Estimates of National Expenditure

2020

**National Treasury
Republic of South Africa**

ISBN: 978-0-621-48100-6

RP: 18/2020

The 2020 Estimates of National Expenditure is compiled with the latest available information from departmental and other sources. Some of this information is unaudited or subject to revision.

The Estimates of National Expenditure e-publications for individual votes are available at www.treasury.gov.za. Compared to the abridged Estimates of National Expenditure publication, the e-publications for each vote contain more comprehensive coverage of all public entities, transfers and subsidies and information on programme specific personnel expenditure.

Foreword

The Estimates of National Expenditure (ENE) publications remain an integral part of the annual budgeting process. In light of the prevailing economic climate, which requires careful consideration around the management of public funds, it has become necessary to focus our efforts on reprioritising existing government resources to areas where the most value can be derived for the benefit of all South Africans. To alleviate fiscal pressures, reductions have been effected on the baseline budgets of departments and public entities. The budgets unpacked in this document reflect the outcome of a robust negotiation process, which was led by a committee of senior officials in central government departments under the political guidance of the Ministers' Committee on the Budget. There was also wide-ranging intergovernmental consultation on budgets in the provincial and local spheres of government. Ultimately, the budgetary proposals emanating from these negotiations and consultations were considered and approved by Cabinet.

The abridged ENE provides a comprehensive account of the priorities, spending plans and service delivery commitments of the 41 national government votes, and for selected public entities. The e-publications for each vote, which are available on National Treasury's website, contain further details on goods and services, transfers and subsidies, other public entities, and lower-level spending information on service delivery. In addition, the Vulekamali online portal serves as a transparent, user-friendly source of information that includes supplementary detailed data as contained in the ENE publications. The portal is a valuable resource for anyone to learn about how government compiles its budget and spends public funds.

The Open Budget Survey, which is published biannually by the International Budget Partnership, assesses and ranks countries based on the availability of 8 key budget documents and the comprehensiveness of the data presented in these documents. In the latest survey, published in 2017, South Africa ranked joint first out of 102 countries with a score of 89 per cent. The next survey is expected to be published in 2020/21 and hopefully South Africa will retain that first position.

All information presented in the ENE publications and Vulekamali promotes a culture of public engagement, accountability in state institutions, and the appropriate spending of public funds to achieve the outcomes as envisaged in the National Development Plan.

A special thanks is extended to all contributors and government colleagues who assisted in making this possible, especially the political leadership shown by the executive and the spirited efforts of the National Treasury team.

Dondo Mogajane
Director-General: National Treasury

Introduction

Estimates of National Expenditure publications

Estimates of National Expenditure (ENE) publications describe in detail government's expenditure plans over the next three financial years, also known as the medium-term expenditure framework (MTEF) period. The 2020 MTEF period is from 2020/21 to 2022/23.

The ENE publications contain detailed information regarding the allocations set out in the Appropriation Bill, for the current financial year. Government's proposed spending plans for the full MTEF period, are shown. Information on how government institutions have spent their budgets in previous years is also included. Explanations are provided on how institutions intend to use their allocations over the medium term to achieve their goals, and the outputs and outcomes to which their spending is expected to lead. Tables present non-financial performance indicators and targets, departmental receipts, and detailed expenditure trends and estimates by programme, subprogramme and economic classification, and programme personnel data tables for each vote and all entities. Brief explanatory narratives set out the institution's purpose (and that of its programmes), mandate, programme-level objectives and descriptions of subprogrammes. An in-depth narrative analyses the institution's expected expenditure over the MTEF period.

Additional data tables containing information on provincial and municipal conditional grants, public-private partnerships, donor funding, infrastructure spending and information at the level of site service delivery, where applicable, are available on the National Treasury website and the Vulekamali online portal.

A separate 2020 ENE Overview publication is also available on the National Treasury website and summarises the ENE information across all votes. The 2020 ENE Overview contains a narrative explanation and budget-wide summary tables; and it also has a write-up on how to interpret the information that is contained in each section of the publications.

