## Expenditure overview

The department's primary objective is to develop, transform, preserve, protect and promote sport, arts and culture at all levels of participation to foster an active, creative, winning, socially cohesive and unified nation. Over the MTEF period, the department will focus on: fostering a diverse and socially cohesive society with a unified national identity; increasing the economic impact of the sport, recreation, arts, culture and heritage sectors; ensuring access to sport, recreation, arts, culture and heritage infrastructure and information; advancing transformed, capable and professional sectors while promoting governance that is compliant and responsive at the national and international levels; and maintaining heritage assets.

Expenditure is projected to increase at an average annual rate of 2.2 per cent, from R6.1 billion in 2024/25 to R6.5 billion in 2027/28. Cabinet has approved increases to the department's baseline of R350 million in 2025/26 for the creative industries stimulus, a programme of the presidential employment initiative; R3.8 million in 2025/26, R4 million in 2026/27 and R4.2 million in 2027/28 to cover cost-of-living adjustments for public servants; and R6.5 million in 2025/26, R7 million in 2026/27 and R7.4 million in 2027/28 to cover cost-of-living adjustments for personnel paid from the *community library services grant* and the *mass participation and sport development grant*. The department's total budget amounts to R19.1 billion over the next 3 years, with transfers and subsidies accounting for an estimated 80.9 per cent (R15.5 billion) of spending over this period. An estimated 7.1 per cent (R1.4 billion) is allocated to compensation of employees.

R36 million in 2025/26 is reprioritised to cover costs related to South Africa's G20 presidency, including hosting 3 cultural working group meetings, the ministerial meeting and the G20 summit cultural performance.

### ***Promoting social cohesion and facilitating nation building***

Activities in the *Social Cohesion and Nation Building* subprogramme in the *Arts and Culture Promotion and Development* programme are carried out to coordinate the department's involvement in promoting social cohesion and advancing South Africa's ongoing nation building programme. As such, over the period ahead, R14.2 million is allocated for hosting 60 advocacy platforms and facilitating 45 community conversations, R14.1 million is allocated for supporting 15 Moral Regeneration Movement projects and R83.3 million is allocated for commemorating 18 national days.

### ***Creating job opportunities in the cultural and creative industries***

Over the period ahead, the *Cultural and Creative Industries Development* subprogramme in the *Arts and Culture Promotion and Development* programme is allocated R418.8 million to facilitate access to local and international markets. In 2025/26, activities in the subprogramme will be directed at: facilitating access to local and international markets for 34 projects at a projected cost of R32 million; assisting 16 cultural and creative industry bodies to form boards that will support programmes for their respective disciplines at a projected cost of R32 million; and supporting 4 transformative programmes focused on women, young people and people with disabilities through an allocation of R24 million.

The Mzansi golden economy programme unlocks the potential for economic growth by exposing creative products to markets and audiences to promote artists and create access to opportunities. Over the MTEF period, it aims to support 16 creative industry projects to improve access to finance and investment, fund 33 capacity-building projects and develop 13 innovation hubs for product development at a projected cost of R229 million in the *Mzansi Golden Economy* subprogramme in the *Arts and Culture Promotion and Development* programme. Allocations to the subprogramme are set to decrease at an average annual rate of 19.5 per cent, from R578.1 million in 2024/25 to R301.5 million in 2027/28, as a result of allocations in 2024/25 and 2025/26 for the presidential employment initiative. A significant portion of the subprogramme's total allocation of R1.2 billion over the medium term will be channelled into creating 10 000 job opportunities in the cultural and creative industries sector by March 2026 through Mzansi golden economy workstreams and cultural development programmes. An additional 3 000 job opportunities are expected to be created through an allocation of R54.8 million in the *Cultural and Creative Industries Development* subprogramme. The allocation of R350 million in 2025/26 for the creative industries stimulus is expected to lead to the creation of a further 25 000 jobs.

