

## STRATEGIC PLAN 2005/2008

## vision & mission

#### **VISION**

To ensure a safe, secure and prosperous Free State Province of the underpinned by quality policing

#### **MISSION**

To realise the aforementioned vision, we will:

- monitor, oversee and assess police service delivery
- strengthen crime prevention structures
- promote community-police relations
- initiate and co-ordinate social crime prevention initiatives, and
- co-ordinate the efforts of the criminal justice cluster

### FOREWORD BY THE MEC

It is with great pleasure that I present our strategic plan for the 2005/2006 financial year. This strategic plan represents an attempt by government to respond to the crime prevention and community safety needs of the people of the Free State whilst ensuring effective civilian oversight and democratic policing by the South African Police Service (SAPS).

During the 2004/05 financial year our country reached various milestones. Among other things, we managed to hold the third national democratic election under conditions of peace and stability. Furthermore, our country won the bid to host the 2010 World Cup.

This has of course brought various challenges to our Province as we yearn to host World Cup matches in the Free State and ensure that some of the teams hold their training camps in the Province. That goal can only be achieved, if we as a Province are able to invest more resources in crime prevention projects and strengthen the Provincial Safety and Security Secretariat.

During the previous financial year, the Department of Public Safety, Security and Liaison managed to achieve a number of objectives that were set by the people of this Province. These included the intensification of efforts to empower women and children against those who think that they are entitled to violate the basic human and legal rights of others. Second, it involved the establishment of partnerships effectively to deal with the social and physical causes of crime.

For the period 2005/08, we will also focus on:

- Working closely with our partners within the criminal justice system to ensure that there is a reduction of backlogs with regard to pending trials, docket flow management and prosecution;
- Analysing and reporting on the implementation of the Service Charter for Victims of Crime;
- Strengthening the oversight roles of the Community Policing Forums (CPFs);
- Supporting and monitoring municipalities and communities in the development of local crime prevention strategies;
- Developing an inter-agency approach to social crime prevention, cross-border crime and provincial security; and
- Educating and raising public awareness in respect of government policies and strategies on crime prevention and community safety.

All the above-mentioned objectives were carefully and deliberately prioritised with the understanding that the creation of a better life for all, indeed also means safety and security for all our citizens, particularly in an environment which has the increased potential of attracting, sustaining and expanding the economic growth and development of the Free State. We shall not fail our people in this regard.

PHI Makgoe

MEC! Public Safety, Security and Liaison

#### RR A:STRTEG OERW

#### 1. OVERVIEW OF STRATEGIC PLAN

The 2005/2006 Strategic Plan tabled by the Honourable MEC certainly presents service delivery challenges to the Department of Public Safety, Security and Liaison. In this context the department will engage in more innovative organisational arrangements which are driven and guided by an informed commitment to:

- Achieve measurable results in improving customer-centred service delivery to the communities of the Free State Province;
- Ensure value for money by creating efficiencies and establishing partnerships that can enhance the government's delivery of responsive programmes and services;
- Balance the drive for innovation and service delivery, on the one hand, and respect for public sector values and the preservation of the public service of the Free State Province as a vibrant and cohesive national institution, on the other.

A department such as ours that is committed to championing through a wide range of promising avenues is key to the continuing success of the Free State experience with alternative service delivery. These avenues include:

- Horizontal integration of service delivery between the Department of Public Safety, Security and Liaison and other departments;
- Vertical integration of service delivery between the Department of Public Safety, Security and Liaison and other government spheres and State organs;
   and
- Strategic alliances and partnerships with the private sector and with volunteer and non-governmental organisations;

In keeping with the strategic tempo of the Member of the Executive Council moves, the department will adjust to a growing need for flexibility, interdependence and innovation that bears the potential of producing responsive police service delivery to the benefit of individuals and the community in the Free State Province. Our forward march in partnership will bear fruit, indeed crime shall be defeated.