The Estimates of National Expenditure e-publications for individual votes are available at www.treasury.gov.za. These publications provide more comprehensive coverage of vote-specific information, particularly about transfers and subsidies, personnel and other public institutions. Additional tables in Excel format can be found at www.treasury.gov.za and www.vulekamali.gov.za.

Vote purpose

Prevent, combat and investigate crime; maintain public order; protect and secure the inhabitants of South Africa and their property; and uphold and enforce the law.

Mandate

The South African Police Service derives its powers and functions from section 205 of the Constitution and from the South African Police Service Act (1995). This legislation regulates the police service in terms of its core functions, which are to prevent, investigate and combat crime; maintain public order; protect and secure the inhabitants of South Africa and their property; and uphold and enforce the law.

1. No historical data available.

2. The positive sign (+) before the percentage represents an increase in the number of crimes reported.

Expenditure analysis

Chapter 12 of the National Development Plan outlines a vision to build safer communities through demilitarising and professionalising the police service, and adopting an integrated and holistic approach to safety and security in South Africa. This vision is given expression by priority 5 (social cohesion and safe communities) of government's 2019-2024 medium-term strategic framework, with which the work of the Department of Police is aligned. Accordingly, over the medium term, the department will focus on: strengthening safety in communities through community policing forums; reducing violent crime, specifically those committed against women and children; employing the stabilisation and normalisation approaches to fighting crime; and improving capacity for specialised investigations.

Expenditure is expected to increase at an average annual rate of 5.2 per cent, from R96.7 billion in 2019/20 to R112.7 billion in 2022/23. As policing is labour intensive, spending on compensation of employees accounts for 79.7 per cent (R257.9 billion) of the department's total expenditure over the medium term. The department's budget for compensation of employees was reduced by R2.6 billion over the MTEF period. Of this, R1 billion was due to a technical downward adjustment to align the rate of increase in spending on compensation of employees with the revised rate of inflation.

The remaining R1.6 billion represents estimated savings to be derived from implementing early retirement without penalisation of pension benefits for employees whose applications will be submitted for approval by the Minister of Police in terms of section 16(6) of the Public Service Act (1994). In 2019/20, the department received more than 3 000 applications from staff seeking early retirement. As a result, the department's funded establishment is expected to decrease from 192 412 posts in 2019/20 to 187 433 posts in 2022/23. To provide for pension benefits in line with section 16(6), R500 million is allocated to the department over the medium term for the payment of costs related to early retirement such as capped leave of more than 160 days and the medical subsidy.

Excluding the reductions on compensation of employees, Cabinet has approved further baseline reductions on the department's budget amounting to R2.9 billion over the medium term. These reductions will mainly be on

goods and services to align the department's budget with government's overall expenditure ceiling. To minimise the effect on service delivery, some of these reductions will be on non-core goods and services items such as communications, minor assets and consumables such as stationery and office supplies. In addition, R2.8 billion has been reprioritised over the MTEF period from funds previously allocated to the department for the implementation of the criminal justice system seven-point plan. These funds have been shifted to other departments in the justice, crime prevention and security cluster, and will form part of implementing the broader integrated criminal justice strategy.

Strengthening safety in communities

The safe cities framework, which will be finalised in 2020/21, provides an overarching strategy for adopting a collaborative approach to strengthening safety and security in South Africa. The department has recognised that functioning community policing forums are central to the successful implementation of the framework. This is because these forums provide a critical interface between the police at the local level and the communities they serve. By the end of 2018/19, there were 1 144 out of 1 149 (99.56 per cent) functioning community policing forums across South Africa. Over the medium term, the department will ensure that at least 99.56 per cent of all community policing forums remain functioning to facilitate the successful implementation of the safe cities framework. All activities related to finalising and implementing the framework are carried out in the *Crime Prevention* subprogramme in the *Visible Policing* programme, which is allocated R129.3 billion over the MTEF period.