### ***Developing and promoting sport and recreation***

Sport has the power to unite diverse groups and foster a socially cohesive society with a shared national identity. In support of this, the *Recreation Development and Sport Promotion* programme receives 21.2 per cent (R4.1 billion) of the department's budget over the medium term, of which R1 billion is allocated to the *Infrastructure Support* subprogramme and R2 billion to the *mass participation and sport development grant*.

The grant will fund programmes related to school sport and club development over the MTEF period by providing equipment and/or attire to a targeted 10 500 hubs, clubs or schools to enable participation in sport and/or recreation, supporting 401 community sport and active recreation programmes, and supporting 9 athlete development programmes through provincial sport academies. The grant also enables provincial departments to support top athletes and develop talent. Key allocations in 2025/26 include R53.5 million to support 208 school sport programmes at the district level, R72 million to enable 5 000 learners to participate in the national school sport championships, R47.8 million for 126 organised community-based sport and recreation activities, and R83.9 million to provide sports equipment and/or attire to 3 500 hubs, clubs or schools. To enhance shared public spaces, R24 million in grant funding over the period ahead is allocated for constructing 30 community outdoor gyms and children's play parks.

To promote active lifestyles and lifelong participation in sport and recreation, the department also plans to implement 5 national sport and recreation events per year over the MTEF period (Move4Health, Nelson Mandela Sport and Culture Day, the Indigenous Games Festival, the Big Walk and National Recreation Day) through the *Active Nation* subprogramme's allocation of R96.8 million.

## Transforming and building capacity in the sport, arts and culture sectors

The department remains committed to upskilling and transforming the sport, arts and culture sectors. As part of the R98.5 million allocated to an estimated 50 compliant national sport federations through the *Winning Nation* subprogramme in the *Recreation Development and Sport Promotion* programme, the department will ensure the implementation of findings and recommendations from the eminent persons group report on transformation in sport.

Non-profit organisations will also be supported for programmes that focus on building capacity, such as skills-development initiatives to promote the socioeconomic empowerment of children, people with disabilities, older people and women. For this purpose, R36.1 million is set aside over the MTEF period in the *Social Cohesion and Nation Building* subprogramme in the *Arts and Culture Promotion and Development* programme.

## Maintaining heritage assets

The *Heritage Promotion and Preservation* programme receives 45.6 per cent (R8.8 billion) of the department's budget over the medium term. Key allocations include R5.2 billion for the *community library services grant*, funded through the *Public Library Services* subprogramme, and R2.2 billion for museum operations, funded through the *Heritage Institutions* subprogramme. To expand access to knowledge and information, the department plans to complete building 54 libraries over the next 3 years at an estimated cost of R584.6 million. This will be finalised before the *community library services grant* transitions to the provincial equitable share in 2027/28.

#### Entity overview

Boxing South Africa was established in terms of the Boxing Act (2001), which mandates the entity to administer professional boxing; recognise amateur boxing; create and ensure synergy between professional and amateur boxing; and promote engagement and interaction between associations of boxers, managers, promoters and trainers.

Over the medium term, the entity will continue to focus on contributing to nation building, healthy lifestyles and social cohesion by promoting participation in boxing, especially among young people and women; strengthening the boxing regulatory environment; and ensuring the effective administration of the sport. In 2025/26, it aims to license 80 women boxers, train and develop 250 licensees, inspect 60 tournament venues and license 1 000 boxing practitioners at a projected cost of R23.9 million. Total expenditure over the period ahead is set to amount to R74.8 million.

The entity is set to receive 86.8 per cent (R64.9 million) of its revenue over the MTEF period through transfers from the department, increasing at an average annual rate of 4.2 per cent, and generate the remainder through fees for the sanctioning of boxing tournaments. Revenue and spending are expected to increase at an average annual rate of 4.3 per cent, from R23 million in 2024/25 to R26 million in 2027/28.