DJKLAAS

**ACCOUNTING OFFICER** 

#### 2. VISION

To ensure a safe, secure and prosperous Free State Province underpinned by quality policing.

#### 3. MISSION

To realize the aforementioned vision, we will:

- monitor, oversee and assess police service delivery
- strengthen crime prevention structures
- promote community-police relations
- initiate and co-ordinate social crime prevention initiatives, and
- co-ordinate the efforts of the criminal justice cluster

#### 4. VALUES

In pursuing the mission cited above, the focus of the department will be guided by the following values:

- Batho Pele principles
- Public Service Code of Conduct
- Shared vision
- Professionalism
- Truthfulness
- Trustworthiness and honesty
- Loyalty
- Reconciliation
- Fairness

#### 5. CORE FUNCTIONS

The core functions of the department are to:

- monitor police conduct and oversee effective and efficient police performance
- co-ordinate crime prevention
- improve community-police relations
- regulate municipal policing, and
- contribute to the national policing policy

#### 6. SECTORAL SITUATIONAL ANALYSIS

#### 6.1 Summary of service delivery environment and challenges

In order to meet its constitutional and legislative mandate, upon which its vision and mission are anchored, the department has identified the following focus areas:

- Monitoring and evaluation of the effective and efficient performance by and conduct of the police
- Prevention of violence and abuse of women and children

- Promotion of an integrated criminal justice system
- Involvement of communities and municipalities in crime prevention and community safety, and
- Initiation and co-ordination of social crime prevention programmes and projects.

#### 6.2 Summary of organisational environment and challenges

The main challenges that face the department relate to various social and physical dislocations upon which criminality feeds. The department will therefore foster co-operation and relations with all stakeholders and role-players in order to address the above issues.

The socio-economic conditions in the Free State Province are some of the factors that hamper the delivery of services. Without an accountable and responsive criminal justice system, community safety and crime prevention efforts will have limited impact. Without the support of communities, crime prevention strategies will never be effective.

#### 7. LEGISLATIVE AND OTHER MANDATES

The mandate, role and functions of the Department of Public Safety, Security and Liaison are determined by:

#### 7.1 The Constitution of the Republic of South Africa

The Constitution (Act 108 of 1996: Section 206 and Schedules 4 and 5) empowers provincial government to:

- monitor police conduct
- oversee the effectiveness and efficiency of the SAPS
- promote good police-community relations
- assess the effectiveness of visible policing
- liaise with, and make recommendations to the National Minister on issues of crime and policing
- pass legislation concerning those policing functions vested in the Province by the Constitution, national legislation and policing policy
- pass legislation concerning various dimensions of civility and public order such as nuisance, recreation, regulation of liquor licenses, traffic and public places
- require Provincial Commissioners of the SAPS to answer questions from and report annually to the Provincial Legislature
- investigate any complaints of police inefficiency or breakdowns of police and community relations, and
- institute proceedings against a Provincial Commissioner in whom the Provincial Executive has lost confidence.

The emphasis of Section 206(3) of the Constitution which concerns provincial powers in respect of policing is on the monitoring and oversight roles of provincial governments.

#### 7.2 White Paper on Safety and Security

The White Paper focuses on the monitoring and crime prevention functions of the Provincial Secretariats. The White Paper also emphasizes the implementation and co-ordination function of provincial and local governments in respect of practical crime prevention projects and encourages provincial governments to take a leading role in co-ordinating and assisting local authorities.