Reducing violent crime, specifically those committed against women and children

Government's 2019-2024 medium-term strategic framework sets out objectives towards a 50 per cent reduction in the number of violent crimes reported in South Africa in the next 10 years. These objectives relate to reducing violence against women and children, among other things. Accordingly, targets set out in government's 2019-2024 medium-term strategic framework reflect reductions of 6.7 per cent per year over the next 10 years in reported contact crimes and crimes against women and children. Effectively combating these crimes requires adopting an integrated approach that involves all sectors of society, including key business industries, supported by an effective criminal justice system that delivers quality and professional services. To prioritise alignment with and the implementation of the integrated criminal justice strategy, including for supporting interventions related to combating violent crime and crimes against women and children, R1.3 billion is allocated over the MTEF period in the *Detective Services* programme. As such, detection rates for all contact crimes are expected to increase from 50.58 per cent in 2018/19 to 56.07 per cent in 2022/23; detection rates for crimes against women are expected to increase from 73.81 per cent in 2018/19 to 75.35 per cent in 2022/23; and detection rates for crimes against children are expected to increase from 69.19 per cent in 2018/19 to 70.20 per cent in 2022/23.

Employing the stabilisation and normalisation approaches to fighting crime

Crime manifests in various forms and is largely influenced by geography, which necessitates 2 distinct yet interrelated tactical policing approaches: the stabilisation approach, which is immediate in nature and focuses on the removal of immediate threats in identified high-crime areas and hotspots; and the normalisation approach, which is gradual in nature and addresses the root causes of crime within predetermined timeframes. The stabilisation approach is supported by specific national crime prevention operations such as Operation Fielde Reclaim II, while the normalisation approach entails the implementation of ongoing policing and law enforcement strategies. Over the medium term, the department will focus on adopting the stabilising and normalising approaches in the 30 police stations across South Africa with the highest crime rates, or those that are identified as hotspots. To facilitate their transition from stabilisation to normalisation over the medium term, the department will ensure that focused crime prevention interventions are implemented in these police stations. To fund all visible policing activities in the police service across South Africa, including those related to the successful implementation of the stabilisation and normalisation approaches, R166.2 billion is allocated over the MTEF period in the *Visible Policing* programme, which is supported by more than 99 000 personnel.

Improving capacity for specialised investigations

The increase in cases involving serious corruption and commercial crime over the past few years, and the constant threat to safety and security posed by crimes against the state, requires that the Directorate for Priority Crime Investigation has sufficient capacity to effectively respond to these crimes. Accordingly, R985 million is reprioritised over the MTEF period from funds previously allocated to the *Detective Services* programme for functions related to the criminal justice system seven-point plan. These funds will be reprioritised to spending on compensation of employees in the *Specialised Investigations* subprogramme in the same programme. The funds will enable the Directorate for Priority Crime Investigation to appoint approximately 800 additional investigators over the medium term. By the end of September 2019, the directorate had approximately 19 000 cases for investigation, of which some were backlog cases from previous years that could not be finalised due to a lack of capacity. With the appointment of the additional investigators over the period ahead, the department expects to clear this backlog and maintain a conviction rate of 70 per cent in respect of cases relating to serious fraud and corruption in the public and private sectors.

Programme 2: Visible Policing**Programme purpose**

Enable police stations to institute and preserve safety and security, and provide for specialised interventions and the policing of South Africa's borders.

Objectives

- Provide a proactive and responsive policing service to discourage and prevent violent crime by reducing the number of contact crimes and crimes against women and children reported by 6.7 per cent per year over the medium term through the implementation of priorities and interventions aligned with the integrated criminal justice strategy.
- Strengthen safety and security in urban and rural communities across the country by ensuring that at least 99.56 per cent of community policing forums are functioning over the medium term.

Subprogrammes

- Crime Prevention* provides for basic crime prevention and visible policing services at police stations and community service centres.
- Border Security* provides for the policing of South Africa's borders.
- Specialised Interventions* provides for interventions in medium-risk to high-risk operations, including the air wing, the special task force and crime combating units; and the protection of valuable and dangerous cargo.
- Facilities* provides for office accommodation budgets and related expenditure devolved to the department by the Department of Public Works and Infrastructure.