### Entity overview

The following heritage institutions were established in terms of the Cultural Institutions Act (1998) and derive their mandates from this act and the 1996 White Paper on Arts, Culture and Heritage: the Amazwi South African Museum of Literature, Die Afrikaanse Taalmuseum en -monument, Ditsong Museums of South Africa, Iziko Museums of South Africa, Freedom Park, the KwaZulu-Natal Museum, the Luthuli Museum, the National Museum, the Nelson Mandela Museum, the Robben Island Museum, the War Museum of the Boer Republics, the William Humphreys Art Gallery and the uMsunduzi Museum.

Heritage institutions will continue to focus on collecting, preserving, providing and promoting access to and awareness of South Africa's national heritage over the period ahead. This will mainly be done by hosting exhibitions as a means of encouraging educational and public outreach programmes and celebrating the diversity of the country's cultural and natural heritage. Over the next 3 years, heritage institutions plan to make the services offered by museums accessible to all by hosting 486 exhibitions and 192 302 school education outreach programmes to create awareness of museum services and celebrate the diversity of the country's cultural and natural heritage. To achieve these objectives, an estimated R1.2 billion over the medium term is allocated to the business development programme.

The institutions are set to receive 77.9 per cent (R3.3 billion) of their revenue over the period ahead through transfers from the department and the remainder through entrance fees, donor assistance and sponsorships. Revenue is set to increase in line with expenditure at an average annual rate of 9 per cent, from R1.1 billion in 2024/25 to R1.4 billion in 2027/28.

## Entity overview

The National Library of South Africa was established in terms of the National Library of South Africa Act (1998), which requires it to contribute to socioeconomic, cultural, educational, scientific and innovation development by collecting, recording and preserving the national documentary heritage, making it available and promoting an awareness and appreciation for it by fostering information literacy and facilitating access to the world's information resources. The South African Library for the Blind was established in terms of the South African Library for the Blind Act (1998) and is mandated to provide a national library and information services to blind and print-handicapped readers in South Africa.

In partnership with provincial library services, the National Library of South Africa is set to continue focusing on promoting a culture of reading, writing and literacy development by reprinting South African classics, hosting reading campaigns, and promoting and marketing the legal deposit of published documentary heritage. Expenditure for these activities is within an allocation of R11.6 million over the medium term through the *community library services grant*. The library also plans to digitise 139 000 heritage items and preserve and conserve 59 636 documentary heritage items over the period ahead, funded by allocations amounting to R85.7 million in the business development programme.

The South African Library for the Blind is funded through transfers from the department amounting to R117.8 million over the medium term. This is expected to enable it to produce 720 Braille book titles and 95 books for visually impaired people in alternative formats such as audio. These items will also be circulated for lending to the public. The library is allocated R33.5 million over the medium term through the *community library services grant* to manage the grant's monitoring and evaluation function, upgrade ICT infrastructure and software, support the establishment and maintenance of mini libraries in provinces, and promote a culture of reading among visually impaired people.

The libraries' total expenditure is set to increase at an average annual rate of 4.7 per cent, from R166.6 million in 2024/25 to R191 million in 2027/28. Transfers from the department account for 96.7 per cent (R563.3 million) of their revenue, increasing at an average annual rate of 4.8 per cent, from R170.5 million in 2024/25 to R196.1 million in 2027/28.

### Entity overview

The National Arts Council derives its mandate from the National Arts Council Act (1997), which requires it to provide and encourage the provision of opportunities for people to practise the arts, foster the expression of a national identity and consciousness through the arts, provide historically disadvantaged artists with additional resources to give them greater access to the arts, address historical imbalances in the provision of infrastructure for the promotion of the arts, develop and promote the arts, and encourage artistic excellence.

The council endeavours to serve as a catalyst for positive change in the culture sector. Its ongoing focus is on cultivating emerging talent, promoting provincial equity and accessibility to the arts, providing continued support for established artists, and enhancing the capabilities of artists and arts organisations. To this end, over the medium term, an estimated 43 per cent (R172.5 million) of the council's budget is allocated to marginalised provinces and for entering into 30 memorandums of understanding for block bursaries.