#### 7.3 National Crime Prevention Strategy (NCPS)

The NCPS suggested a range of roles for Provinces in respect of crime prevention:

- Provinces provide a key point of intersection between national policy and local delivery of crime prevention initiatives
- Provincial community policing structures mobilise population to support and participate in crime prevention activities
- Provinces should adopt and develop the NCPS policy framework
- Provinces should design structures to co-ordinate crime prevention, and
- Provinces should establish how best to:
  - set provincial crime prevention priorities
  - promote, co-ordinate, oversee departmental and agency involvement in crime prevention for the Province
  - acquire the necessary skills and capacity in crime prevention
  - meet management, monitoring and assessment requirements of the chosen approach to crime prevention
  - facilitate reporting and co-ordinating with national and local crime prevention structures and programmes
  - review and enhance crime prevention strategies, and
  - enhance the deterrent effect of the criminal justice system by increasing efficiency and certainty in the system.

#### 8. BROAD POLICIES, PRIORITIES AND STRATEGIC GOALS

The broad policies, priorities and strategic goals of the department are as follows:

- Monitor and evaluate the performance of the SAPS in the Province in order to ensure continuous improvements in their performance on crime prevention, law enforcement and to ensure quality service delivery
- Co-ordinate and integrate government-led social crime prevention activities and support community initiatives, and
- Co-ordinate the Criminal Justice System and the Criminal Justice Cluster within the Province to ensure sustained integration.

#### 9. INFORMATION SYSTEMS TO MONITOR PROGRESS

The department utilises the following systems to monitor progress:

#### 9.1 Financial information systems

The department utilises BAS, LOGIS and PERSAL for the capturing of financial and human resource information in order to generate reports that indicate the performance of the department.

#### 9.2 Operational information systems

The department utilises the following tools to collect, collate and analyse data to inform the learning process and future strategic planning:

Toll-free number: The department makes use of the popularised toll-free number (0800 72 73 74) to receive public complaints and compliments. The data collected from the above calls are compiled into a database by means of which police performance can be monitored.

Perception surveys: The department conducted two perception surveys between October 2002 and January 2004. The department utilised the findings of the said survey studies to assess community satisfaction in respect of police service delivery at community service centre level in the Free State Province.

Monitoring tool: The department engages the services of a monitoring tool to:

- monitor and evaluate the functioning of the South African Police service and to report to the Member of the Executive Council (MEC) responsible for Public Safety, Security and Liaison
- to inform and advise the MEC on the policing situation in the Free State, and
- to inform policy-making and decisions through reports and recommendations.

#### 9.3 Information reporting systems

Monthly directorate meetings: Senior managers hold monthly meetings and/or briefing sessions with staff to consult and take decisions on operational matters.

Senior Management meetings: The Head of Department (HoD) holds monthly and/or briefing sessions with senior managers to discuss and take decisions on strategic implementation matters.

HoD/MEC meetings: The MEC holds periodic meetings and receives quarterly progress reports from the HoD on the implementation of the government's policy decisions and the strategic goals of the department.

Quarterly review meetings: It is through these meetings between the Provincial Secretariat of Public Safety, Security and Liaison and the Senior SAPS Management that the effectiveness and efficiency of the police are measured by the Provincial Secretariat for Safety and Security. Furthermore, these meetings are used as information sharing and learning sessions both by the Provincial Secretariat and the SAPS.

#### 10. DESCRIPTION OF THE STRATEGIC PLANNING PROCESS

The department subscribes to the developmental agenda of the government which is underpinned by public participation in the decision-making process of the department. It often takes the form of seminars, conferences, workshops, imbizos, etc.

The primary objective of such a consultative workshop is to strengthen democracy through the active participation of all the stakeholders in the development of the Strategic Plan of the Department of Public Safety, Security and Liaison.

The secondary objectives of the workshop were to provide:

- an opportunity for stakeholders to represent the interests of the constituencies;
- a forum for discussion, consultation and joint decision-making, and
- direct communication between all the relevant stakeholders and the Provincial Secretariat for Public Safety, Security and Liaison.

The stakeholder workshop was immediately followed by a two-day departmental strategic planning workshop where the inputs of each directorate were expressed by the directors.

