TERMS OF REFERENCE

FOR

**APPOINTMENT OF ACCREDITED TRAINING PROVIDER(S) TO TRAIN 60
UNEMPLOYED LEARNERS ON THE FURTHER EDUCATION AND TRAINING
CERTIFICATE: ACCOUNTING TECHNICIAN (PUBLIC SECTOR) NQF LEVEL 4, SAQA ID
77143 FOR A PERIOD OF 15 MONTHS**

1. AIM

1.1. This Terms of Reference seeks to solicit the services of accredited, experienced, and competent training provider(s) to train 60 unemployed learners on the Further Education and Training Certificate: Accounting Technician (Public Sector) NQF Level 4, SAQA QUAL ID 77143.

2. BACKGROUND/MOTIVATION

2.1 The National Treasury fulfils a pivotal role in the implementation and management of the Public Finance Management Act (PFMA) No 1 of 1999 as well as the Municipal Finance Management Act (MFMA) No 56 of 2003. The essence of both these Acts is to regulate financial management in the public sector at national and provincial levels and municipal level respectively. The PFMA as well as the MFMA are intended to ensure that all revenue, assets, liabilities and expenditures are managed effectively and efficiently and that the responsible officials are equipped with appropriate and necessary knowledge to adhere in a compliant manner to the intentions stipulated in the respective Acts.

2.2 The third National Skills Development Strategy (NSDS III) recognises that the capacity of the public sector lags far behind what is expected of it, and in many areas critical to the nation's needs, there are serious skills gaps. To achieve the goals of a developmental state requires a public service that is skilled and capable to deliver quality services efficiently. Learnerships are a key element of the NDS III and aim to ensure the provision of skills to employed as well as unemployed or unskilled individuals.

2.3 Public sector organisations worldwide are under increasing pressure to deliver and demonstrate success in terms of both service delivery and organisational performance. State institutions must ensure that their employees have the necessary knowledge, skills and attributes required to undertake their duties competently. Education, Training and Development (ETD) is an important resource in any organisation. Implemented in the most effective way, it can assist in overcoming work-based problems and help to provide a more skilled and productive workforce, as well as assisting the organisation to achieve its objectives.

2.4 Government has prioritised the transformation of the public sector to enable it to meet the needs of the people and the policy objectives of the Government of South Africa. Given the enormous demand for services and the limited resources available to satisfy that demand, all available resources must be used as effectively and efficiently as possible. Government is determined to modernise the management of the public sector to make it more people friendly and sensitive to the communities it serves. Budgetary and financial reforms were initiated soon after the 1994 elections.

2.5 The first phase of reforms began with the introduction of a new intergovernmental system, which required all three spheres to develop and adopt their own budgets (decentralised budgeting). This was complemented by a system of significant transfers to provinces and municipalities. In addition, multi-year budgeting through the Medium-Term Expenditure Framework (MTEF) was introduced in 1997/98 to replace the one-year incremental system. The final elements in this phase of reforms were to deepen the budget process and better align policy, planning and budgeting. The introduction of the PFMA and MFMA in the early 2000's heralded the focus on operational efficiency of the public sector as well as the modernisation of the systems of financial management in the public sector.

2.6 Several of the divisions in the National Treasury have contributed in recent years to continued financial management improvement processes and the divisions such as the Budget Office, Public Finance, Intergovernmental Relations and Office of the Accountant-General have been at the forefront of this process. The Financial Management Improvement Programme (FMIP) Phases I and II, a partnership programme of the National Treasury and the European Union, has provided direct support to divisions within National Treasury in improving the efficiency of managing the Government's finances.

2.7 It is widely accepted that reforms in South Africa at the legislative and policy levels have provided a framework conducive for improving financial management in the national, provincial and local spheres of government. At the same time, it is evident that huge skills gaps exist within financial management cadres of the public service to implement the applicable legislation, policies and procedures to an acceptable level. A crucial element on government's financial management reform agenda would be to strengthen the individual and organisational capacity of government entities.

2.8 Accordingly, the National Treasury developed a comprehensive Capacity Development Strategy (CDS) for Public Financial Management. The strategy provides a national perspective to address financial management capacity constraints in the public sector. These challenges include scarce skills; high levels of vacancies and staff turnover; a lack of suitable education, training and development programmes; limited knowledge management; inadequate monitoring and evaluation; ineffective performance management; non-adherence to legislation; poor audit results; and an absence of effective partnerships. Moreover, the strategy sets out four strategic objectives to address these challenges:

- Support the development of an enabling environment
- Enhance organisational capacity

- Develop and empower a corps of competent and committed high-performance employees
- Create an environment that enables and sustains mutually beneficial stakeholder relationships

2.9 The capacity development strategy seeks to promote and develop stakeholder relationship management to address specific stakeholder requirements and ensure that messages are consistent with the aims and objectives of the PFM strategy. The CDS has identified key activities that provide content to the strategic intent as articulated through the strategic objectives of the strategy.
