REPLY:

- In terms of Treasury Regulations section 6.6.3, the relevant Provincial Treasury must table an adjustments budget within 30 days of the tabling of the National Adjustments Budget. Therefore, Provinces have until the 24th July 2020 to table their adjustments budget, and the requested information will only be available then. This information should be obtained directly from Provinces as the responsibility to determine specific provincial allocations for quarantine and isolation sites vest with each province in terms of their own budget determination processes.