Over and above the inputs of the stakeholders and staff, the following fundamental policy, legislative and functional framework documents informed and influenced the strategic planning process of the department:

- The Constitution of South Africa (1996)
- The South African Police Service Act (1995)
- The National Crime Prevention Strategy (1996)
- The White Paper on Safety and Security (1998)
- The South Africa Police Service Amendment Act concerning Municipal Policing (1998).

The department is further mandated by the following transversal policies/ legislation that govern and regulate the public service in South Africa:

- Public Service Act
- Public Service Regulations
- White Paper on the Transformation of the Public Service (Batho Pele)
- Public Finance Management Act
- Treasury Regulations, and
- The Labour Relations Act.

In deciding on its strategic objectives, the department took strength from the following policy directives and priorities:

- Five-year Plan of the Free State Development Plan (currently under review)
- Free Provincial Growth and Development Strategy (currently draft)
- State of the Nation Address

- State of the Province Address
- Budget Speech of the Minister of the Safety and Security
- Budget Speech of the MEC for Finance (Free State)
- Budget Speech of the MEC for Public Safety, Security and Liaison
- Executive Council Lekgotla Resolutions, and
- National Programme of Action.

## PART B: BUDGET PROGRAMME AND SUB-PROGRAMME PLANS

#### 11. PROGRAMME 1: CORPORATE SERVICES

The programme consists of the following sections:

- Office of the Member of the Executive Council (MEC)
- Office of the Head of Department
- Internal Audit
- Security Administration and Record Management, and
- Human Resources and Financial Administration

#### 11.1 Situation analysis

The introduction of the new accounting system has impacted positively on the performance of the department.

#### 11.2 Analysis of constraints and measures planned to overcome them

| Analysis of constraints  | Measures planned to overcome them           |
|--------------------------|---|
| Implementation of Supply | Capacity building and training of employees |
| Chain Management         | concerned                                   |

#### 11.3 Policies, priorities and strategic objectives

#### Table: Strategic objectives for programme 1: Corporate Services

| Strategic Goals                | Strategic Objectives                           |
|--------------------------------|--|
| OFFICE OF THE MEC              | Provide an efficient and effective             |

|                               | Develop, implement and maintain an effective |
|                               | information system and ICT strategy          |
|                               | Manage labour relations                      |
|                               | Develop departmental compliance policies     |
|                               | Provide effective auxiliary services         |
| SUPPORT SERVICES              | Implement economic, efficient, effective and |
| Manage the Directorate        | transparent managerial processes in the      |
| Corporate Support effectively | Directorate Corporate Support by the         |
|                               | Programme Manager                            |

#### 12. PROGRAMME 2: CIVILIAN OVERSIGHT

The directorate is divided into two subdirectorates namely Monitoring and Evaluation; and Complaints Registry and Investigations. It is responsible for monitoring:

- the effectiveness and efficiency of the police's service delivery
- the degree to which the police are pursuing the agreed-upon priorities and are achieving these targets, and
- the degree to which the police comply with national policing policy and prescribed directives.

#### 12.1 Situational analysis

The National Secretariat in collaboration with the Provincial Secretariat is in the process of piloting the national monitoring tool that will be used for:

- the monitoring and evaluation of the SAPS's service delivery
- transformative programmes
- implementation of visible policing, and
- accountability to communities mainly at three police stations within the Province.

However, the department uses the provincial monitoring tool at all other police stations. Apart from the national and provincial monitoring tools, the department utilises the provincial complaints centre, mobile complaints unit, suggestions boxes at police stations and surveys to collect data from the public.

