### **Changes to indicators and targets published in the 2011 ENE**

As the department has held more policy platforms, social dialogue and capacity building engagements than originally anticipated, the projection for 2011/12 has been revised from 10 to 20.

### **Mid-year progress**

The Economic Development Department held its inaugural economic development conference in May 2011 to deliberate on the key aspects of government's new growth path. The conference was attended by key government policymakers and stakeholders: academia, industry leaders, labour movements and civil society organisations. The conference set a standard for rigorous and well informed engagement.

In June 2011, the department participated in the Southern African Development Community (SADC) East African Community Common Market for Eastern and Southern Africa Tripartite Summit, where discussions on the establishment of a tripartite free trade agreement were held. In July 2011, the department hosted a conference on ownership, class and inequality with the Friedrich Ebert Stiftung Foundation and the Studies in Poverty and Inequality Institute in July 2011.

In conjunction with the Department of Performance Monitoring and Evaluation and the International Labour Organisation, the department developed frameworks for employment impact reporting by provinces and national clusters and submitted a report on employment to the July 2011 Cabinet Lekgotla.

The department engaged provincial and local government to align provincial growth and development strategies and integrated development plans with the new growth path. The department supported the deputy president's anti-poverty visits and has been developing and reviewing spatial plans for the municipalities of King Sabata Dalindyebo (Eastern Cape), Lekwa (Mpumalanga), Atlantis (Western Cape) and Matzikama (Western Cape).

In the first half of 2011/12, the department led two social dialogue engagements on the new growth path. At the July meeting, the National Skills Accord and the National Accord on Basic Education were signed. The forum is deliberating on further accords and is working on drafts on enterprise development, the green economy and local procurement.

The department continues to implement the framework for South Africa's response to the international economic crisis. To date, the Distress Fund has committed approximately R3.900 billion to 98 companies, saving and/or creating 35 846 jobs nationally. The number of workers benefiting from the training layoff scheme has increased to 8 054 and a total of R64.900 million was allocated to 35 companies.

The department has engaged with the six agencies reporting to it to review their performance and align their work with government's policy objectives, including the new growth path and the envisaged activities of the merged small business financing entity. The merged entity will expand on the existing mandates of Khula Enterprise Finance, the South African Micro-finance Apex Fund and the Industrial Development Corporation's small business portfolio. In preparation for the proposed merger, the technical due diligence and a risk assessment report were concluded. A draft business case for the merged entity has been prepared for further consultation and review by stakeholders.

The department continues to make a strong contribution towards the greening of the economy. It is the lead department on the task team to implement government's commitment to install 1 million solar water heaters by 2014/15. The department is also a major contributor to the Department of Trade and Industry's work on biofuels and is participating in the preparations for the 17th Conference of the Parties to the United Nations Framework Convention on Climate Change (COP 17) to be hosted by South Africa in November 2011.

## Main expenditure trends for the first half of 2011/12

Total expenditure for 2010/11 was 89.1 per cent of the 2010/11 adjusted appropriation. Expenditure in the first six months of 2011/12 was R265.871 million, or 44.4 per cent of the adjusted appropriation of R598.359 million for the year as a whole. In comparison, mid-year expenditure in 2010/11 was R171.003 million, or 38 per cent of the 2010/11 adjusted appropriation. Expenditure in the first six months of 2011/12 increased by R94.868 million or 55.5 per cent, compared to expenditure in the first six months of 2010/11.

The main expenditure increase compared to 2010/11 is due to an increase in transfer payments and salaries to support a growing staff complement.

## Main departmental revenue trends for the first half of 2010/11

Departmental revenue collection in the first six months of 2011/12 was R204.906 million, or 84 per cent of the adjusted revenue estimate of R243.800 million for the year as a whole. In comparison, mid-year revenue collection in 2010/11 was R67.659 million, or 29.4 per cent of the 2010/11 adjusted estimate. Departmental revenue collection in the first six months of 2011/12 increased by R137.247 million or 202.9 per cent, compared to revenue in the first six months of 2010/11.

The main revenue increase compared to 2010/11 is due to an increase in revenue from penalties instituted by the Competition Commission against non-compliant companies and dividends paid by the Industrial Development Corporation to government, its sole shareholder.
