**Ref:** RT5-2019 Notice 1

## **NOTICE TO ALL END-USERS**

### **RT57-2019 YEAR TWO (2) PRICING DELAY**

1. Paragraph 18 of the Special Conditions of Contract (SCC) governing the contract provides for the establishment of a contract pricing for second and third year of the contract.
2. In this process, all contractors are afforded an opportunity to revise their pricing and offer new models. The process for the resubmission for pricing was instituted and contractors were given the period from 4 February 2020 to 6 March 2020 to submit their new pricing and offers.
3. The resubmission of new offers commenced and the Bid Evaluation Committee (BEC) started with the evaluation process and it was expected to be finalised and implemented on 1 April 2020. Due to the COVID-19 pandemic, the process could not continue, as members of the BEC could not travel for their safety.
4. Due to these developments, the office decided to conduct a price adjustment on year one (1) pricing based on Rates of Exchange (ROE) to ensure continuity of supply while waiting for the national lockdown to end and allow the BEC to continue with the evaluation of the new offers.
5. Due to this delay, there are contractors that are unable to deliver vehicles due to operating on 2019 pricing and discontinued vehicle models that are not part of year one (1) offers. Pricing for year two (2) is finalised and will be presented before the BAC on 17 September 2020 and should approval be granted, the pricing would be published for implementation.
6. We request end-user departments to bear with us during this period while we are

waiting for the finalisation of the pricing.

7. We do apologise for the inconvenience that this delay is causing on operations.

Kind regards