#### 12.2 Analysis of constraints and measures planned to overcome them

The constraints and the measures to overcome them for the programme are:

| Analysis of constraints       | Measures planned to overcome them                |
|-------------------------------|--|
| The verification of data from | Data from the SAPS must be validated through     |
| the SAPS needs improvement    | various methods including police station visits, |
|                               | public meetings, suggestion boxes, complaints    |
|                               | received, etc.                                   |

| Analysis of constraints           | Measures planned to overcome them             |
|-----------------------------------|---|
| Bureaucratic and red-tape         | Regular interaction with the SAPS at station, |
| approach by SAPS officials        | area and provincial levels to be improved     |
| Poor collaborative, consultative, | Interaction with other partners within the    |
| inter-governmental and co-        | criminal justice system to be improved. Where |
| operative relations with some     | necessary the National Departments will be    |
| of the key stakeholders and       | asked to intervene.                           |
| role-players                      |   |
| The enhancement of the            | Provide relevant and continuous training and  |
| theoretical and practical skills  | capacity building                             |
| of the staff in the Directorate   |   |
| Civilian Oversight has to be      |   |
| realised                          |   |
|                                   |   |

#### 12.3 Policies, priorities and strategic objectives

Table: Strategic objectives for Programme 2: Civilian Oversight

| Stra | tegic goals             | Strate | gic objectives                         |

#### 13. PROGRAMME 3: CRIME PREVENTION AND COMMUNITY LIAISON

The directorate is divided into two subdirectorates, namely Crime Prevention and Projects and Community Policing. It is responsible for the following:

- Initiate, lead and co-ordinate social crime prevention programmes
- Mobilise resources for social crime prevention and co-ordinate a range of provincial government functions to achieve more effective crime prevention
- Evaluate and support crime prevention programmes of municipalities
- Implement or take joint responsibility for social crime prevention programmes in areas where the municipalities are poorly resourced or lack capacity- in consultation with the Department of Local Government and Housing
- Establish public and private partnerships to support crime prevention
- Align crime prevention initiatives and activities in the Province with national crime prevention priorities
- Provide a key point of interaction between national policy and local delivery of crime prevention initiatives
- Ensure that community policing structures in the Province mobilise communities to support and participate in crime prevention activities
- Implement and develop the National Crime Prevention Strategy (NCPS) policy framework
- Design structures to co-ordinate crime prevention
- Establish how best to (a) set provincial crime prevention priorities; (b) promote, co-ordinate, oversee departmental and agency involvement in crime prevention for the Province; (c) acquire the necessary skills and capacity in crime prevention; (d) meet the management, monitoring and assessment requirements of the chosen approach to crime prevention in the Province; (e) facilitate the reporting and co-ordinating with national and local crime prevention structures and programmes; (f) review and enhance crime prevention strategies in the Province;
- Enhance the deterrent effect of the criminal justice system by increasing efficiency and certainty in the system
- Blocking opportunities for crime in physical environments and in systems by redesigning environments and systems, using an approach known as crime prevention through environmental design; and
- Tackling the multinational dimensions of crime through more effective border security and building a strong and developmental relationship with Lesotho.

#### 13.1 Situational analysis

The national transformation agenda impressed, among others, the need for a community policing approach in a people-driven and customer-oriented approach environment in terms of decision-making by and service delivery in the SAPS. Invariably, the department and the directorate became obliged to:

- add value to the continuous empowerment of vulnerable groups and administer/ facilitate regular interaction between Criminal Justice partners
- ensure that CPFs are operational and legally discharging their functions.
   Interventions should facilitate continuous existence of these structures

- assist and support the development of local crime prevention projects and initiatives; use criteria to allocate funding to projects and ensure sustainability
- through public awareness campaigns ensure maximum community mobilisation and strengthening of the partnership between the SAPS and communities, and
- create and enabling environment where CPF can promote SAPS performance at local level and serve as an instrument in addressing conflict between the communities and the SAPS.