Programme 3: Detective Services

Programme purpose

Enable the investigative work of the South African Police Service, including providing support to investigators in terms of forensic evidence and criminal records.

Objectives

- Contribute to the successful prosecution of offenders by:
 - increasing the detection rate for contact crimes from 50.58 per cent in 2018/19 to 56.07 per cent in 2022/23
 - increasing the detection rate for crimes against women from 73.81 per cent in 2018/19 to 75.35 per cent in 2022/23
 - increasing the detection rate for crimes against children from 69.19 per cent in 2018/19 to 70.20 per cent in 2022/23
 - generating 95 per cent of original previous conviction reports for formally charged individuals within 15 calendar days over the medium term.

Subprogrammes

- Crime Investigations* provides for detectives at police stations who investigate crimes, including crimes against women and children.
- Criminal Record Centre* provides for effective and credible criminal record centres in respect of crime scene management or processing, and provides criminal records and related information.

- *Forensic Science Laboratory* funds forensic science laboratories, which provide specialised, evidence-related technical analysis and support to investigators.
- *Specialised Investigations* provides for the prevention, combating and investigation of national priority offences, including the investigation of organised crime syndicates, serious and violent crime, commercial crime, and corruption.

Programme 4: Crime Intelligence

Programme purpose

Manage crime intelligence and analyse crime information, and provide technical support for investigations and crime prevention operations.

Objective

- Contribute to combating crime on an ongoing basis by ensuring that 100 per cent of network operations are successfully terminated over the medium term in support of crime prevention, investigation and prosecution.

Subprogrammes

- Crime Intelligence Operations* provides for intelligence-based criminal investigations.
- Intelligence and Information Management* provides for the analysis of crime intelligence patterns that will facilitate crime detection in support of crime prevention and crime investigation.

Programme 5: Protection and Security Services

Programme purpose

Provide protection and security services to all identified dignitaries and government interests.

Objectives

- Minimise security violations on an ongoing basis by:
 - protecting all identified local and foreign dignitaries while in transit, without any security breaches
 - protecting the locations in which dignitaries, including persons related to the president and deputy president, are present, without security breaches.

Subprogrammes

- VIP Protection Services* provides for the protection of the president, deputy president, former presidents, their spouses, and other identified dignitaries while in transit.

- *Static Protection* provides for the protection of other local and foreign dignitaries and the places in which all dignitaries, including persons related to the president and deputy president, are present.
- *Government Security Regulator* provides for security regulations and evaluations, the administration of national key points, and strategic installations.
- *Operational Support* provides administrative support to the programme, including personnel development.

Entity overview

The Private Security Industry Regulatory Authority was established in terms of section 2 of the Private Security Industry Regulation Act (2001), which replaced the Security Officers Act (1987). The authority is mandated to regulate the private security industry, and exercise control over the practice of the occupation of security service providers in the public and national interest, as well as in the interest of the private security industry itself. Over the medium term, the authority will continue to focus on enforcing compliance with the Private Security Industry Regulation Act (2001) by increasing the number of security businesses and security officers it inspects, and explore new revenue-generation models informed by the Private Security Industry Levies Act (2002).

Expenditure is expected to increase at an average annual rate of 8.9 per cent, from R291.5 million in 2019/20 to R376.1 million in 2022/23. Spending on compensation of employees accounts for 58.1 per cent (R613.3 million) of the authority's total expenditure over the MTEF period. Revenue is in line with spending, and also increases at an average annual rate of 8.9 per cent, from R291.5 million in 2019/20 to R376.1 million in 2022/23. The authority expects to generate 70.4 per cent (R735.2 million) of its revenue over the medium term from the collection of annual fees and registration fees from private security businesses and security officers. Remaining revenue is expected to be generated from the sale of renewal certificates, the training of security officers and training accreditation fees collected from training providers, among other things.
