**RP: 18/2020**

The 2020 Estimates of National Expenditure is compiled with the latest available information from departmental and other sources. Some of this information is unaudited or subject to revision.

The Estimates of National Expenditure e-publications for individual votes are available at [www.treasury.gov.za](http://www.treasury.gov.za). Compared to the abridged Estimates of National Expenditure publication, the e-publications for each vote contain more comprehensive coverage of all public entities, transfers and subsidies and information on programme specific personnel expenditure.

# Foreword

The Estimates of National Expenditure (ENE) publications remain an integral part of the annual budgeting process. In light of the prevailing economic climate, which requires careful consideration around the management of public funds, it has become necessary to focus our efforts on reprioritising existing government resources to areas where the most value can be derived for the benefit of all South Africans. To alleviate fiscal pressures, reductions have been effected on the baseline budgets of departments and public entities. The budgets unpacked in this document reflect the outcome of a robust negotiation process, which was led by a committee of senior officials in central government departments under the political guidance of the Ministers' Committee on the Budget. There was also wide-ranging intergovernmental consultation on budgets in the provincial and local spheres of government. Ultimately, the budgetary proposals emanating from these negotiations and consultations were considered and approved by Cabinet.

The abridged ENE provides a comprehensive account of the priorities, spending plans and service delivery commitments of the 41 national government votes, and for selected public entities. The e-publications for each vote, which are available on National Treasury's website, contain further details on goods and services, transfers and subsidies, other public entities, and lower-level spending information on service delivery. In addition, the Vulekamali online portal serves as a transparent, user-friendly source of information that includes supplementary detailed data as contained in the ENE publications. The portal is a valuable resource for anyone to learn about how government compiles its budget and spends public funds.

The Open Budget Survey, which is published biannually by the International Budget Partnership, assesses and ranks countries based on the availability of 8 key budget documents and the comprehensiveness of the data presented in these documents. In the latest survey, published in 2017, South Africa ranked joint first out of 102 countries with a score of 89 per cent. The next survey is expected to be published in 2020/21 and hopefully South Africa will retain that first position.

All information presented in the ENE publications and Vulekamali promotes a culture of public engagement, accountability in state institutions, and the appropriate spending of public funds to achieve the outcomes as envisaged in the National Development Plan.

A special thanks is extended to all contributors and government colleagues who assisted in making this possible, especially the political leadership shown by the executive and the spirited efforts of the National Treasury team.

# Introduction

## Estimates of National Expenditure publications

Estimates of National Expenditure (ENE) publications describe in detail government's expenditure plans over the next three financial years, also known as the medium-term expenditure framework (MTEF) period. The 2020 MTEF period is from 2020/21 to 2022/23.

The ENE publications contain detailed information regarding the allocations set out in the Appropriation Bill, for the current financial year. Government's proposed spending plans for the full MTEF period, are shown. Information on how government institutions have spent their budgets in previous years is also included. Explanations are provided on how institutions intend to use their allocations over the medium term to achieve their goals, and the outputs and outcomes to which their spending is expected to lead. Tables present non-financial performance indicators and targets, departmental receipts, and detailed expenditure trends and estimates by programme, subprogramme and economic classification, and programme personnel data tables for each vote and all entities. Brief explanatory narratives set out the institution's purpose (and that of its programmes), mandate, programme-level objectives and descriptions of subprogrammes. An in-depth narrative analyses the institution's expected expenditure over the MTEF period.

Additional data tables containing information on provincial and municipal conditional grants, public-private partnerships, donor funding, infrastructure spending and information at the level of site service delivery, where applicable, are available on the National Treasury website and the Vulekamali online portal.

A separate 2020 ENE Overview publication is also available on the National Treasury website and summarises the ENE information across all votes. The 2020 ENE Overview contains a narrative explanation and budget-wide summary tables; and it also has a write-up on how to interpret the information that is contained in each section of the publications.

*The Estimates of National Expenditure e-publications for individual votes are available at [www.treasury.gov.za](http://www.treasury.gov.za). These publications provide more comprehensive coverage of vote-specific information, particularly about transfers and subsidies, personnel and other public institutions. Additional tables in Excel format can be found at [www.treasury.gov.za](http://www.treasury.gov.za) and [www.vulekamali.gov.za](http://www.vulekamali.gov.za).*

### Vote purpose

*Facilitate a common programme towards the achievement of the electoral mandate and the enhanced integrity of the state through considered planning, coordination, oversight, mobilisation and support.*

### Mandate

The mandate of the Presidency is to ensure that the president is able to execute his constitutional responsibilities in leading and galvanising the whole of government and society to implement the electoral mandate.