As part of the council's commitment to fostering an inclusive arts environment, it plans to support initiatives aimed at promoting diversity in artistic expression, representation and audience engagement. As such, over the medium term, it plans to provide support to 29 indigenous art forms at a projected cost of R10.2 million.

Expenditure is expected to increase at an average annual rate of 4.6 per cent, from R123.4 million in 2024/25 to

R141.1 million in 2027/28. Revenue is expected to increase at an average annual rate of 2.8 per cent, from R129.7 million in 2024/25 to R141.1 million in 2027/28. Cabinet has approved a baseline increase of R117 million in 2025/26 for the creative industries stimulus. ### Entity overview

The National Film and Video Foundation is governed in terms of the National Film and Video Foundation Act (1997), as amended by the Cultural Laws Amendment (2001). It is mandated to develop and promote the film and video industry in South Africa through the programmes it funds and carry out other enabling activities such as providing training to industry players, supporting and developing historically disadvantaged people in the audio-visual industry in line with South Africa's transformation agenda, increasing the number of people trained in scarce skills, and creating job opportunities in the film and video industry.

The foundation is focused on growing and developing the South African film industry while affording opportunities to historically marginalised and disadvantaged individuals to participate in it. As providing funding for content development in the film industry is at the core of the foundation's work, funding applications for feature films, documentaries, short films and television-format concepts are all considered.

Over the period ahead, the foundation plans to fund 105 South African films that are in development and 66 that are in production at an estimated cost of R204.3 million. In partnership with the Media Information and Communication Technologies Sector Education and Training Authority, over the medium term, the foundation plans to provide bursaries to 75 young people interested in studying film and provide 105 young people with opportunities to develop skills and empower themselves by gaining necessary workplace experience at an estimated cost of R54.9 million.

Cabinet has approved a baseline increase of R230 million in 2025/26 for the creative industries stimulus. As a result, expenditure and revenue are set to decrease at an average annual rate of 1.7 per cent, from R183.8 million in 2024/25 to R174.7 million in 2027/28. The foundation expects to receive 96.9 per cent (R712.5 million) of its revenue over the period ahead through transfers from the department and the remainder through interest.

## Entity overview

The National Heritage Council is a schedule 3A public entity established in terms of the National Heritage Council Act (1999) to preserve South African heritage as a priority for nation building and national identity. The council's focus over the period ahead will be on the pillars heritage conservation, cultural diplomacy, funding, advocacy,

education, development, transformation and strategic partnerships. Each of these represents a concerted effort to address longstanding challenges while leveraging emerging opportunities. The council is committed to expanding accessibility, promoting inclusivity and enhancing the visibility of heritage across communities.

The council will continue to preserve South Africa's living heritage and create awareness on cultural heritage and practices by funding community projects. It expects to distribute an estimated R20 million over the period ahead to at least 93 heritage projects through an open call for funding adjudicated by an independent panel. The council also plans to support 12 commemorative events over the MTEF period linked to the resistance and liberation heritage route at an estimated cost of R20 million, and 21 initiatives associated with living heritage at a projected cost of R10 million.

The council derives all of its revenue through transfers for the department. Expenditure and revenue are expected to increase at an average annual rate of 4 per cent, from R75.3 million in 2024/25 to R84.8 million in 2027/28.

### Entity overview

The Pan South African Language Board was established in terms of the Pan South African Language Board Act (1995) to develop South Africa's official languages, including the Khoi, Nama and San languages and South African Sign Language; promote multilingualism in South Africa; and investigate complaints about language rights and violations from any individual, organisation or institution.

The board plans to deliver 9 published dictionaries and complete 18 language-related stakeholder engagements each year over the medium term. Allocations to carry out this work are set to increase from R44.8 million in 2024/25 to R49.7 million in 2027/28. To develop dictionaries, transfer payments to the national lexicographical units will increase in line with inflation, from R28.3 million in 2024/25 to R32.1 million in 2027/28.

