accounting officer of an institution enters into a PPP agreement, he or she must–
- (a) obtain relevant treasury [**approval**] agreement to future [**for all**] budgetary commitments; and
 - (b) ensure that the financial commitments in terms of the agreement:
 - (i) are denominated in rand; and
 - (ii) will not be affected by fluctuations in the value of the rand against other currencies.

16.[9]8 Management of public-private partnership agreements

- 16.[9]8.1 The accounting officer is responsible for ensuring that a PPP agreement is properly enforced, and must establish mechanisms and procedures for–
- (a) monitoring and regulating the implementation of, and performance in terms of, the agreement;
 - (b) liaising with the private party;
 - (c) resolving disputes and differences with the private party; and
 - (d) generally overseeing the day-to-day management of the agreement.
- 16.[9]8.2 A PPP agreement does not divest the accounting officer of the responsibility for ensuring that the relevant institutional function is effectively and efficiently performed in the public interest.

16.[10]9 Amendment of public-private partnership agreements

- 16.[10]9.1 Only the accounting officer may enter into an agreement to amend a PPP agreement.
- 16.[10]9.2 Written approval of the relevant treasury is required for material amendments of PPP agreements.
- 16.[10]9.3 The relevant treasury will approve an amendment only if it is satisfied that the amended PPP agreement will–
- (a) provide value for money;
 - (b) be affordable for the institution; and
 - (c) transfer appropriate technical, operational and financial risk to the private party.
- 16.[10]9.4 The accounting officer must substantially follow the procedure prescribed by clauses 16.[5]4 and 16.[6]5 for obtaining treasury approval.

16.[11]10 Certain agreements not binding on the state

- 16.[11]10.1 A PPP agreement or an agreement amending a PPP agreement does not bind the state if the agreement was entered into on behalf of an institution–
- (a) by a person other than the accounting officer of the institution; or
 - (b) without the approval of the [**national**] National Treasury.

[16.12 Exemptions

16.12.1 The national Treasury may exempt from the application of these *Treasury Regulations* any agreement or category of agreements that fall within the definition of “public-private partnership agreement”, if these are of a nature or have a monetary value deemed not to warrant treasury control.]

16.[13]11 General

16.[13]11.1 An agreement between an institution and a private party for the latter to perform an institutional function without accepting the significant risks is not a PPP agreement and must be dealt with as a borrowing transaction in terms of the appropriate legislation.