### Selected performance indicators

Table 1.1 Performance indicators by programme and related priority

Indicator	Programme	MTSF priority	Past			Current	Projections			
			2016/17	2017/18	2018/19		2019/20	2020/21	2021/22	2022/23

## Expenditure analysis

Chapter 1 of the National Development Plan (NDP) sets out a vision for increased government integration towards developing policy in a complex domestic and international environment. Priority 6 (a capable, ethical and developmental state) and priority 7 (a better Africa and world) of government's 2019-2024 medium-term strategic framework, with which the work of the Presidency is closely aligned, support this vision. Broadly, the department oversees the implementation of the administration's electoral mandate, the NDP and government's 2019-2024 medium-term strategic framework. Accordingly, over the medium term, the department intends to focus on: promoting an integrated approach to governance and service delivery; operationalising the e-Cabinet system; supporting the implementation of the district development model; leading the coordination of government policies and programmes; supporting initiatives that promote nation building and social cohesion; and advancing South Africa's interests in the international arena.

Compensation of employee's expenditure is expected to increase at an average annual rate of 6.2 per cent, from R368.1 million in 2019/20 to R440.6 million in 2022/23, mainly due to the establishment of the *Policy and Research Services* programme within the department. Spending on compensation of employees accounts for an estimated 60.9 per cent (R1.3 billion) of the department's total expenditure over the MTEF period.

### **Promoting an integrated approach to governance and service delivery**

The department's core function is to strengthen coordination among all national departments to ensure that their policies align with national priorities. This requires the department to provide training or briefing sessions on Cabinet decision-making processes for relevant officials in ministerial offices and offices of directors-general. To ensure greater coordination between national departments, the department plans to implement an integrated approach to governance and service delivery. This will entail measures such as providing administrative support to 74 meetings of the forum of South African directors-general and 67 Cabinet meetings and its committees per year over the medium term. Expenditure related to promoting this approach is expected to be R18.9 million over the medium term in the *Cabinet Services* subprogramme.

### **Operationalising the e-Cabinet system**

The e-Cabinet system is a tool to streamline Cabinet's decision-making processes and ensure that an integrated approach to governance is adopted. The system provides a collaborative platform for members of the executive, heads of department and executive support staff to share, manage and store information securely. To regularise the use of the system, the e-Cabinet user application policy and the e-Cabinet security policy are expected to be adopted in 2020/21, and the department plans to monitor the implementation of the system by compiling quarterly progress reports. Expenditure relating to the e-Cabinet system is included in the budget of R177.4 million over the medium term in the *Cabinet Services* subprogramme in the *Executive Support* programme. Expenditure in this subprogramme is expected to increase at an average annual rate of 6.5 per cent, from R49.7 million in 2019/20 to R60.1 million in 2022/23.

### **Supporting the implementation of the district development model**

The district development model, which is informed by the provisions of the Intergovernmental Relations Framework Act (2005), presents an opportunity to reconfigure integrated planning responsibilities and institutional arrangements. Improving governance and service delivery at the provincial and local government levels requires oversight from the department at the national level. Additionally, national departments review decision-making structures that affect frontline service delivery by improving integrated planning across government. Accordingly, over the MTEF period, the department will provide leadership support for the conceptualisation and design of the district development model and oversee its implementation. To ensure effective leadership support and implementation, the department will work with various stakeholders to ensure: collaboration between the three spheres of government and social partners in the private sector, civil society and labour organisations; the coordinated and effective implementation of commitments; and the proper integration and logical sequencing of projects and programmes. Expenditure relating to the implementation of the district development model is expected to be R8 million over the medium term in the *Support Services to the President* subprogramme.

### **Leading the coordination of government policies and programmes**

The Presidency seeks to promote good governance by ensuring greater policy coordination across government. To improve this function, over the medium term, the department plans to build capacity in the *Policy and Research Services* programme. Activities in this new programme, which will be responsible for providing content and technical support to political principals in the department and Cabinet, include: ensuring the effectiveness of government policy and the accuracy of submissions on the approach and strategy of government policy; and advising the president, deputy president and Cabinet on interventions necessary to ensure more efficient and effective service delivery across government. To carry out these activities, the *Economy, Trade and Investment* subprogramme is allocated R44.7 million over the medium term.

Activities in the programme's *Socio Economic Impact Assessment System* subprogramme involve ensuring that government policies and legislation are evidence-based and coherent, and that associated costs and risks are proactively managed to ensure the implementation of the 7 priorities of government's 2019-2024 medium-term strategic framework. Spending on these activities is expected to amount to R26.2 million over the medium term. Total expenditure in the *Policy and Research Services* programme is expected to amount to R70.9 million, accounting for an estimated 3.6 per cent (R2.0 billion) of the department's total budget over the MTEF period.