#### 13.2 Analysis of constraints and measures to overcome them

| Analysis of constraints          | Measures planned to overcome them              |
|----------------------------------|--|
| Funding and sustenance of        | Mobilisation of financial resources for social |
| social crime prevention projects | crime prevention                               |
| Shortage of practical skills by  | The practical skills empowerment of members    |
| community members at local       | of the Community Policing Forums (CPFs)        |
| station level                    |  |
| Cross-border crimes remain       | Strengthening of District Liaison Committees   |
| major areas of concern           | (DLCs) and the training of members thereof     |
| Development of local crime       | Establishment of Community Safety Forums       |
| prevention strategies            | (CSFs) to undertake this task                  |
| Partnership formation against    | Partnering with communities and business       |
| crime                            | will be effected                               |

#### 13.3 Policies, priorities and strategic objectives

Table: Strategic objectives for Crime Prevention and Community Liaison

| Strat | egic goals                | Strate | gic objectives   |
|-------|---------------------------|--------|--|
| 1.1   | Initiate, lead and co-    | 1.1.1  | Support crime prevention projects of                   |
|       | ordinate social crime     |        | the Social Cluster                                     |
|       | prevention                | 1.1.2  | Support crime prevention initiatives of municipalities |
|       |                           | 1.1.3  | Strengthen community involvement in                    |
|       |                           |        | social crime prevention                                |
| 1.2   | Enhance integration       | 1.2.1  | Develop inter-agency approach to                       |
|       | between the JCPS, eco-    |        | social crime prevention, border                        |
|       | nomic and social clusters |        | control and provincial security                        |
|       |                           | 1.2.2  | Initiate and support projects from the                 |
|       |                           |        | Justice, Crime Prevention and Security                 |
|       |                           |        | Cluster (JCPS) in the Province                         |
| 1.3   | Intensify the effective-  | 1.3.1  | Establish, sustain and optimise the                    |
|       | ness and efficiency of    |        | functional capacity of CPFs, CSFs and                  |
|       |                           |        | DLCs to promote both urban and rural                   |
|       |                           |        | safety in the Province                                 |

#### 13.4 Resource Information

The current staff allocation is sufficient but they need to undergo theoretical and practical training in critical empowerment areas such as monitoring and evaluation.

### 14. PROGRAMME 4: PUBLIC EDUCATION AND CORPORATE COMMUNICATION

The Directorate Public Education and Corporate Communication is divided into two subdirectorates:

- Public Education, and
- Corporate Communication

It is charged with the following responsibilities:

- Public education and awareness programmes about crime and its prevention
- Value influencing aimed at changing the moral climate of the society into one that does not tolerate violence and law-breaking, and
- Promotion, enhancement and maintenance of the corporate image of the department.

#### 14.1 Situational analysis

The Directorate of Communications was established as an independent component of the Department of Public Safety, Security and Liaison during the 2004//05 financial year. Its establishment was prompted by the need to raise public awareness and educate individuals and communities about crime prevention and community safety on the one hand and to provide internal communication to the department, on the other.

The directorate has already identified various topical and thematic gaps that require public education, clarity and explanation on value changing and awareness on basic human and legal rights, particularly within the framework of the South African criminal justice system.

#### 14.2 Analysis of constraints and measures to overcome them

| Analysis of constraints                   | Measures planned to overcome them    |
|---|--------------------------------------|
| Lack of knowledge on the part of the      | Provision of education to the public |
| public about their legal and human rights | on legal and human rights in part-   |
| in an environment ramified by diverse but | nership with relevant role players   |
| interconnected roles of the police, the   |                                      |
| Departments of Justice and Correctional   |                                      |
| Services                                  |                                      |
| Lack of awareness of the government's     | Awareness-raising on the available   |
| intervention policies and strategies      | intervention efforts of government   |
| Lack of awareness of the need for the     | Impress the need for a multi-pronged |
| involvement of individuals, communities,  | and multi-agency approach to an      |
| municipalities, business, community-      | unpredictable phenomenon such as     |
| and gender-based structures, youth        | crime                                |
| organisations, etc.                       |                                      |
| The department lacks a tool to employ     | Both the internal and external       |
| for the purpose of establishing and en-   | communication strategy will be       |
| hancing its image to the outside world    | developed to vocalise the views of   |
| and to promote internal communication     | the department                       |

#### 14.3 Policies, priorities and strategic objectives

For the purpose of giving effect to the vision and mission of the department, the directorate will seek to ensure therefore that the undermentioned goals and objectives are achieved.

