2. The employment and earnings indicator has been combined with the labour market dynamics indicator.

Mid-year progress

The *Economic Statistics* programme published 112 of the 219 statistical releases as scheduled in the first six months of 2015/16. Statistical information was published on 10 industries of the economy and included the quarterly GDP, industry and trade statistics, price statistics and financial statistics on the public and private sectors. The remaining releases and annual reports are on track to be published in the third and fourth quarter of 2015/16.

The *Population and Social Statistics* programme had published 13 releases by the end of September 2015. The publications included 4 statistical releases on labour market dynamics; 2 releases on living circumstances, service delivery and poverty; and 7 releases on the changing profile of the population.

Expenditure trends for the first half of 2015/16

Total expenditure in 2014/15 was 96.2 per cent of the 2014/15 adjusted appropriation. Expenditure in the first six months of 2015/16 was R1 billion, or 44.4 per cent of the adjusted appropriation of R2.3 billion for the year. In comparison, mid-year expenditure in 2014/15 was R872 million, or 38.9 per cent of the 2014/15 adjusted appropriation. Compared to the first six months of 2014/15, expenditure over the same period in 2015/16 increased by R160.6 million, or 18.4 per cent. This was mainly due to the living conditions survey that is scheduled to be completed by the end of October 2015, and the construction of the new head office accommodation that is scheduled to be completed in June 2016.

Revenue trends for the first half of 2015/16

Revenue in the first six months of 2015/16 was R2.4 million, or 80.8 per cent of the adjusted revenue estimate of R2.9 million for the year. In comparison, mid-year revenue in 2014/15 was R4 million, or 82.8 per cent of the 2014/15 adjusted estimate. Compared to the first six months of 2014/15, revenue over the same period in 2015/16 decreased by R1.7 million, or 41.5 per cent. This was mainly due to the decrease in financial transactions in assets and liabilities for a reversal of official vehicle expenditure related to 2014/15.