### Promoting nation building and social cohesion

Over the period ahead, the department plans to continue supporting nation building and social cohesion, mainly through the president leading initiatives on national days, national orders and special events. The deputy president is expected to continue facilitating engagements between the department and social partners to strengthen the Moral Regeneration Movement, a civil society organisation mandated to promote collective activism on issues of moral renewal and nation building. In addition, to promote social cohesion, the deputy president will attend to government business in the National Assembly, chair the South African National AIDS Council, and lead government's anti-poverty programme and its efforts to fast-track land reform. Activities related to these initiatives are carried out in the *Support Services to the President* and *Support Services to the Deputy President* subprogrammes in the *Administration* programme. Allocations to these subprogrammes amount to R431.2 million over the MTEF period.

### Advancing South Africa's interests

The department's fundamental role in the international arena is to assist the president and deputy president in advancing South Africa's interests in the global community. Accordingly, over the medium term, the department plans to provide strategic and administrative support to state visits, unilateral, bilateral and multilateral meetings and summits. The department also plans to assist South Africa in fulfilling its obligations to the United Nations, the Brazil-Russia-India-China-South Africa group of countries, the G20, the Southern African Development Community, and peacekeeping missions. The Presidency will also support the president as he assumes his role as the African Union chairperson. Through its focus on strengthening South Africa's political and economic relations internationally, the department expects to create an enabling environment for trade and investment. To support these activities, R57.1 million is allocated over the medium term in the *Support Services to the President* and *Support Services to the Deputy President* subprogrammes.

## Programme 1: Administration

### Programme purpose

Provide strategic leadership, management and support services to the department.

### Objectives

- Strengthen the implementation of the strategic programme of political principals by providing technical and administrative support on an ongoing basis through:

- exercising political oversight of the implementation of government policies and programmes
- leading integrated planning and policy coherence in government to advance socioeconomic transformation and inclusion
- supporting the execution of the deputy president and ministers' programmes
- supporting interventions and participation engagements aimed at enhancing public accountability and integrated communication
- accelerating service delivery and economic development
- monitoring infrastructure projects
- supporting presidential working group structures and strategic partnerships
- promoting nation building and social cohesion.

## Subprogrammes

- *Management* provides leadership, strategic management and administrative support within the department.
- *Support Services to the President* provides strategic, executive and personal support services to the president in the execution of his constitutional responsibilities and in leading the work of government.
- *Support Services to the Deputy President* provides support to the deputy president in the execution of his delegated responsibilities towards the attainment of the electoral mandate and the department's mission.

## Programme 2: Executive Support

### Programme purpose

Provide strategic and administrative support to enable Cabinet to foster accountability and policy coherence through integrated planning, policy coordination, and the implementation of the strategic agenda of government.

### Objectives

- Provide policy advisory support to political principals to ensure policy coherence by implementing Cabinet programmes on an ongoing basis.
- Strengthen technical support provided to the president and other political principals in the department by:
  - participating in Cabinet structures on an ongoing basis
  - implementing the recommendations of the evaluation of coordinating structures to improve systems of governance and compliance for Cabinet and the forum of South African directors-general over the medium term.

## Subprogramme

- Cabinet Services* provides strategic and administrative support to allow Cabinet to foster accountability and policy coherence through integrated planning, policy coordination and the implementation of the strategic agenda of government.

## Programme 3: Policy and Research Service

### Programme purpose

Provide policy and research support to the president and deputy president in exercising their constitutional

mandate within the context of government priorities.

## Objectives

- Enhance governance, state capacity and service delivery defined in the 2020-2025 programme of action by:
  - producing quarterly progress reports on the content support provided by the programme to the structures chaired by the president and deputy president each year over the medium term
  - producing quarterly progress reports on intergovernmental mechanisms to unblock issues impeding service delivery in priority areas each year over the medium term
  - developing a register of policy research commissioned or funded across government by March 2021
  - developing the policy formulation standards and presenting them to the forum of South Africa directors-general by March 2021
  - reporting on the biannual socioeconomic impact assessments conducted over the medium term.

## Subprogrammes

- *Economy, Trade and Investment* promotes coherence between economic, trade and investment policies and programmes; oversees the work of the Infrastructure Fund, which is intended to pool government's infrastructure budget and leverage it to raise additional funds and attract skills from other public and private sources for infrastructure development.
- *Security and International Relations* facilitates and promotes policy coherence in the security and international relations sector.
- *Infrastructure and Budget Support* promotes policy coherence and budget support in government's strategic infrastructure programme.
- *Social Protection and Human Capital Development* promotes policy coherence in the social protection and human capital development sectors by identifying critical social transformation policies and programmes such as the national health and education systems, social cohesion, and comprehensive social security.
- *Intervention and Rapid Response* provides support to government interventions in areas experiencing crisis and distress, such as service delivery protests.
- *Governance and Institutional Development* promotes policy coherence within governance and institutional development by facilitating the strengthening of institutions responsible for service delivery.
- *Socio Economic Impact Assessment System* provides support on policy initiatives, legislation and regulations. The subprogramme conducts socioeconomic impact assessments and facilitates the strengthening of the socioeconomic impact assessment system.