Table: Strategic objectives for Programme 4: Public Education and Corporate Communications

| Strat | egic goals              | Strate | gic objectives                          |
|-------|-------------------------|--------|---|
| 1.    | Influence public values | 1.1    | Promote and encourage crime pre-        |
|       | regarding crime pre-    |        | vention in Free State communities by    |
|       | vention and community   |        | providing factual and relevant          |
|       | safety                  |        | information, and encourage              |
|       |                         |        | community-based crime prevention        |
|       |                         |        | initiatives                             |
|       |                         | 1.2    | Popularise the Service Charter for      |
|       |                         |        | Victims of Crime in South Africa        |
| 2.    | Raise public awareness  | 2.1    | Communicate government's crime          |
|       | on crime prevention and |        | intervention policies and strategies to |
|       | community safety        |        | communities                             |
|       | matters                 | 2.2    | Support mobilisation of communities     |
|       |                         |        | to evaluate police service delivery and |
|       |                         |        | report thereon.                         |
| 3.    | Enhance corporate       | 3.1    | Provide communication services          |
|       |                         |        | communication to the department         |
|       |                         | 3.2    | Profile the image of the department     |
|       |                         |        | within communities and media            |

#### 14.4 Resource information

Upgrading of operational tools, systems and building the capacity of staff is essential.

#### 15. CAPITAL INVESTMENT. MAINTENANCE AND ASSET MANAGEMENT PLAN

The department intends to purchase additional vehicles and computer equipment for new staff that will be employed by the department. Since most of the vehicles, computers and equipment in the department are less than two years in use, the department's maintenance cost will be limited. Because the department is fairly small, all the capital investment cost will be budgeted under Programme 1.

Table: New projects, upgrades and rehabilitation (R 'ooo)\*

| New projects                       | 2002/03 | 2004/05  | 2005/06 | 2006/07 | 2007/08 |

| Non-tax revenue | 176     | 157     | 35       | 35      | 35      | 35      |
| (specify)       |         |         |          |         |         |         |
| Total revenue   | 176     | 157     | 35       | 35      | 35      | 35      |

#### 17. FINANCIAL MANAGEMENT:

#### 17.1 Strategies to address audit queries

Most of the concerns raised relates to the increase in receivables, lack of clearance of accounts including the suspense and travel claims. The department will employ additional financial staff to ensure that all items are cleared timeously.

#### 17.2 Implementation of the PFMA

As indicated above, the department intends to employ additional staff in order to ensure compliance with PFMA. The department will also implement procedures to ensure compliance with Supply Chain Management regulations.

#### 18. CO-ORDINATION, CO-OPERATION AND OUTSOURCING PLANS

#### 18.1 Interdepartmental linkages

The Constitution spells out the certain basic principles of cooperative government and intergovernmental relations that guide the relations between the department and other organs of State and spheres of government.

The department is furthermore involved in co-ordinating and aligning crime prevention initiatives and activities in the province with national crime prevention priorities.

Therefore, when embarking on crime prevention and community safety activities, the department interacts with other government spheres and State organs (such as the Departments of Safety and Security, Health, Social Development, Justice, Correctional Services, Education, Local Government and Housing, Finance, Public Works, Roads and Transport; and municipalities, etc. by:

- fostering friendly relations
- assisting and supporting one another
- informing one another of, and consulting one another on, matters of common interest
- co-ordinating their actions and legislation with one another
- adhering to agreed procedures, and
- avoiding legal proceedings against one another.

Membership in various clusters and other structures greatly influences and enhances the department's collaborative approach to its mandate.
