**REVISED AMENDMENT 2: EQUIPMENT AFFECTED BY LOADSHEDDING**

**TRANSVERSAL CONTRACT RT3-2022 FOR THE SUPPLY, DELIVERY, INSTALLATION, COMMISSIONING AND MAINTENANCE OF OFFICE AUTOMATION SOLUTIONS TO THE STATE FOR THE PERIOD 1 APRIL 2022 TO 31 MARCH 2026**

It has been noticed that even though equipment has lightning protectors installed, this does not protect the equipment from power surges especially experienced during loadshedding. In some instances it has been found that Government buildings are sometimes not earthed.

This challenge becomes costly for Suppliers as this is not covered by insurance. It is therefore **required that equipment be installed with voltage regulators** which is available on the transversal contract line-item E.7a and should be procured by all Participants.

The lightning protector comes with the equipment on installation.

Effective date for the above is 09 September 2022.

Regards,

**MS KWANELE MTEMBU
