MANAGEMENT SUPPORT PROGRAMMES

Section 155(6) of the Constitution read with section 105(1) Municipal Systems Act, 2000 obliges the MEC for Local Government to monitor municipalities and assess the support required for these municipalities to be strengthened for managing their own affairs, exercise their powers and functions

 $\tilde{\Box}$

and fulfill their executive obligations. The main focus areas with the Local Government Support Grant during the year under review were the following:

- To provide technical assistance to municipalities through Management Support Teams
- To implement projects that will have a positive impact on the cash flow of municipalities
- To provide limited financial assistance to Municipalities

The Management Support Grant received from the Department of Provincial and Local Government in two payments involving a total amount of R 26 450 000.00. It is envisaged that an amount of R 12 million will not be spend by 31 March 2003 but will have to be rolled over to 2003/2004 financial year due to commitments. An amount of R 13 452 497.16 was spend by 31 March 2002 with an amount of R 12 147 502.84 to be fully utilized in the 2002/2003 financial year.

(Act No. 1 of 2001) of which no funds have been spent to date. The District Municipalities are still in a process of implementing the activities approved for the 2001/2002 financial year and only thereafter the 2002/2003 activities will be implemented. An amount of R 4 720 433.38 with regard to 2001/2002 CMIP Capacity Building has been rolled over, as the funds have been committed towards the District Municipalities, Matjhabeng and Mangaung. Business plans have been approved at Provincial and National Level. The total amount to be spent at March 2003.

CONSOLIDATED MUNICIPAL INFRASTRUCTURE

The CMIP aims to provide at least a basic level of services to low income households. The Program is further aimed at contributing to other government strategies and intervention policy objectives. These include SMME development, utilization and empowerment of affirmative business enterprises, targeting the most vulnerable communities and sectors of society such as women, youth, the disabled for job creation. The Program provides grant funding for the installation, upgrading and rehabilitation of internal bulk and connector infrastructure. CMIP also provides for the rehabilitation of internal services where appropriate.

The Consolidated Municipal Infrastructure Program (CMIP) was designed to further the aims and the objectives of the Reconstruction and Development Program (RDP), through:

- Providing funding to Municipalities to minimize municipal backlogs through the provision of at least a basic level of infrastructure services to poor households.
- Supporting urban renewal and development.
- Supporting integrated sustainable rural development.
- Supporting local economic development.
- Complementing the housing programme of government.

158 Projects to the value of R409 731 764.73 were identified for the 2002/2003 financial year. 3. OUTLOOK FOR THE 2003/2004 FINANCIAL YEAR

The Department will provide support to municipalities to draw up integrated development plans. The amalgamation of municipalities as concluded by the Demarcation Board will mean that this integrated development plans will be reconciled to produce coherent plans on local and district levels.

As a top priority, an Operation Center for management of disasters on provincial level will be established. Resourceful personnel and Information Center will be devolved and established at District Council offices.

The Department is developing a range of mechanisms that facilitate the physical and social consolidation of secure tenure. This will include policy instruments and legislative guidelines, registration of titles and systems of record keeping.

One of the most significant changes brought about in Local Government is the drastically reduction of Local Councils. This change makes it easier and simple to manage municipalities effectively and enable them to perform their developmental and governance roles as set in the constitution as well as making all the municipal financially sustainable to meet the new challenges.

Municipal Structures Act and Systems Act

The Acts differentiates between several types of municipalities to allow for different local conditions and political preferences. The Systems Act seeks to ensure that all South Africans have access to municipal services but provides considerable autonomy to municipalities to exceed those standards through inactive service delivery, effective cost recovery and appropriate local taxation strategies.

Municipal Support Programme

Various actions have been taken by the Department to address the current situation in municipalities in a short to medium term, long term solution are required to restore financial discipline, eliminate outstanding debts and generate the necessary cash flow. The Department will embark on strategies, focus on financial management of Municipalities and monitoring. The amount of R 30 409 000 had been allocated to Programme 10, Local Government Administration The grant is aimed at supporting efforts to restructure the institutional and financial arrangements so that those municipalities are in a position to fulfill their executive obligations and play their developmental role in a democratic society.

Housing

The delivery of affordable housing for the province's large low-income population has been a primary focus. The value is to establish a sustainable houses process that will eventually enable communities to secure tenure, within a safe and healthy environment and viable communities.

The Department prioritized the following programmes as a means of accelerating Housing delivery:

- 1. Discount Benefit Scheme
- 2. Hostel Upgrading
- 3. Rural Housing
- 4. Urban Development Informal Settlements
- 5. Project Linked Subsidies and Individual Subsidies

An amount of R 325 403 000 is allocated in regard to the Housing Fund which will enable the Provincial Government for the building of about 13 860 houses. The amount of R 8 500 000 regarding Human Settlement Grant is allocated to Programme 5, Housing Administration. R 9 126 000 is allocated for Consolidated Municipal Infrastructure Projects.

Restructuring

Substantial consultations and engagements were made regarding both macro- and microstructures. The macro structure will soon be approved having recommended the realignment of the Department to ensure that the Department is best prepared to meet our constitutional obligation.

Gender Management

The Department has developed policy on sexual harassment and all units are currently giving their inputs. The Department expects the unit to be fully staffed in the near future.

HIV/AIDS Programmes

Workplace programmes on HIV/AIDS ensure that training programmes are developed for management with a view of further mobilizing the municipalities to buy in. One of the critical challenges facing the Department is the establishment of the disability unit with a view of influencing Policy processes around issues pertaining to disabilities. Through this role as currently played by Administrative Support Services Directorate, efforts are made to establish the unit as a full independent unit.