Total expenditure and revenue are expected to increase at an average annual rate of 5 per cent, from R130.4 million in 2024/25 to R150.8 million in 2027/28. The board is set to receive all of its revenue through transfers from the department, amounting to R431.7 million over the period ahead.

### Entity overview

Performing arts institutions are schedule 3A public entities established in terms of the Cultural Institutions Act (1998). They are mandated to advance, promote and preserve the performing arts in South Africa, enhance the contribution of arts and culture to the economy, create job opportunities and create initiatives that enhance nation building. The following institutions receive annual transfers from the department: Artscape, Cape Town; the Playhouse Company, Durban; the Market Theatre, Johannesburg; the Performing Arts Centre of the Free State, Bloemfontein; the South African State Theatre, Pretoria; and the Mandela Bay Theatre Complex, Gqeberha.

In making performing arts more accessible to the public, the institutions will, over the medium term, focus on staging 1 292 productions, organising 78 festivals and conducting 224 training and development programmes that represent South Africa's cultural diversity. In support of these targets, an estimated R217.2 million over the medium term is allocated to the business development programme and R129.8 million to the public engagement programme. Expenditure is expected to increase at an average annual rate of 1 per cent, from R556.9 million in 2024/25 to R573.9 million in 2027/28.

The institutions are set to receive 88.9 per cent (R1.4 billion) of their revenue over the period ahead through transfers from the department, which they will augment with the revenue they derive mainly from ticket sales, venue hire and investment income. Total revenue is expected to increase at an average annual rate of 1.7 per cent, from R526.3 million in 2024/25 to R553.9 million in 2027/28.

### Entity overview

The South African Heritage Resources Agency is a schedule 3A public entity established in terms of the National Heritage Resources Act (1999). It is mandated to formulate national principles, standards and policies for the identification, recording and management of the national estate in terms of which heritage resource authorities and other relevant bodies must function.

The agency focuses on coordinating the identification, management, promotion and preservation of the national estate. In doing so, it assesses and approves permits for the development of heritage sites and reviews heritage impact assessment reports submitted by property developers. Over the period ahead, the agency plans to assess and grade 15 heritage resources, declare 12 and monitor and inspect 90 heritage resources at a projected cost of R4.6 million.

Total expenditure and revenue are set to decrease at an average annual rate of 15.9 per cent, from R143.6 million in 2024/25 to R85.6 million in 2027/28. This is attributed to the use of the deferred capital allocation in 2024/25 for security upgrades and fencing off the agency's heritage facilities to address vandalism, the Delville Wood memorial project, and the procurement of a new office building. The agency is set to receive 93.8 per cent (R229.6 million) of its revenue over the MTEF period through transfers from the department.

### Entity overview

The South African Institute for Drug-Free Sport was established in terms of the South African Institute for Drug-Free Sport Act (1997), as amended in 2024. The institute is mandated to promote participation in sport that is free from the use of prohibited substances or methods intended to artificially enhance performance. It is the custodian of anti-doping and ethics in South African sport and actively collaborates with colleagues in the rest of Africa to keep sport clean.

Over the period ahead, the institute plans to conduct 6 000 urine drug tests on South African athletes, complete 900 blood test in the athlete biological passport project, conduct 300 erythropoietin tests and have 300 elite athletes in the registered testing pool. The institute has budgeted an estimated R41.7 million over the period ahead to carry out these activities. Expenditure is set to increase at an average annual rate of 0.7 per cent, from R36.1 million in 2024/25 to R36.9 million in 2027/28.

The institute expects to receive 91.2 per cent (R97.3 million) of its revenue over the period ahead through transfers from the department and the balance through services rendered. Revenue is expected to increase at an average annual rate of 3.3 per cent, from R33.5 million in 2024/25 to R36.9 million in 2027/28.
