Table 3 sets out the net financing for the reporting month compared with the preliminary outcome for the same reporting month in the previous fiscal year. The following table contains a summary of information relating to total financing (net):

### **Financing**

|  | September | September |
|--|-----------|-----------|
| R million                                      | 2020      | 2019      |

| Domestic long-term loans                       | 50 427    | 29 107    |
| Foreign loans                                  | -         | 76 052    |

| Total financing (net)                          | 42 867    | 650       |

<sup>1)</sup> A negative value indicates an increase in cash and other balances. A positive value indicates that cash is used to finance part of the borrowing requirement.

A cash flow schedule for the Exchequer Account is included as Table 4, summarising exchequer revenue to and departmental requisitions from the National Revenue Fund. These flows differ from the actual receipts and outlays in Tables 1 and 2, mainly because of timing differences between the cashbook transactions of departments and SARS.

Tables 1-5 are available in both Microsoft Excel and PDF format on the website of the National Treasury; at www.treasury.gov.za click on the *Communications & Media link – Press Releases – Monthly Press Releases*.

The following provincial statements are included for each of the nine provinces:

- Statement of receipts and payments with regard to the Provincial Revenue Funds;
- Conditional grants transferred from national departments and actual payments made by provinces;
- Provincial infrastructure budgets and actual payments made by provinces; and
- Provincial infrastructure project status report by provinces.
